One medical officer and one lady doctor are on duty together. Owing to the number of trains passing through at night, no arrangement can give more than one night in bed out of every two. Hence the duty is very severe, and the inspecting staff will have to be increased, or a breakdown may be expected.

Daily roster.—The following table will show how the 24 hours are divided into watches so as to give each inspecting officer one night's rest out of two:—

Daily Roster.

9th March 1897 ...	8 A. M. to 12 noon ...	Dr. Calvert. Miss Lander.
	12 noon to 8 P. M. ...	Dr. Peck. Miss Anthoni.
	8 P. M. to 8 A. M. ...	Dr. Calvert. Miss Lander.
10th March 1897 ...	8 A. M. to 12 noon ...	Dr. Peck. Miss Anthoni.
	12 noon to 8 P. M. ...	Dr. Calvert. Miss Lander.
	8 P. M. to 8 A. M. ...	Dr. Peck. Miss Anthoni.

Trains.—The following time-table gives the time and number of trains to be examined (Madras time is kept):—

Number of trains.	Time of arrival.	Number of 1st and 2nd class passengers.	Number of other class.	Plague cases.	Contact cases.	Suspect cases.	Medical officer's signature.	Lady doctor's signature.
1	2	3	4	5	6	7	8	9
12 Down passenger ...	0-3	9	178	...	...	...	J. T. C.	H. L.

Total ...	...	64	3,295	...	...	6		

Examination.—Pending completion of the new platform, the examination of passenges takes place at the station. All passengers are required to alight and be examined—males by the medical officers and females by the lady doctors. A European Station Master, a European Police Sergeant, two Head Constables and nine constables attend each train. Of these, three constables are stationed on the up-platform to see that no person gets out on the wrong side of the train. In addition there are a number of railway *khalasis* present to open locked compartments, assist passengers to alight, &c. If any one is contumacious and declines to submit to the examination, time is not wasted arguing with him, but he is locked in and the carriage is cut off, and put into a siding, he being liable to the Railway Company for any loss or inconvenience they may sustain on this account. On the arrival of the train, ropes with hooks attached are fixed on to both ends of the first carriage and are held taught by the police. Male passengers are ranged in one or two rows nearest the ropes and facing the train. Female passengers are ranged on the platform near the train and facing it; their backs are thus turned towards the men. It has, however, been decided to examine them in future between *purdahs* or *kanats*, so as to shield them altogether from the public gaze. Care is taken to avoid wounding their feelings in any way, and the police are not allowed to handle them at all. The police sergeant or station-master having reported that the compartments are empty, inspection of each passenger and his ticket begins. In a large number of cases their axillæ femoral, inguinal regions, and parotid glands are examined, and the temperature of all suspicious cases is taken. Whilst the inspection of carriage No. 1 is being made, carriage No. 2 is emptied and the passengers prepared for inspection, and so on. After inspection passengers re-enter their compartments, women going first. No one is allowed to wander up and down the platform.

Suspects from Bombay.—Passengers' tickets are examined at Asansole As a result of that examination, the Sub-Inspector of Railway Police, Asansole, wires in advance to the Medical Officer and the Inspector of Police at Khana Junction the number of Bombay passengers, the class in which they are travelling, and in the case of third-class passengers, the number of their carriage. The tickets of third-class Bombay passengers are made over to the guard of the train, and they themselves are put in the last carriage for easy disposal. Passengers from Bombay, Poona, or other infected centres "suspected" by the medical officers are detained, and with their baggages are handed over to a constable for safe custody until the examination of the train is completed. If the medical officer has any serious doubt about a case, he orders the carriage from which it is taken out to be cut off and immediately disinfected. On the departure of the train, the Medical Officer takes charge of the suspect's ticket, notes down the name, age, sex, caste, place of residence, and infected place from whence the "suspect" has come, and the number of train from which he was removed. The station-master on duty hands the Inspecting Medical Officer a slip, showing the number of passengers examined (*a*) 1st and 2nd, (*b*) all other classes, (*c*) total. The inspection is then complete, and the train is allowed to go on.

Disposal of Suspects.—The "suspects" and their effects are then handed over to the European Police Sergeant on duty with any special instruction the Medical Officer may desire to give, and the latter arranges for their escort to the camp.

The Camp staff consists of—

1 Military Assistant Surgeon.

3 Civil Hospital Assistants and menial staff—cooks, bhistis, mehters, &c.

On arrival at the camp the "suspects" are made over by the police constable to the Assistant Surgeon in charge, who tells them off to their proper camp, locates them in a numbered hut, provides them with bedding, *i.e.*, straw, mat, or *takta-posh* as desired, explains the rules of the camp, and finally leaves them in charge of the Hospital Assistant in charge of that particular camp. The Hospital Assistant examines them, takes their temperature, and is responsible that the first signs of any illness are reported, that they are present on various parades, and that their wants as regards water, food, &c., are attended to without hurting their caste prejudices. The information regarding the "suspects" noted by the inspecting Medical Officer is made over to the camp clerk and duly entered in the "release diary" of the officer in charge of the camp, and their tickets are duly filed until their release.

Camp.—The camp is under the immediate control of the Assistant Surgeon, who parades the menial servants, tells them off for duty, inspects the latrines, trenching ground, water-tanks, &c., daily supervises the morning and evening roll-call of all quarantined persons, keeps a daily register, giving the names of all admissions, the camp and the number of the hut in which they have been placed, the date on which their clothes were disinfected, and how the suspects were finally disposed of. He also brings before the Medical Officer in charge each morning the persons who are to be discharged that day for a final examination by that officer, and finally hands them over after discharge with their baggages and tickets duly countersigned to the Inspector of Police for escort to the railway station. He is also in charge of all stores and equipments and their issue, brings to the notice of the Medical Officer persons who are destitute and have to be fed at Government expense. He keeps a daily report book for the information of the Medical Officer in charge. The Medical Officer in charge being on inspection duty every other night and part of each day has to rely greatly on the Assistant Surgeon in looking after the camp. He, however, personally each morning, having given orders the previous evening, examines all suspects paraded for discharge, and after satisfying himself as to their health countersigns their railway tickets which have been filed in the office at the time of admission. Subsequently he inspects the camp in company with the Assistant Surgeon and Hospital Assistant, and sees all quarantined persons, listens to complaints, &c., &c. At the time of his parade all suspects are summoned by a gong and stand in front of their huts. To facilitate these orders being carried out by persons unaccustomed to discipline, the *bunniah's* shop is closed during this parade and open again immediately after it.

At present the camp contains no plague cases, and therefore also no contact cases, but it contains a number of coolies doing construction work. Under the above circumstances very strict quarantine cannot be enforced. Once, however, construction is finished, the various camps can at any moment be strictly segregated and communication stopped. On completion of the new *bunniah's* shop between the "suspect" and "contact" camps, separate hours will be fixed for the occupants of each camp to obtain their daily supplies. With a view to keeping the camps as dry as possible, suspects are not supplied with bathing water, but are allowed to bathe in the large tank at two separate ghats, constables being stationed over each ghat to prevent any water (which is not fit for consumption) being carried away for drinking or cooking purposes:—

Police.—The police force on duty consists of—

1 European Inspector of the Bengal Police.
2 Sergeants of the Railway Police.
2 Constables of the ditto.
11 Head Constables of the Bengal Police.
72 Constables of the Bengal Police.

Of these, 2 Sergeants, 4 Head Constables, and 18 constables are employed on platform duty in two batches, 3 Head Constables and 24 constables are employed on sentry duty in camp, and the remainder on miscellaneous duty, on escort, arms, lines and reserve. Only one escape has taken place up to date. This suspect absconded on the 5th instant, was arrested at Dum-Dum on the 7th instant, and was back in camp in custody on the 8th instant.

Statistics.—Inspection began on the 15th February, and the average daily number of passengers examined is 3,027.

The total number of suspect passengers who have been detained in camp up to date is 273, and the maximum number quarantined on any one day was 135. These figures are largely due to the followers of the Gloucestershire Regiment, 71, and to two ships crews paid off in Bombay, viz., 43 and 33 respectively.

Disinfecting apparatus.—Pending the arrival of a more elaborate disinfecting apparatus, which will be ready by the end of the month, the following arrangements have been made. A steam-boiler has been set up in which steam up to 90 lbs. to 100 lbs. pressure can be generated. Steam from this boiler is passed into an iron tank, in which the clothes to be disinfected are hung on iron rods. This is a "current steam" disinfector only, the tank not being made to stand pressure. The clothes are steamed for 20 minutes. Since the bacillus of plague is non-mobile, non-sporing, and is killed by exposure to a temperature of 60° C. for 5 minutes (Klein) or by exposure to a temperature of 80° C. Kitasato, I believe the above procedure to be sufficient, provided too many clothes are not introduced into the tank at once. In practice it has been found that, owing to the trying nature of the work, the tank becomes very hot. The Hospital Assistant who has been placed in charge of the disinfection is inclined to overload it with clothes, so as to finish his work quickly and get away from the heat surrounding the engine and boiler. If the number of suspect cases should increase, we will probably have to obtain the loan of the services of a European non-commissioned officer or other European who may be trusted to implicitly carry out the orders given him, since the disinfection of clothes is important, and should be thoroughly carried out, and this under native supervision must always be a matter of doubt.

I attach copies of the general rules which have been prescribed for the guidance of medical officers in charge of quarantine camps in Bengal, and also for the disinfection of infected railway carriages.

H. J. DYSON, F.R.C.S.,
Sanitary Commissioner, Bengal.

CALCUTTA,
The 12th March 1897.

GENERAL RULES TO BE OBSERVED BY MEDICAL OFFICERS IN CHARGE OF QUARANTINE PLAGUE CAMPS.

1. The camps are to be divided into three parts, viz.—

1. The Plague camp. | 2. The Contact camp.
3. The Suspicious camp.

2. The Plague camp, as its name implies, should be used as a hospital for actual cases of plague. In the vicinity of this camp there are huts for the accommodation of relatives and attendants of the sick.

3. In the Contact camp all persons found travelling in the same railway carriage with a plague case should be segregated.

4. In the Suspicious camp all persons who appear to be ill, but in whose cases a diagnosis cannot be arrived at immediately, should be segregated and their symptoms carefully watched.

5. In the event of a considerable number of people being segregated, care should be taken to keep each day's batch separate from the others.

6. Quarantine will last for seven days; the date of departure from an infected locality should be taken into consideration in this calculation.

7. The Inspecting Officer will meet all trains from up-country and will carefully inspect all the passengers. The railway compartments should be opened one by one, and the persons travelling in it should be locked in it again before examination of the next compartment is made. In this respect, however, the Inspecting Officer will exercise his discretion with regard to 1st and 2nd class passengers.

8. Rope barriers will be found useful for examination purposes.

9. An infected carriage must be cut off at once and thoroughly disinfected after the removal of the passengers to the various camps. The carriage should first be scraped down with soap and water, and then washed over with a solution of hyd. perchloride 1—2,000.

10. All infected clothing, bedding and articles which cannot be readily disinfected must be burnt.

11. Registers must be kept in each camp showing the date of admission, name, age and sex, daily condition, treatment and, finally, the result, and a daily abstract of this should be submitted to the Sanitary Commissioner, Bengal.

12. On the death of any person the Medical Officer will make a careful inventory of any property he may have, and shall forward the same to the District Magistrate after thorough disinfection, if there is no relative at hand. Foul clothing should be burnt. The Medical Officer should use his discretion in this respect.

13. The plague excreta should be carefully disinfected with a solution of perchloride of mercury 1—2,000. Sawdust should be added in sufficient quantity to allow of its being burnt.

14. Care must be taken to see that the dead are properly and completely disposed of.

15. The Medical Officer should understand that he is responsible for all arrangements—Medical as well as Sanitary—and in addition to the above rules, which are only given for his general guidance, he should exercise his discretion in all matters not provided for here.

16. He should listen to any reasonable complaints from the people who are segregated, and do all he can to rectify their grievances.

17. He is also responsible and should therefore see personally to the quality of the food and water-supply for the persons detained at the plague camps.

CALCUTTA,
The 10th February 1897.

H. J. DYSON, F.R.C.S.,
Sanitary Commissioner, Bengal.

RULES FOR DISINFECTION OF RAILWAY CARRIAGES.

1. Any carriage in which a case of plague has been detected, after being cut off, should be thoroughly washed with soft soap and lime-water. After an interval of 2 to 3 hours this should be washed off with plain water, and then the following disinfecting solution should be thoroughly sprayed all over the interior as well as the exterior of the carriage by means of a syringe:—

Corrosive sublimate	...	½ oz
Hydrochloric acid	...	1 „
Water ...	...	3 gallons.

This solution should be allowed to dry on the carriage Special care must be taken to direct the solution into all the cracks and crevices and jilmills.

2. After disinfection, the carriage should be kept out in the open for 48 hours. It can then be brought into use again.

3. In the case of 1st and 2nd class carriages, which afford greater facilities than 3rd class apartments for the harbouring of plague germs, it will be necessary, if the carriage is contaminated, to burn the cushions and to disinfect the wood-work in the manner indicated above and repaint the interior.

4. Any compartment in which a suspicious case has travelled should be sprayed with the above disinfecting solution before being allowed to proceed; this can be done very rapidly and need cause no detention

H. J. DYSON,
Sanitary Commissioner for Bengal.

PLAGUE NOTIFICATION—No. 7.

The 12th March 1897.

IN exercise of the powers conferred by sub-section (1) of section 2 of the Epidemic Diseases Act, 1897, and by the Notification of the Government of India in the Home Department, No. 302, dated the 4th February 1897, the Lieutenant-Governor is pleased to prescribe the following regulations for preventing the spread of the bubonic plague in Calcutta until the regulations prescribed by plague Notification No. 4 come into force :—

1. In these regulations Health Officer means the Health Officer of Calcutta and includes an Assistant Health Officer and a Chief Superintendent of Conservancy.

2. Every medical practitioner and every police officer or Municipal servant who becomes cognizant of a case of plague shall report the fact to the Health Officer.

3. If on examination of a sick person the Health Officer suspects that such person is suffering from or infected with plague, he may cause such person to be removed to a temporary hospital or isolation shed, and may arrange for his detention, dieting and medical treatment therein. He may also cause the other occupants of the house in which such person resides to be removed to segregation huts, tents or other suitable places, and to be detained under observation for seven days.

4. All persons referred to in regulation 3, and all persons who may be removed to a hospital under the control of the Health Officer by order of the military medical authorities at Calcutta or of the Port Health Officer, shall comply with the instructions given to them by the Health Officer, and shall not leave the place appointed by him for their detention without his written permission.

5. Any masonry house occupied by persons detained under regulation 3 shall be thoroughly cleansed and disinfected, and shall not be re-occupied without the written permission of the Health Officer.

6. If, in the opinion of the Health Officer, the destruction of any hut or shed is necessary to prevent the spread of the disease, the Chairman may, after giving reasonable notice, cause such hut or shed and the materials of which it is composed to be dismantled and destroyed by fire.

7. The clothing, bedding and personal effects of all persons detained under regulation 3 shall be thoroughly disinfected, and may, at the discretion of the Health Officer, be destroyed by fire.

8. In the event of death occurring from plague, the Health Officer shall arrange for the disposal of the body. In the case of a European or Muhammadan, the body shall be buried at least six feet deep and be covered with quick-lime. The place of burial, if not an authorised cemetery, should be well away from habitations and sources of water-supply. In the case of a Hindu, the body shall be thoroughly and completely burned in an isolated locality in the presence of a responsible official. The clothing, bedding and all personal effects of the deceased that are liable, in the opinion of the Health Officer, to carry infection shall be destroyed by fire.

9. Any conveyance, public or private, that has been used by a person infected with, or suspected of being infected with, plague shall be thoroughly disinfected and exposed to air and sunlight for seven days before being again used, and all articles of furniture belonging to it, which in the opinion of the Health Officer cannot be properly disinfected, shall be destroyed by fire.

10. The Chairman may, in his discretion, pay compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations; provided, however, that no person shall be entitled as of right to claim any compensation whatsoever.

11. On the requisition of the Chairman, the Commissioner of Police shall give such assistance as may be necessary in order to enforce immediate compliance with any of the foregoing regulations.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2135A.

No. 1984A.—The 18th March 1897.—Babu Shama Churn Chuckerbutty, Munsif of Kushtia, in the district of Nadia, on leave, is appointed to be a Munsif in the district of Rangpur, to be ordinarily stationed at Kurigaon.

No. 1987A.—The 18th March 1897.—Babu Ambica Charan Mozumdar, Munsif of Kurigaon, in the district of Rangpur, on leave, is appointed to be a Munsif in the district of Nadia, to be ordinarily stationed at Kushtia, and is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50 within the local limits of the Kushtia Munsifi.

No. 1996A.—The 19th March 1897.—Maulvi Syed Ekram Hussein, Officiating Deputy Magistrate, who has, under the order of this date, been posted to the head-quarters station of the district of the Sonthal Parganas, is vested with the powers of a Magistrate of the second class.

No. 2015A.—The 20th March 1897.—Babu Nava Kumar Chakravarti, Deputy Magistrate, Jangipur, Murshidabad, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

No. 2019A.—The 20th March 1897.—Mr. H. F. Samman, Officiating Joint-Magistrate and Deputy Collector, Nadia, is vested with the powers of a Magistrate of the first class, and with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

No. 2021A.—The 20th March 1897.—Mr. H. F. Samman is appointed, under the provisions of section 22, Act X of 1882, to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control.

No. 2034A.—The 22nd March 1897.—Babu Jogendro Chunder Maulik, Munsif of Chittagong, on leave, is appointed to be a Munsif in the district of Jessore, to be ordinarily stationed at Jhenida.

No. 2037A.—The 22nd March 1897.—Babu Mohendro Nath Roy, Munsif of Jhenida, in the district of Jessore, who is now acting as Subordinate Judge of Mymensingh, is appointed to be an Additional Munsif in the district of Chittagong, but to continue to act in his present appointment as Subordinate Judge of Mymensingh.

No. 2039A.—The 22nd March 1897.—Babu Jagadanand Banerji, Officiating Munsif of Sitakund, in the district of Chittagong, is appointed to act as an Additional Munsif in the same district, but to be on deputation at Sitakund, during the absence, on deputation, of Babu Mohendro Nath Roy, or until further orders.

No. 2041A.—The 22nd March 1897.—Babu Purna Chandra Mitra, Munsif of Sitakund, in the district of Chittagong, who is now acting as Munsif of Chittagong, is confirmed in his present appointment.

No. 2043A.—The 22nd March 1897.—Babu Purna Chunder Sircar, Additional Munsif in the district of Chittagong, who is now on deputation at Sitakund, in the same district, is confirmed as Munsif of Sitakund, *vice* Babu Purna Chandra Mitra.

No. 2048A.—The 22nd March 1897.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Manasa Ranjan Sen, Officiating Deputy Magistrate, Midnapore, to take down evidence in criminal cases in the English language.

No. 2080A.—The 23rd March 1897.—In modification of the order of the 22nd February 1897, Babu Joges Chandra Mitter, Subordinate Judge and Assistant Sessions Judge, Bhagalpur, is allowed leave for twenty-seven days, viz., twelve days under article 309 of the Civil Service Regulations, and the remaining period under article 306 (*b*) of the same Regulations, with effect from the afternoon of the 18th February 1897.

No. 2096A.—The 23rd March 1897.—Babu Hari Bhusan De, Officiating Deputy Magistrate, Dacca, is vested with the powers of a Magistrate of the first class.

No. 2102A.—The 23rd March 1897.—Mr. A. H. Cuming, Assistant Magistrate, Sonthal Parganas, is vested, under section 407 of the Code of Criminal Procedure, with power to hear appeals from convictions by Magistrates of the second and third classes.

GRANT OF LEAVE TO MUNSIFS.—*No. 2107A.—The 16th March 1897.*—Babu Shama Churn Chuckerbutty, Munsif of Kushtia, in the district of Nadia, is allowed leave for thirty-four days, under article 306 (*b*) of the Civil Service Regulations, in extension of the leave granted to him on the 26th February 1897.

No. 1702J.—The 20th March 1897.—The Lieutenant-Governor accepts the resignations tendered by the undermentioned gentlemen of their appointments as Honorary Magistrates of the Sasaram Independent Bench, in the district of Shahabad:—

Mr. Juan Solano — Babu Bissesar Dyal.

No 1704J.—The 20th March 1897.—The Lieutenant-Governor accepts the resignation tendered by Babu Tara Prosad Banerji of his appointment as an Honorary Magistrate of the Bangaon Independent Bench, in the district of Jessore.

No. 1706J.—The 20th March 1897.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Achynta Naud Sahai, an Honorary Magistrate of the Begusarai Independent Bench, in the district of Monghyr, to take down evidence in criminal cases in the English language.

No. 1732J.—The 23rd March 1897.—Mr. Thomas Adamson is appointed to be an Honorary Magistrate of the Regular Bench at Giridih, in the district of Hazaribagh, and is vested with the powers of a Magistrate of the third class.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 1714J.

The 22nd March 1897.—It is hereby notified for general information that His Honour the Lieutenant-Governor of Bengal, in the exercise of the powers vested in him by section 13 (1) of the Bengal, North-Western Provinces and Assam Civil Courts Act, XII of 1887, is pleased to direct that, with effect from the 1st May 1897, the local limits of the jurisdiction of the Kaliganj Munsifi, in the district of Dacca, shall be incorporated within the local limits of the Narayanganj and the Sadar Munsifis, viz., the Raipura and Rupganj thanas shall be included in the Narayanganj Munsifi and the Kapasia thana in the Sadar Munsifi. His Honour further directs, under section 14 (1) of the Act, that two of the Munsifs now employed at Kaliganj shall, on and after the aforesaid date, hold their Courts at Narayanganj, and the 3rd Munsif shall hold his Court at Dacca.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 1737J.

The 22nd March 1897.—Under section 8 of the Sonthal Parganas Justice Regulation, No. V of 1893, the Lieutenant-Governor hereby appoints the following Subdivisional Officers of the Sonthal Parganas to be Subordinate Judges, each within the limits of his own subdivision :—

Mr. E. McLeod Smith	...	...	... Godda.
„ F. G. E. Piffard	...	...	... Pakaur.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

DECLARATION.—No. 1635J.

The 15th March 1897.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Sub-Inspector's quarters and the Constables' cook sheds attached to the Memari police outpost in the village of Mahabatpur *alias* Memari, pargana Nolohi, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 cottahs 12 chitaks of standard measurement (corresponding to 9·92 poles), bounded on the north and east by the East Indian Railway Loco. tank, on the south by the zamindari khas patit land, and on the west by Memari police outpost land, is required within the aforesaid village of Mahabatpur *alias* Memari.

This declaration is made under the provisions of section 6 of Act I of 1894 to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Burdwan.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT.

No. 920P.—The 19th March 1897.—The order No. 221P., dated the 22nd January 1897, appointing Babu Rajkishore Das, Deputy Magistrate and Deputy Collector, Bhadrak, Balasore, to act as Assistant Superintendent of the Tributary Mahals, Orissa, is hereby cancelled.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 20th March 1897.

No. 95.—The following notification issued by the Government of India in the Public Works Department is republished for information :—

No. 131, dated the 19th March 1897.—Mr. A. Hayes, Executive Engineer, 1st grade, Bengal, is permitted to retire from the service under article 712 (*c*) of the Civil Service Regulations, with effect from the 2nd March 1897.

No. 96.—The following notification issued by the Government of India in the Public Works Department is republished for information :—

No. 112, dated the 15th March 1897.—The services of Major P. B. Baldwin, R.E., Executive Engineer, 2nd grade, supernumerary, Military Works Department, who has been temporarily deputed to the Public Works Department, are placed at the disposal of the Government of Bengal.

No. 97.—With reference to Government of India, Public Works Department notification No. 112, dated the 15th March 1897, Major P. B. Baldwin, R.E., Executive Engineer, is appointed to be Executive Engineer of the Second Calcutta Division as a temporary measure.

No. 98.—Babu Mohendra Nath Dutta, Assistant Engineer, who is temporarily employed on survey duty in connection with relief works in Bihar, is granted privilege leave for three months, with effect from the 3rd February 1897.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 19th March 1897.

No. 93.—Rai Annada Prosad Sircar Sahib, Assistant Engineer, 1st grade, held charge of the Brahmini-Byturni Division from the afternoon of the 8th February 1897, to the afternoon of the 28th February 1897 in addition to his own duties as Subdivisional Officer of the Kendupatna subdivision of that Division.

No. 94.—Adverting to Bengal Government Notification No. 47, dated the 3rd March 1896, the unexpired portion of the furlough granted to Mr. R. E. Carter, Executive Engineer, is, in accordance with Article 11 (*iii*) of the Civil Service Regulations, cancelled with effect from the 5th February 1897, being the date on which he left London on being recalled to duty.

The 23rd March 1897.

No. 101.—Mr. G. T. Huntingford, Assistant Engineer, is transferred, in the interests of the public service, from the Circular and Eastern Canals Division to the Balasore Division.

No. 102.—The Lieutenant-Governor is pleased to sanction the formation of a temporary Survey Division in the Champaran district, to be designated the "Champaran Canals Survey Division," under the control of the Superintending Engineer, Sone Circle, for carrying out relief operations.

No. 103.—Mr. T. Butler, Executive Engineer, 2nd grade, is appointed to be Executive Engineer of the Champaran Canals Survey Division.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

CIVIL BUILDINGS.

The 23rd March 1897.

North.—by the field of Ramgulab, Halkhure, Ram Nihora Singh, Balgobind Pariag, Rambaran, Kabilash Pande, Gopi Pande, Jhugree Koiri, Gur Parshad Kamkar, Gopal Kandu, Sheotahal Koiri, road, and field of Subha Dusadh, Jhagru Koiri and Mani Chamar;

East.—by the jagir land of Sulhat Singh, Kunjan Singh and Hira Singh;

South.—by the field of Baran Koiri, Sheo Pande, Bundhu Koiri, Hulkhori, Balgobind Pariag, Sheobaran Koiri, Rambaran Koiri, Gur Parshad Kamkar, Gopal Kandee Garib and road;

West.—by the field of Sheo Pande, Ram Nihora Singh, Sheobarun Koiri, Jitbaran, Ahilakh Kandu and Garib Kunjan Singh and the road;

is required within the aforesaid villages of Barwal and Kargahia.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Champaran.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

LOCAL COMMUNICATIONS.

The 23rd March 1897.

No. 104. Erratum.—In lines 2 and 8 of this Department Declaration No. 51, dated the 16th February 1897, published in the *Calcutta Gazette* of the 17th instant, page 259, for the acquisition of land required for the construction of the approach road to the Mirsarai railway station from the Chittagong-Dacca Trunk Road, omit the words "likely to be."

J. G. H. GLASS,
Secretary to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 22nd March 1897.

No. 99.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Tahsil office at Chowsa, in the village of Nirpatpore, pargana Chowsa, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 22½ poles, is required within the aforesaid village of Nirpatpore, pargana Chowsa.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Deputy Collector, Sone Canals, Revenue Division, Arrah.

A. D. McARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 19th March 1897.

No. 63.—Notification.—Babu Hara Chandra Ghosh, Officiating Deputy Magistrate and Deputy Collector, Pabna, is appointed to acquire lands for the Sultanpur-Bogra-Kaliganj Railway in the district of Rangpur.

The 23rd March 1897.

No. 65.—Notification.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required for the Kissengunge-Kotchandpur-Magura Railway survey passing through the marginally-noted villages in the districts of Nadia and Jessore, notice is hereby given, under the provisions of section 4 of Act I of 1894, that survey parties are about to take the field for the purpose of making surveys of the proposed line, and that, in exercise of the powers conferred by the abovenoted section 4 of Act I of 1894, the Lieutenant-Governor of Bengal has authorised the Engineers for the time being engaged in the undertaking to enter upon and survey lands and to do all other acts required for the proper execution of their work as provided or specified in the said section.

The 19th March 1897.

No. 62.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a road diversion at Garowl station, in the village of Garowl, pargana Bisara, zilla Muzaffarpur, it is hereby declared that for the above purpose three plots of land measuring, more or less, 2 bighas 15 cottahs of standard measurement, bounded as follows—

1st plot.—On the east by the land of Rambilas Lal, on the west by the railway station, on the north and south by the railway land;

2nd plot.—On the east and south by the railway land, on the west by the lands of Basu Jha and on the north by the land of Chhakowri Jha;

3rd plot.—On the east by the railway station, on the west and north by the land of Muni Jha and on the south by the village road

are required within the aforesaid village of Garowl.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Muzaffarpur.

The 23rd March 1897.

No. 64.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for making Jagannathganj the terminal station of the Mymensigh-Jamalpur extension instead of Subhankali, passing through the undermentioned villages in the district of Mymensingh, it is hereby declared that for the above purpose a strip of land 24 miles long from Jamalpore, of an average width of 139 feet more or less, is required within the villages of Shapur, Phulbari, Singjani, Triruthia, Kutumoni, Dhamsar, Kalibari, Kaindia, Kabashatia, Dhigarbari, Mankabari, Hasal, Gouripur, Chourpara, Batara, Bousi, Phulbaria, Bangali, Kabarabaji, Simla, Gopinath, Mazibari, Dhonata, Ramnagar, Sumartibaree, Moolbaree, Sursobari, and Jagannathganj.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern, and is in continuation of the one published as Declaration No. 149, dated 8th December 1896, at page 1290 of the *Calcutta Gazette*, dated 9th December 1896.

No. 66.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for alteration of yard at Ondal station, East Indian Railway, in the villages of Ramprosadpur, Balooksanda, Baksa, Sunkrah and Modonpur, pargana Shergarh, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 40 bighas 4 cottahs 10·76 chitaks of standard measurement (corresponding to 13 acres 1 rood 8·06 poles), bounded by a nick on the ground, is required within the aforesaid villages of Ramprosadpur, Balooksanda, Baksa, Sunkrah and Modonpur.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

Copy of a telegram, dated the 18th March 1897, from the Secretary of State, London, to the Viceroy, Calcutta.

MARSEILLES. Arsenicated and dry-salted hides from India admitted.

The 23rd March 1897.

No. 74Marine.—Whereas it appears that the estimated income of the Commissioners for the Port of Calcutta under Act III of 1890, from 1st April 1897 to 31st March 1898, after deducting therefrom the estimated expenditure for the above period, will be insufficient for the payment of the sums which, under the provisions of the said Act, are payable during the year to the Secretary of State for India in Council and to holders of debentures under the said Act, it is hereby notified that from the 1st of April 1897 the Port Commissioners will charge upon all goods landed from or shipped into any sea-going vessel lying or being within the limits of the Port, whether such goods shall or shall not be so landed or shipped at any dock, wharf, quay, stage or jetty belonging to the Commissioners, in addition to or other than those prescribed by any scale of tolls, dues, rates and charges now in force, a toll which shall approximate four annas per ton, except for export coal, the charge on which shall be 2 annas per ton, and on bunker coal, which shall be free. Goods transhipped within the port are exempt; also ballast, with the exception of dressed stone. For the purpose of levying such toll on miscellaneous general cargo landed or shipped at the Kidderpore Docks or at the Jetties, the Commissioners will follow the schedules of charges prescribed for the docks, and the jetties, and charge one-fifth of the rates therein specified; but where the landing or shipping charge is in these schedules levied on the ton by weight, then the special charge under this notification shall be four annas per ton. For the purpose of levying such toll on goods landed or shipped over the inland vessels' wharves or otherwise than through the docks or jetties, the ton shall be reckoned at the actual weight where such is ascertainable. Where the weight is not declared, then the ton shall be reckoned at the respective weights and measurements given in the schedule in force for the inland vessels' wharves.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 15th March 1897.—Babu Janaki Nath Mazumdar, Sub-Inspector of Schools Dinajpur (class VII and officiating in class VI), was granted by the District Board of Dinajpur leave on medical certificate for one month, with effect from the 9th February 1897.

The 23rd March 1897.—Babu Annada Prasad Mitra, B.A., Head Master, Matihari Zilla School (class VI), is allowed leave of absence for two months under Article 306 (*b*) of the Civil Service Regulations, with effect from the 15th March 1897, or such subsequent date as he may avail himself of it.

Babu Ram Das Bhattacharjea, M.A., Third Master of the Chapra Zilla School, is appointed to act as Head Master of the Matihari Zilla School and in class VI, during the absence, on leave, of Babu Annada Prasad Mitra, or until further orders.

C. A. MARTIN,
Director of Public Instruction, Bengal.

NOTIFICATION.

In accordance with Government of Bengal notification No. 315 of 22nd January 1895, notice is hereby given that the next half-yearly examination of compounders will be held at 8 A.M. on Monday, the 26th April 1897, at the Dacca Medical School.

2. Every candidate must produce one of the following certificates :—

(*a*) From the Superintendent of a Vernacular Medical School that he has attended regularly for one year the compounder class of the school, or

(*b*) From the legally qualified medical manager of a chemist's or druggist's establishment, recognised by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment, or

(*c*) From a Civil Surgeon that he has assisted in the dispensing of drugs at the Sadar dispensay of a civil station for a period of five years.

Exception.—Any person who, at the time of extension of section 252 of Act III (B.C.) of 1884, as amended by Act IV of 1894 to any Municipality, shall have acted as compounder for the seven years preceding in any shop or place of the kind referred to in the above section, shall, on producing a satisfactory certificate to this effect, be exempted from producing a certificate of the kind referred to in this rule.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 26th April 1897 at the office of the undersigned.

Exception.—The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will be examined in Materia Medica, Pharmacy, the reading of prescriptions, and the writing in English of the directions contained in prescriptions.

N.B.—The attention of candidates is drawn to Rule 6, section (*b*) of the Government notification of the 22nd January 1895, or paragraph 2 (*b*) of this notification, from which they will observe that the chemists' and druggists' establishments, from the legally qualified managers of which they obtain their certificates, will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

R. MACRAE, M.B. EDIN., *Surgn. Lieut.-Col.*
Superintendent, Medical School, Dacca.

The 16th March 1897.

NOTIFICATION.

IT is hereby notified that the first half-yearly Departmental Examination of 1897 of Assistant and Deputy Magistrates, Special Deputy Collectors and Sub-Deputy Collectors and others, which will be held on Monday, the 3rd May 1897, and the two following days, one local centre will be formed at Dacca for examinees employed in all the four districts of the Dacca Division.

The examination will be held at the Commissioner's office at 10-30 A.M. and 2 P.M. each day.

Hooghly Collectorate, the 17th February 1897. D. B. ALLEN, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 29th March 1897, corresponding with the 17th Chaitra 1303.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of the estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate again to be put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Dinajpur Collectorate, the 3rd March 1897. F. W. DUKE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Puri will be put up to sale at the Puri Collectorate on the 28th of April 1897, corresponding with 17th Bysack 1304 Umli:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Upset price.	REMARKS.

Collector's Office, Puri, the 10th November 1896. N. BHATTACHARJEE, for Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Bankura will be put up to sale on the spot on the 28th day of April 1897, corresponding with 16th Baisakh 1304 B.S, by the Sub-Deputy Collector.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Sub-Deputy Collector at the time of sale. The purchasers of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators, who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Bye-Law.

"EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket is to be obtained from the Commissioners by such driver free of cost at the time of the registration of the cart, to the owner or the person in charge at the time, for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated, or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees."

J. OWEN, Offg. Secretary

Insolvent in person. (1276—1)

In the matter of ABRAHAM JOSEPH ABRAHAM, of No. 4, Weston's Lane, in the town of Calcutta, an inhabitant, an insolvent.

Notice that the petition of the said insolvent seeking the benefit of the Act XI Vic., Chapter XXI, was filed in the office of the Chief Clerk on Friday, the 12th day of March instant, and by an order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

Insolvent in person. (1277—1)

In the matter of GOOCOOL NATH DASS, an insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said insolvent, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Monday, the 29th day of March instant, at the hour of half-past ten o'clock in the forenoon.

☞ Any creditor of the said insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid.

Manuel, Son and Augurwallah, Attorneys. (1278—1)

Chief Clerk's Office, the 23rd day of March 1897.

NOTICE.

In the matterof Girish Chunder Paul and another, insolvents.

IS herchy given that at the hearing of the above matter on Tuesday, the 6th April 1897, an application will be made in the Court for the Relief of Insolvent Debtors at Calcutta for an order that the order of adjudication and the vesting order made herein may be set aside, and that the insolvent Girish Chunder Paul may be declared to be entitled to carry on the business heretofore carried on by him under the names of Nuffer Chunder Paul, Chunder Mohan Paul and Chunder Mohan Paul, Girish Chunder Paul, and that the Official Assignee may be directed to deliver back the books of account and stock-in-trade of the said Girish Chunder Paul upon the said Official Assignee being paid his costs, charges and expenses and such commission as the said Court may allow under the circumstances or such other order as the said Court may be pleased to make in the premises. The creditors of the said insolvents are requested to appear at the hearing to state their objections, if any, to the aforesaid order being made.

SWINHOE & Co., Insolvents' Attorneys.
Calcutta, 9, Old Post Office Street, 19th March 1897.
(1266—1)

Notice.

In the matter of Nabo Coomer Mandle, insolvent.

NABO COOMER MANDLE, son of late Kishari Mandle of Tengra, thana Intally, district 24-Parganas, was declared insolvent on the 28th November 1896 Creditors to prove their claims on 27th March 1897.

CHANDI CHARAN SEN,
Munsif, 1st Court, Sealdah. (Vested with powers under sections 344—359 of Civil Procedure Code.)

(966—1)

POSTAL NOTICE.

PARCELS and packets of samples may not until further notice be sent by post to Portugal, Madeira, and the Azores.

A. U. FANSHAWE, Director-Genl. of the Post Office of India.

Calcutta, the 16th March 1897.

CALCUTTA POST OFFICE NOTICE.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Catalogue of Books procurable from Thomason College Book Depôt.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depôt at Rs. 62 per box. Drawing Instruments, drawing materials, &c., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 19th March, 1897, and is hereby promulgated for general information :—

ACT No. XI OF 1897.

An Act to facilitate the introduction as legal tender in Bhopal of current silver coin of the Government of India.

WHEREAS Her Highness the Begam of Bhopal has, with the concurrence of the Governor General in Council, decided that the current silver coin of the Government of India shall, with effect from a date to be hereafter fixed, be the only silver coin legally current in Bhopal;

And whereas Her Highness the Begam of Bhopal has agreed to receive from the Governor General in Council current silver coin of the Government of India in exchange for Bhopali rupees at an agreed rate;

And whereas it is expedient to facilitate the carrying out of the arrangements aforesaid;

It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Bhopal Coinage Act, 1897; and

(*2*) It shall come into force at once.

Power to supply in exchange for Bhopali rupees rupees from the reserve retained under section 19, Act XX, 1882.

2. Notwithstanding anything contained in the Indian Paper Currency Act, 1882, the Head Commissioner of Paper Currency may, for the purpose of exchange for Bhopali rupees at the agreed rate, supply to Her Highness the Begam of Bhopal rupees of the Government of India, to an amount not exceeding fifteen millions, from the coin retained and secured as a reserve to pay currency notes under section 19 of the said Act : XX of 1882.

Provided that the Bhopali rupees received in exchange for the said rupees of the Government of India shall be remitted as soon as convenient to the custody of the said Head Commissioner, and that current silver coin of the Government of India shall, as soon as may be, be coined to the extent necessary to replace the amount of rupees supplied from the reserve as aforesaid, and that the amount so coined shall be retained and secured in the said reserve.

Duration of Act.

3. This Act shall continue in force for six months from the date of the first supply of rupees under the powers above conferred.

J. M. MACPHERSON,

Secretary to the Government of India.

NOTICE TO MARINERS—No. 59.

[First Publication.]

AUSTRALIA, ST. VINCENT GULF—PORT ADELAIDE RIVER.

Alterations in light beacons and buoys.

THE British Admiralty has given notice (No. 99 of 1897) that on 1st February 1897 the undermentioned alterations would be made in the lighting and buoyage of Port Adelaide river:—

1. Light beacons Nos. 1, 2, 3 and 4 would be discontinued.
   Approximate position, light beacon, No. 1, lat. 34° 50′ 20″ S., long. 138° 30′ 25″ E.
2. All buoys marking the channel would be withdrawn, with the exceptions of the two buoys south-westward of the lighthouse, the two buoys (black) eastward of the closed (Boat) channel, and the two mooring buoys (red), for vessels with explosives near the North arm.
3. The new light system consists of 5 pairs of leading *electric* lights and 8 single *electric* light beacons, numbered from seaward, the former No. 12 becoming No. 1.

The front light of each pair of leading light is *red* and the rear light *white*; with the exception of the first pair within the lighthouse, these remaining as before, front light *white*, rear light *red*; and continuing to mark, in conjunction with No. 2 light (previously No. 11), the direction of the Ocean Steam-vessel buoy and the *bell* buoy at the extremity of the Wonga shoal.

Lights Nos. 1, 10, 11, 12, 13 are pairs of leading lights, giving the direction of the channel past the lighthouse, and from Mutton cove to port Adelaide.

Lights Nos. 2 to 9 inclusive are single beacon lights, marking the edge of the channel between the closed channel and Mutton cove.

When the exact positions of the new lights are known, they will be placed upon the chart, and the present chart of port Adelaide, No. 1750, will then be cancelled.

H. LINDQUIST,

Particulars of Taka Bakang (Teignmouth bank).

THE British Admiralty has given notice (No. 107 of 1897) of the undermentioned particulars of Taka Bakang, the result of a recent examination by the Netherlands Surveying vessel *Banda*:—

Taka Bakang (Teignmouth bank) of five-sided irregular shape, is about 2 miles in length north-west and south-east, and $1\frac{5}{10}$ miles in breath; it dries at low water, with the exception of part at the west end, and is steep-to, with soundings of upwards of 100 fathoms round its edge.

The dark coral, of which Taka Bakang is composed, renders it indistinguishable at high water, when it is completely covered.

Approximate position, east point of Taka Bakang, lat. 4° 58′ 10″ S., long. 118° 33′ 25″ E.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Siberut strait—Sunken rock north-westward of Ujong Sejob.

THE British Admiralty has given notice (No. 112 of 1897) of the existence of a coral patch, about $1\frac{1}{2}$ cables in diameter, with a least depth of $3\frac{1}{2}$ fathoms on it at low water, situated in Siberut strait, in a position with pulo Bojo lighthouse bearing N. 70° W., distant $16\frac{3}{4}$ miles; and Ujong Behuden S. 23° W.

Approximate position, lat. 0° 45′ S., long. 98° 47′ E.

The shoals in the immediate vicinity of the above rock were examined, but no less water was found on them than is shown on the charts.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide river—Beacons lighted by electricity.

In continuation of Notice to Mariners No. 15, dated 20th January 1897, issued by this office, the following further notice (No. 1 of 1897) by the President, Marine Board, Port Adelaide, is republished:—

Referring to Notice to Mariners (No. 6 of 1896) dated December 14th, 1896, notice is hereby given that on and after Monday, the 8th February 1897, the beacons in the Port Adelaide river will be lighted by electricity.

Consequent on the above the whole system of buoys and light beacons will be re-arranged.

Light beacons Nos. 1, 2, 3, and 4 of the present system will be discontinued.

All buoys marking the channel will be removed on the 8th instant except the two outside of the light-house, two black buoys near the old boat channel, and two mooring buoys (for vessels with explosives) in Lipson Reach.

The new system consists of (5) five pairs of leading lights and (8) eight single light beacons.

The pairs of leading lights and single light beacons will be numbered from seaward, instead of in the opposite way, as at present, that is to say, No. 12 and the light behind it of the old system will be No. 1 of the new, and so on.

The near light of each lead will be red, and the far one white, except in the case of No. 1 lead, where the far light will be red, as at present, and the near one white; these two have not been altered, because the red light of No. 1 on with No. 2 is an established lead over the ocean steamers' mooring buoy, and the white light of No. 1 on with No. 2 leads over the bell buoy on Wonga shoal.

The two lights of No. 1 lead through the outer cutting near the light-house, as at present.

Nos. 2 to 9, inclusive, are single lights, and will mark the edge of the channel from opposite the old boat channel to Mutton Cove.

Nos. 10, 11, 12, and 13 are leads, *i.e.*, pairs.

No. 10 is placed on the shore abreast of the two mooring buoys for vessels with explosives, and leads from Mutton Cove half way up Lipson Reach.

No. 11 is placed near the Torpedo station, and leads up the other half of Lipson Reach to the North Arm.

No. 12 is placed on the Swamp south of the False Arm, and leads from the North Arm to the False Arm.

No. 13 is placed on Snowden Beach, and leads from the False Arm to Luff Point.

The following sailing directions are published for general information:—

By night.—In approaching the entrance to the river the lights of No. 1 lead should, as formerly, be brought in line on a N.E. by E. bearing and be kept in line, which will lead between the outer black and red buoys and through the outter cutting. After passing the reflecting beacon gradually alter the course so as to pass the white light of No. 1 lead at a reasonable distance.

From a safe distance off No. 1, steer for a like distance off No. 2, and so on from beacon to beacon round the point until No. 9 is reached. From a safe distance off No. 9 the lights of No. 10 lead will be seen. Keep them in line until the red light is about a quarter of a point open to the right of the white light of No. 11 lead, then gradually alter the course to bring the lights of No. 11 lead in line. Keep them in line (a sharp look-out

being kept for the mooring buoys on the starboard hand) until the lights of No. 12 lead are seen coming into line. Proceed as before by altering the course before the lights are on with each other. The same applies in the change from No. 12 to 13 leads. When the lights on the wharves are seen opening out off Luff Point alter the course so as to round the point at a safe distance, and then up the centre of the channel, looking out for the mooring buoy on the starboard hand.

By day.—The directions by day are the same as by night, merely substituting the beacons for the lights.

In going outwards the directions are just the opposite to those given for coming inwards; but in such case in changing from one lead to another the course should be gradually altered when abreast of the low (red) beacon of each lead.

NOTE.—The beacons from Nos. 1 to 9, inclusive, are placed from 15 to 20 feet shorewards from the edge of the cutting.

A new chart of the Port Adelaide Harbour and river and the Semaphore anchorage, showing the alterations herein referred to as well as other corrections to January last, may now be obtained at the Marine Board Offices, price 2*s*.

This affects charts Nos. 2389 A and B, plan 1750.

AUSTRALIA—FITZROY RIVER.

Additional leading lights near Rocky Point.

WITH reference to Notice to Mariners No. 32, dated 23rd February 1897, issued by this office, the Portmaster, Brisbane, has given notice that the Notice to Mariners No. 1 of 1897 is amended to read as follows, viz.:—

A pair of small white leading lights has been placed on False Point (about 7 cables below Rocky Point), Fitzroy river, which in line bearing about S.E. by E. lead through the gut between the ledge of rock 2½ cables below Rocky Point and the south-west extreme of Egg Sand, with a depth of 11 feet at low-water springs.

The front light is 3½ feet and the back light 18 feet above high water, the distance between them being about 950 feet. After passing the ledge a vessel must leave the line of lights and proceed as hitherto.

July 18th	157	12mo dy	1st...	1,000	ditto ...	0 8 0	The Author, 26, Haralál Mitra's Street, Calcutta.	A mythological drama based on the Mahábhárata. The divine sage Nárada and his nephew Parvata came down to this earth, and fell in love, the former with Sukumári, daughter of King Srinjay, and the latter with Ramá, Sukumári's cousin. The sages were under a vow not to hide their thoughts from one another. But as Nárada broke this vow, he was cursed by his nephew to have a monkey's head, while his own power to return to heaven was destroyed by his uncle's curse. The relatives were, after a time, reconciled to one another and freed from the baneful influence of the curses, lived happily with their wives. The younger sage finally admitted the bewitching influence of love.	4181
Sept. 17th	124	12mo dy	1st...	1,000	ditto ...	0 8 0	Basu, Láhá & Co. 4, Jagannáth Sur's Lane, Calcutta.	This is a drama, of which the scene is laid in Manipur. Kírtti Chandra, King of Manipur, is a widower, and extremely fond of his younger brother Sura Chandra. The latter's wife one day goes to pay her respects to a sanyási, named Mahánanda, who has taken up his quarters in Manipur. Her beauty captivates the false sanyási's heart, and he sets about plotting with a view to seduce her. He succeeds in creating a disunion between the brothers, and the old king renounces the world in disgust. Sura Chandra is then induced by Urvasi, the heavenly nymph, employed by the sanyási as his agent, to abandon his queen Sarváni and his son Banabhúshan. At this juncture Urvasi leaves him, and he renounces the world in sorrow and remorse. Mahánanda then meets Sarváni in a lonely road and attempts to violate her. But baffled in his design, through the timely appearance of one of his former pupils, he loses his senses and becomes mad. The brothers then meet together, and Sura Chandra is restored to his wife and son. But her late misfortune proves too much for the queen, and she dies in the presence of her husband. Thereupon, the brothers place Banabhúshan on the throne of Manipur and turn sanyásis once more. The plot is clumsy and ill-constructed.	4182
Dec. 20th	46	12mo dy	1st...	550	ditto ...	0 4 0	.....	The dramatised version of the story of the abduction of Usha, daughter of King Vána, by Aniruddha, Srí Krishna's grandson, as found in the Harivansa and other works.	4183

1896.	Pages.					Rs. A. P.			
Oct. 3rd	204	8vo dy	1st...	1,500	Printed	1 0 0	Mukherji & Co., 67, Nimtá Ghát Street, Calcutta.	This is a drama based on the story of the conquest of Orissa by Kálápáhár under Suleman Kerani, Nawab of Bengal. The plot is as follows:—Kálápáhár was a Brahmin by birth and led a pure and austere life. Once on a time, being troubled with misgivings regarding the truth of Hinduism, he went to Mukundadev, king of Orissa, who was then under a vow to satisfy the wishes of all, and told him his doubts The king's explanation did not satisfy him, and he went away disappointed. Chanchalá, a woman of the Súdra caste, who was passionately in love with Kálápáhár, although the latter never returned her love, also went to the king to get his permission to marry her Brahmin lover. But the king withheld his permission, and the woman too went away disappointed, vowing vengeance on him. After that incident, Nawab Suleman's daughter, named Imán, fell ill. Chanchalá found out the cause of her illness, which was only a form of love sickness. And as Kálápáhár was the object of her love, she managed to bring him to her. Their interview had the effect of kindling the passion of love for the first time in the heart of Kálápáhár. At this juncture, Chanchalá, in a momentary fit of jealousy, informed the Nawab of the interview, and Kálápáhár was imprisoned by his order. Escaping from the prison, he vowed vengeance on the Nawab and the Musulmans generally. He sought out a Brahman, named Víresvar, who was gifted with supernatural powers and obtained some of them through his favour. Thus armed, he offered his services to Mukundadev and defeated the Nawab and his army in several engagements. Chanchalá then managed to bring Imán to his camp, and his passion for the girl returned. Notwithstanding her protest, he threw up Hinduism, became a convert to Islam and refused to fight against the Musulmans. He and Imán were then cast into prison by order of Mukundadev. But he managed to escape from the prison a second time and vowed undying vengeance on the king, on being falsely told by Chanchalá that Imán had been put to death by his order. Then he offered his services to the Nawab, defeated the king's soldiers, devastated Orissa with fire and sword and put the king to death with his own hands. He then came to learn that Imán was alive and that Chanchalá had told him a lie. Chanchalá then managed to get up an interview between the lovers, stabbed Imán in Kálápáhár's presence, and then committed suicide herself. After this incident Kálápáhár saw the error of his ways, admitted the truth of Hinduism and renounced the world in sorrow and disgust. Víresvar, the possessor of supernatural powers, was extremely disappointed in finding his pupil use the powers granted to him against his countrymen and co-religionists, and saw at last that salvation could be achieved, not by the worship of Sakti alone, but by adoring God with a pure heart and lowly spirit. The book is written with a religious purpose and interspersed with observations bespeaking a high degree of religious and moral culture on the part of the author. Among the characters, Kálápáhár, Chanchalá and Chintámani, a holy sage, stand out in bold relief. The work is of considerable merit.	4185

1896.	Pages					Rs. A. P.			
Oct. 8th	25	12mo dy	1st...	500	Printed	0 4 0	The Author, Kánkseáli, Chinsurá.	The story of a young man, named Divákar, who contracts vicious habits from school, poisons his wife at the instigation of his mistress, and then dies a miserable penitent man.	4192
Sept. 25th	220	8vo cr	1st...	1,000	ditto ...	1 4 0	.....	A domestic fiction describing the fortunes of a young man, named Hem Chandra and his patron Syamasundar, zamindar of Lochanpur, a village in	4193

Bengal. Left fatherless in early life, Hem Chandra was brought up by Syamasundar, towards whom he cherished the sincerest feelings of gratitude and respect all his life. Syamasundar was unhappy in his domestic relations. His wife Mahámáyá was a selfish, masterful woman, and his brother-in-law Sasi Bhúshan was a characterless youth, whose frequent escapades were a constant source of trouble and inconvenience to him. One of these escapades threatened pecuniary ruin to Syamasundar, and he went to Calcutta to get back from one Mr. Palmer, the money he had deposited in his firm. But the firm had failed, and after a very unpleasant interview with Mr. Palmer, Syamasundar had to come back disappointed. About this time, Hem Chandra went to Lochanpur, where his mother lay dying. After her death, as he was performing her *srádh* on the bank of the Ganges, he was suddenly set upon by a gang of *badmashes*, carried away by force and detained in confinement in a secluded spot by order of Sasi. Sasi then personated Hem Chandra, and by that means entered into the possession of the property bequeathed to the latter by his uncle. Syamasundar, who had lost every thing by the insolvency of the firm, was also induced by the wiles of his wife and family priest to aid in the fraud by identifying Sasi. Hem was accidentally rescued from his confinement by one Mr. Hill, an indigo planter and took service under him as a clerk. Mr. Hill was no other than Mr. Palmer under a *nom de plume*. In course of time, Sasi's fraud was discovered, but Hem refused to proceed against him for fear of involving his benefactor Syamasundar in trouble, and ultimately forgave him at the request of Basumati, a girl whom he was to have married, but who was seduced by Sasi and forced to become his wife.

Syamasundar died of sorrow and remorse, Mahámáyá turned mad, while Sasi met with a violent death at her hands, and Hem renounced the world in disgust. Mr. Palmer made amends for his past conduct towards Syamasundar by leaving a legacy of a lakh of Rupees on behalf of his children. The plot is well constructed, and most of the characters, especially those of Hem Chandra, Basumati, Mahámáyá and her sister Virajá, are well-drawn. The book is written in good Bengali.

Dec. 6th	296	12mo dy	1st...	1,000	ditto ...	1 4 0	Mukunda Dev Mukherji, Chinsura.	A domestic fiction showing how a Hindu joint-family conducted on approved principles, proves beneficial to all its members.	4194

Old Rámjay Chatterji had three sons, of whom Anáthbandhu was the eldest, Rajani, the second, and Samsár the youngest. The brothers lived jointly with their parents, and although Rajani's income was the largest and Samsár's the smallest, the utmost good feeling prevailed among the brothers. Rajani's wife was for living separately; but she dared not broach the subject openly to her husband, whom she knew to be devotedly attached to his brothers. His early death, however, prevented a possible breach in the family, while the disinterested zeal and devotion displayed by Anáthbandhu and his wife towards Rajani's widow and infant son made her a changed woman, and she came to look upon the couple with unfeigned love and admiration. Old Rámjay and his wife died at Benares, where Samsár set up as a Brahman-pandit and devoted himself to study and religious contemplation. Upon Anáthbandhu, who was a pleader with a moderate income, devolved the duty of looking after the affairs of the family, and he discharged that duty with a disinterestedness and self denial, which few people in real life are capable of. The book is written from the standpoint of enlightened orthodoxy and full of examples and precepts, which might be availed of by the Hindu public in regulating the concerns of their domestic life. It is written in good, idiomatic style.

Aug. 29th	234	8vo dy	1st...	1,000	ditto ...	1 12 0	.....	A moral fiction teaching the lesson that the highest duty of man consists in devoting himself, heart and soul, to the	4195

service of his follow creatures. The story begins with a description of famine in the Madaripur Sub-division of the Faridpur district, and of the attempt of the local officers of Government to understate the extent of the visitation. Tárá Náth, a Brahman of Bidhi Krishnapur, with his family consisting of his wife Prasannamayí and daughter Punyaprabhá, devotes himself to the work of relieving the distressed, and his house becomes an asylum of the hungry poor. But his charity and philanthropy make him unpopular with the local Deputy Magistrate and with the Zamindar of the village, named Harigopál. The latter plots with Rájá Kálíkánta of Choranagar for his ruin, and one night his house is sacked and daughter Punyaprabhá forcibly carried away to Choranagar to become Kálíkánta's wife. This outrage on Tárá Náth's family is followed by acts of inhuman oppression, perpetrated by order of the guilty zamindars, on people who decline to give evidence on their behalf. The police, liberally bribed, refuses to stir in the matter, until the Magistrate of the district himself appears on the scene. The offenders are at last brought to justice and die in jail after a short imprisonment. Punyaprabhá, who never really became Kálíkánta's wife, returns to her family and marries, after strange vicissitudes of fortune, an ideally philanthropic gentleman, named Premánkura, and consecrates her life to the service of humanity. The couple then leave Bidhi-Krishnapur, where Hari Gopál's widowed wife and daughters-in-law continue Tárá Náth's charity. The characters of Tára Náth, Punyaprabhá, Prasannamayí, Dípti, a friend of Punyaprabhá, who laid down her life for the sake of her friend and of Premánkura are very well drawn. Zamindars in East Bengal are represented in the story as an utterly despicable lot and the police extremely venal and ready to aid the former in the perpetration of the blackest crimes.

1896.	Pages.					Rs. A. P.			
Sept. 2nd	174	8vo dy	1st...	1,000	Printed	1 4 0	Rájendra Lál Ghosh 2, Tálábágán Road, Calcutta.	A story of crime and adventure, in the concluding days of Emperor Jahangir's reign. Govindarám was a wealthy zamindar of Satgaon, who attempted to defraud his elder brother and brother-in-law of their estates, and succeeded for a time. The title of Captain was conferred on him by the Portuguese for a monetary consideration, and he had to appear in his military dress as a leader of the Portuguese forces, who were then marching against Prince Shahjehan, on behalf of Ibrahim Khán, Subadar of Bengal. In the battle which followed, Shahjehan was victorious, and Govindarám, though he kept well out of harm's way, was taken prisoner. His elder brother and his brother-in-law, who had to flee from their homes, in consequence of Govindarám's machinations against them, unexpectedly meet after a series of adventures, arraign their guilty relative before the prince, and are restored to their estates and families. Govindarám is pardoned by the prince, but while on his way home, he is murdered by a young man who had sworn vengeance against him and his family. The plot is ill constructed and the book wretchedly got up.	4206

Dec. 2nd	403	8vo dy	1st...	650	ditto ...	3 0 0	.....	Is perhaps the most noteworthy book of the year. It is the outcome, as the author says, of six years' patient labour and research. In it the history of the Bengali language and literature has been traced from the earliest times down to 1858 A. D. The writer has, for the first time, brought to light a number of minor Bengali poems, the discovery whereof will greatly help the cause of linguistic research in Bengali. He has remarkably succeeded in utilising the materials at his command, and the book is perhaps the first systematic and accurate treatise on the subject, shewing a great improvement in this respect over its predecessor, the late Pandit Rámgati Nyáyaratna's book. The chapters of the book on the origin of case-suffixes and verbal inflections in Bengali may be regarded as the first systematic and perhaps the most successful attempt at the solution of a very knotty problem. The book under notice is devoted to the poetical, with a brief account of the prose literature in Bengali, which latter topic will be dealt with, as the writer says, in a separate treatise.	4213

BOOKS—*contd.*									
1896.	Pages.					Rs. A. P.			
Sept. 28th	12	12mody	1st...	1,000	Printed.	0 1 0	The Author, 8, Báburám Sil's Lane, Calcutta.	Treats of the peculiarities of the different Hindu castes, designated by the names of different animals. The Brahman is described as the horse, the Kshatriya as the lion, and so on. The writer is apparently a man of the Suvarna Vanik caste, and is very hard on Vaidyas and Káyasthas.	4252
„ 20th	170	16mo do	1st...	Nil.	ditto ...	0 12 0	The Author, Siddha Káli, Barisál.	Embodying a course of moral instruction, enlivened by a story addressed to a young wife, with a view to enable her to live a pure and useful life and to discharge her domestic duties properly.	4253
„ 14th	8	8vo dy	1st...	3,000	ditto ...	0 0 3	.....	A short description of Assam and its people.	4254
„ 2nd	204	12mo dy	1st...	1,000	ditto ...	1 0 0	.....	A number of well-written and interesting papers on the Durgápuja festival, and the scenes and ceremonies which precede and follow it. Some of these papers contain very powerful writing and are remarkable for their grim humour and caustic satire. In many of these, the poverty as well as the moral and physical degeneracy of the people are referred to and deplored.	4255
Aug. 28th	224	12mo dy	1st ...	500	ditto ...	0 12 0	The Author, 8, Rasá Road, Bhawánipur.	A number of thoughtful and well-written essays on literary, scientific and social subjects. The papers on the Hindu caste system and the duties and responsibilities of zamindars may be read with interest.	4256
Sept. 21st	180	12mo dy	1st...	1,000	ditto ...	1 0 0	Káli Prasanna Ghosh, Armánitolá, Dacca.	A number of thoughtful essays on literary and miscellaneous topics. The essay on stars and flowers is very interesting reading.	4257
Nov. 10th	144	12mo dy	1st...	1,000	ditto ...	0 8 0	Gaur Chandra Kundu, Khaichura, Jorwargunj, Chittagong.	Inculcates mother worship and devotion to the mother as the highest duty of a son—a duty which regularly and persistently performed is, as the writer thinks, sure to lead to his salvation. Texts from the sastras are quoted in support of the position.	4258
Sept. 20th	64	16mo fc	1st...	1,000	ditto ...	0 4 0	Mahendra Chandra Majumdár, Rungpur,	A severe, and perhaps not wholly undeserved, criticism on Bankim Chandra's novel named Visha Vriksha (Poison-Tree).	4259
„ 24th	116	12mo dy	1st...	1,000	ditto ...	0 8 0	Kedár Nath Bakshi.	A short history of the origin of the different Hindu castes, with a list of the mixed castes given in the form of an appendix. The book is full of quotations from the sástras.	4260
Oct. 1st	32	8vo rl	1st...	500	ditto ...	1 0 0	Nil.	The second part of the work already noticed in this Library Catalogue for quarter ending 30th September 1896 as Bengali Book No. 4080.	4261
Sept. 19th	136	12mo dy	1st...	1,300	ditto ...	0 10 0	Nil.	A short treatise on astrology, containing directions for casting horoscopes and foretelling fortune generally.	4262

BOOKS—*contd.*									
1896	Pages.					Rs. a. p.			
Sept. 10th	9	12mo dy	1st...	3,000	Printed	0 1 0	Rájendra Lál Ghosh, 2, Talá Bágán Road, Calcutta.	Relates to the late Sonágáchi murder case, in which the woman Svarna was one of the defendants.	4285
Aug. 28th	9	12mo dy	1st...	1,000	ditto ...	0 0 6	.....	Lines in praise of the Hindu house-wife and the goddesses Durgá, Lakshmí and Sarasvatí.	4286
„ 24th	26	12mo dy	1st...	1,000	ditto ...	0 4 0	The Author.	A description of the seasons of the year in metres used in Sanskrit.	4287
Oct. 11th	12	12mo dy	1st...	500	ditto ...	0 0 3	Kálidás Pál, Jorásánko, Calcutta.	Verses in which the author, presumably a poor man, gives expression to his thoughts regarding his absent wife on the approach of the Durga Pújá festival.	4288
Sept. 25th	120	12mo dy	1st...	1,000	ditto ...	0 12 0	.....	Short pieces on a variety of topics. Many of these pieces betray the anguish of a patriotic spirit brooding over the discomfiture it has met with in its encounter with wrong doing and oppression. The author is a native of Jayadevpur, which he had to leave for good, apparently for raising his hand against the regime of oppression which is supposed to prevail there. And in his piece on Bhowal, he incites the people of that place to rise against their oppressors. In the piece on Vásantípújá, the author asks his countrymen, if they are really powerless to rescue their native land from the clutches of Demons. Elsewhere he regrets that he was not born a century later, and will not see the sight of an independent empire of India. There is a good deal of powerful writing in the book.	4289
Oct. 16th	56	8vo c r	10th revised	1,000	ditto ...	0 3 0	The Author, 2/3, Cornwallis Street, Calcutta.	A Poetical Reader.	4290
„ 10th	34	16mo c r	1st...	.. ...	ditto ...	0 2 6	.....	A moral primer for children. ...	4291
„ 15th	30	12mo dy	1st...	1,000	ditto ...	0 2 0	Káminí Kumár Dás, Village Kálikápur, Thaná and P. O. Begumgunge, District Noakhali.	A poetical reader for children. ...	4292
Dec. 27th	16	12mo dy	1st...	700	ditto ...	0 1 0	.....	ditto ditto ...	4293
Aug. 25th	152	12mo dy	1st...	500	ditto ...	1 0 0	.....	Describes in blank verse the history of the five Pandava Princes from their flight from the lac-house at Varanávata to their marriage with Draupadi, daughter of the King Drupada.	4294
Sept. 20th	57	12mo dy	1st...	1,000	ditto ...	0 4 0	.....	Lessons on Brahmo religion and morality intended for children.	4295
„ 12th	24	8vo dy	1st...	.....	ditto ...	0 2 0	.....	A lecture on the subject of the late Kesav Chandra Sen's religious life and views.	4296

BOOKS—*contd.*									
1896.	Pages.					Rs. A. P.			
Aug. 22nd	186	12mo dy	1st...	500	Printed.	1 0 0	Brahmo Tract Society, 78, Upper Circular Road, Calcutta.	Sermons preached by the late Kesav Chandra Sen.	4297
Oct. 2nd	46	12mo dy	1st...	200	ditto ...	...	The Author.	Gives esoteric explanations of Srí Krishna's sports with the milk-maids of Vrindávan. According to the writer, the accounts of these sports should not be taken in a material sense.	4298
„ 28th	104	8vo dy	1st...	1,000	ditto ...	0 8 0	.....	Religious and devotional songs.	4299
„ 15th	78	12mo dy	1st...	500	ditto ...	0 4 0	The Author, 9-6, Patuátolá Lane. Calcutta.	A collection of moral and religious precepts, breathing a spirit of the utmost piety and spirituality, and inculcating purity of heart and love of God.	4300
Sept. 24th	36	8vo dy	1st...	1,000	ditto ...	0 4 0	Siv Chandra Vidyárnava Bhattácháryya, Kumárkhálí, District Nadiá.	A collection of esoteric and philosophic songs on the subject of the worship of the goddess Durgá.	4301
„ 21st	12	12mo dy	1st...	1,000	ditto ...	0 1 0	.....	A metrical version of the stories connected with the worship of Hájirpir and of the goddesses Sumati and Sivadurgá.	4302
„ 28th	12	12mo dy	1st...	250	ditto ...	...	.....	Songs in honour of the god Hari.	4303
Aug. 10th	72	12mo rl	1st...	1,000	ditto ...	0 6 0	Prasanna Kumár Gosvámí, 44/7, Darjipárá, Calcutta.	An old Bengali poem containing a metrical account of Srí Krishna's sporting with the milk-maids of Vrindávan, printed, as the publisher says, for the first time from a manuscript, dated 1257B.S. The milk-maids adored Srí Krishna as a lover, and hence the name of the book. The author of the poem is said to be one Krishnadás, a disciple of the celebrated Rúpa Gosvámí.	4304
Oct. 27th	90	12mo dy	1st...	1,000	ditto ...	0 5 0	The Author, Malayapur, District Hugli.	A collection of religious and devotional songs.	4305
„ 5th	34	12mo dy	1st...	1,000	ditto ...	.....	The Author.	A metrical version of the story connected with the first worship of the god Satyanárayan.	4306
„ 16th	48	8vo dy	1st...	1,000	ditto ...	0 4 0	The Author, Shátpur, Hugli.	The greater portion of the book is taken up with a conversation between the goddess Durgá and her friend Jayá and husband Siva, in the course of which the prevailing Anglicism of the times in matters of food, dress, &c., is ironically referred to, and the new Mohant of Tárakesvar eulogised. A collection of religious songs is given in the end.	4307
Aug. 18th	156	12mo dy	1st...	1,000	ditto ...	0 8 0	Shaikh Abdar Rahim.	A treatise on the proper performance of the different kinds of Námáz, Ajan and various purificatory rites enjoined by Islam.	4308

BOOKS.						£ s. d.			
Oct. 2nd	36	12mo dy	2nd...	269	ditto ...	0 1 0	The Author, Bákuliá, at present Simla, Calcutta.	A short account of the life of a Bengali gentleman who, from a common cook, rose by his industry and success in trade to be a millionaire. A short specimen of the author's interesting and highly original style of English composition is given below:— "The hospitality of the great Tárini, son of Rámdhan Chuckerbati, (Sramana like old woman Tara, a Hindu freemason,) (Italic alphabet of Benod Dutt), the plain of a *cross*, master Gopi Babu's whose ancestor was a great merchant in the Bay of Bengal, free helps to all school lessons, (the pedagogue Gopi Banda of capital letters and *chalk commence*,) Khariya, Moya, Kandar, at a distance Damudar and Ganges sing the name of 'golden' Palasi, my *Tola* prof. Madhu Banda, a good logician of Navadwipa school, far better than Government Nyaratnas, 'big' garden of the Pals, site of Satee-rite, the humble birth site of Lala, and his hero a *demi-poet* Dona peasant called Govinda Samanta by Lala in his work, a close neighbour of the author—as one real Govinda Samanta, a mathematician pedagogue was his admirer after his *conversion* and not the proper hero in his work according to the author's version to myself; so Goldsmith names Lissoy Auborn."	3895

Nov. 21st	9	8vo dy	1st...	400	ditto ...	0 1 0	Prassanna Kumár Sen, Konnagar.	Contains short notes on the formation of troops, the modes of warfare, the armour and equipment of soldiers, the different kinds of bows and arrows, and the qualifications of an expert warrior in India in ancient times. The book is the outcome of a careful study of the descriptions of war as given in the Mahábharata and similar epics.	3935
Sept. 1st	31	8vo dy	1st...	200	ditto ...	Nil	Dr. C. Banks ...	This interesting paper, reprinted from the Glasgow Medical Journal, is an abstract of a commended thesis for the M. D. degree submitted to the Medical Faculty of the University of Glasgow. The writer discusses the subject of cholera epidemics with special reference to their connection with pilgrimages, and the main conclusions arrived at by him are:—1. That pilgrimages and human inter-communication generally, are the most powerful factors in the dissemination of cholera. 2. That pilgrimages and cholera are almost inseparably connected, and that the disease confines itself, for the most part, to pilgrim routes. 3. That water is undoubtedly the chief vehicle through which the germs of the disease are introduced into the human system. 4. That the disease, in its incipient stage, is amenable to treatment in most instances.	3936
Nov. 23rd	220	16mo d.c.	1st...	1,000	ditto ...	1 8 0	J. Bowles Daly, LLD., 73, Lower Circular Road, Calcutta.	A collection of articles reprinted mostly from the columns of some of the well-known Indian newspapers. They deal with a variety of topics, and are interesting and agreeable reading.	3937

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE OPIUM DEPARTMENT FOR THE YEAR 1895-96.

REVENUE DEPARTMENT—OPIUM.

Calcutta, the 22nd March 1897.

RESOLUTION—No. 1274.

READ—

The Report on the Administration of the Opium Department for the year 1895-96 (1st September 1895 to 31st August 1896).

Introductory.

The Lieutenant-Governor is pleased to notice that the Board's report was received by Government on the due date (1st February). The Board state that they received the Benares report on the 3rd December and the Bihar report on the 10th December, the due date being the 1st December. The submission of the Bihar report was delayed owing to difficulty felt in compiling the factory returns.

Orders of the Government of India.

2. In their Resolution on the Opium Administration Report for the year 1894-95 (Resolution No. 2439S.R., dated the 8th June 1896), the Government of India laid down the principle to be followed in future in determining the extent of poppy cultivation, and ruled that the area of cultivation should, so far as possible, be fixed so as to produce 54,000 chests of provision opium annually in addition to 7,000 or 8,000 maunds of 80° consistence of excise opium. The Government of India were of opinion that no absolute quantity need be settled as the reserve of provision opium to be maintained, but that

the area of cultivation being fixed, the amount of the reserve will depend upon the produce of any year from that area, being added to or drawn from according as that produce is greater or less than the quantity fixed for sale in the year following. The Government of India then considered the average outturn of opium during the past 22 years from 1873-74 to 1894-95, and came to the conclusion that the area actually cultivated in 1895-96 was sufficient for normal requirements. They therefore directed that the efforts of the officers of the Opium Department in the Benares Agency should be devoted, during the settlements of 1896-97, mainly to securing good cultivation, while maintaining approximately the area under poppy as in 1895-96; on the other hand as the area cultivated in the Bihar Agency was much below the average of previous years, an extension might be made there, if the cultivators found it more profitable to grow poppy than other crops. The Board, in forwarding these instructions, directed the Opium Agents to carry out in the settlements for 1896-97 the policy laid down by the Government of India. The results of the action taken cannot be fully judged till the report for next year is received; but the Board state that the final figures show that, while in the Benares Agency there is an increased area of 43,514 bighas engaged for over that of last year, in the Bihar Agency the area is 9,971 bighas less than in the season now under report. Thus the instructions of the Supreme Government were not fully given effect to in either case. In Bihar the decrease in cultivation was due to the disinclination of the raiyats to cultivate more land with opium.

3. The following statement shows the area engaged for, the area sown, the net cultivation, and the produce in each Agency in the seasons 1893-94, 1894-95 and 1895-96:—

Cultivation.

Season.	Area engaged for.	Area sown.	Net cultivation excluding failures.	Produce at 70° consistence.	Number of chests of provision opium actually manufactured.
1	2	3	4	5	6
Bihar.	Bighas.	Bighas.	Bighas.	Maunds.	Chests.
1893-94 ...	405,236	391,272	379,714	26,116	16,785
1894-95 ...	388,615	382,311	370,342	32,109	18,538
1895-96 ...	382,597	378,694	355,973	35,107	22,741
Benares.					
1893-94 ...	347,028	358,126	353,409	35,236	16,543
1894-95 ...	438,583	461,886	449,668	36,949	17,415
1895-96 ...	535,049	545,624	475,451	52,174	22,300

NOTE—Out of the quantities shown in column 5 under Benares Agency, the following quantities were transferred to Patna, in order to equalise, so far as possible, the number of chests of provision opium manufactured in each Agency :—

	Mds.
1893-94	3,733
1894-95	3,990
1895-96	9,344

From this statement it appears that the raising of the price paid for crude opium to cultivators from Rs. 5 to Rs. 6 per seer from the year 1894-95 has not hitherto had the result of increasing the area of cultivation in the Bihar Agency, and that, in spite of the higher price paid, the area is still declining. On the other hand, the result in the Benares Agency has been to largely increase the cultivation, so that no further additional area is required. This difference in results is, no doubt, largely due to the fact that the profits of cultivation of ordinary crops are higher in the districts comprised in the Bihar Agency than in those of the Benares Agency. The Lieutenant-Governor would, however, draw the special attention of the Board to the decline in the area of

poppy cultivation in Bihar, and, having regard to the last Resolution of the Government of India, desires that strenuous efforts may be made to prevent further decline, and if possible to increase this area. The subject of the competition of other crops with poppy was discussed in last year's Resolution. There can be no question that sugarcane, potatoes, oil-seeds and other crops do compete with opium, and that the bad seasons of several years up to 1894-95 accentuated this competition. Both Agents are of opinion that a good season, with the enhanced price now paid for the drug, is sure to restore to poppy cultivation the popularity it formerly enjoyed. It must be noted however that there cannot always be good seasons, and that if on an average a cultivator finds other crops pay better than opium, he will cultivate them even if there be a bumper poppy season now and then.

The settlements of 1895-96 in Bihar resulted in a decrease of area in every Sub-Agency except Muzaffarpur, Hajipur, and Monghyr. As nearly 16,000 bighas were struck off the Muzaffarpur area in the preceding year, the increase of 690 bighas makes up only a small portion of the loss; while in Hajipur it appears that for a long time past cultivation that has never existed has been shown on paper, advances have been taken, and systematic deception practised. The Lieutenant-Governor awaits a full and complete report from the Board regarding this subject. The survey and settlement records should in future, if properly utilised, make such frauds impossible. In Monghyr the increase was one of 116 bighas only. In addition to the failure of the poppy crops of late years which, as previously noted, has accentuated the competition of other crops, the insecurity of land tenure is mentioned by the Bihar Agent as a cause of the decrease of cultivation. This statement is based upon the remarks of Mr. J. Christian, Sub-Deputy Opium Agent of Shahabad, that the Koeris are losing their occupancy-rights. The Lieutenant-Governor considers that even if this be the fact—and upon this point he would be glad to receive a further report from the Board,—it is not sufficient warrant for alleging the land tenure in Bihar to be insecure as compared with Benares. Now that a survey has been made and a record of rights prepared in Bihar, tenures there are at least as secure and probably more valuable than in the Benares Agency.

In the Benares Agency there was an increase of area in every Sub-Agency except Fyzabad, where the decrease was only nominal, owing to previous mismanagement and showing of false figures. This district is receiving the Agent's special attention. Mr. Wright personally supervised the work of settlement, and the results are exceedingly creditable both to him and to the officers of the department in the Benares Agency.

The Board refer again to the check-measurement work done in the several Sub-Agencies by gazetted officers. The figures for the year under report show some improvement on the whole, but the number of plots of which check-measurement was made and the number of cases detected in which opium had not been grown still vary very widely in different Sub-Agencies. There can be little doubt that this important duty is not properly executed by some officers. The Board should consider how the new survey maps and records can be utilised for the purpose of facilitating the settlements, and the checking of the measurements, and submit a report to Government on the subject. It is a matter for consideration whether the areas of plots under opium cannot in future to a large extent, at any rate, be taken from the survey maps and records without fresh measurements and checks.

Outturn and sales.

4. The produce of 1895-96 showed an improvement over that of the previous year, the average per bigha being in Bihar 3 seers 15 chitaks, against 3 seers 7 chitaks 2 kancha in 1894-95, and in Benares 4 seers 6 chitaks 1 kancha, against 3 seers 4 chitaks 2 kancha in the preceding year. These results are, however, below the average for the last 22 years in each case. In both Agencies the weather was somewhat unfavourable, but better than in the previous season. The worst results were in the districts north of the Ganges in the Bihar Agency, which suffered most from want of rain and where irrigation is defective, and in the trans-Gogra districts of the Benares Agency, which depend more upon rainfall than other districts, as there is less artificial irrigation. The best results were for

Bihar in the Shahabad and Tehta Sub-Agencies, and in the Mirzapur and Mainpuri divisions in Benares. In a season like that of 1895-96, it is specially noticeable how much greater the produce is from irrigated than from unirrigated lands, and this largely explains the differences of outturn in different districts. In 1895-96 there were in all 45,041 chests of provision opium manufactured as against 35,953 chests in 1894-95, giving an increase of 9,088 chests. After deducting the amount that was required to make up the deficiency of the previous year, it appears that, in order to obtain the 39,000 chests of opium to be sold in 1897, it will be necessary to indent on next season's crop of Benares opium for 1,511 chests, while the Bihar outturn will leave a surplus of 1,848 chests. It is satisfactory that the quantity of Nepal opium delivered rose from 97 maunds to 248 maunds, and it is anticipated that if the season be favourable a far larger quantity will be brought in next year.

Owing to the dry seasons the opium obtained at both Agencies was of exceptionally high consistence, the average being 77·87° in Bihar and 73·96° in Benares. This involved considerable loss to Government—firstly, through the higher payments made to cultivators, and secondly, on account of the smaller outturn of cakes manufactured. The Board report that, on the suggestion of Mr. Tytler, the Bihar Agent is consulting the Factory Superintendent, Patna, on the point whether the consistence of the drug supplied cannot be regulated. There were 766lbs. of medical opium in cakes and 167 lbs. in powder manufactured during the year at the Patna Factory, and 33 lbs. of morphia acetate were turned out at Ghazipur. During the year Government sanction was accorded to the improvements required to the Laboratory at the Ghazipur Factory, and the Government of India approved of the proposal to send the alkaloids to London for sale instead of selling them to a Bombay firm. The details of the arrangements to be made are now being considered by Government.

Excise opium

5. The purchase of Malwa opium was continued in 1895-96, 4,112 maunds being bought, of which 1,408 maunds were of special quality, as free from oil as practicable. It is reported that efforts are being made to remove oil from the ordinary Malwa drug, and that Malwa and factory opium are now being mixed together in equal proportions for the manufacture of excise opium. The Board expect that the objection to the Malwa cake will disappear when this blended opium gets to consumers. The purchase of Malwa opium involves a loss of revenue to Government, and the Government of India have stated that it is not intended to continue this system longer than is absolutely necessary.

Expenditure.

6. The expenditure of the year in the Bihar Agency amounted to Rs. 92,76,235, against Rs. 85,68,522 in the previous year, while in the Benares Agency the expenditure was Rs. 1,37,88,793, against Rs. 1,00,86,889 in 1894-95. The increase, therefore, was Rs. 7,07,713 in Bihar and Rs. 37,01,904 in Benares, making a total increase of over 44 lakhs of rupees. This increase was chiefly due to the larger outturn of opium during the year. The average cost per maund of opium on the net expenditure was Rs. 264-3-7 in the Bihar and Rs. 264-4-7 in the Benares Agency, as compared with Rs. 266-13-8 and Rs. 272-15-11 respectively in 1894-95. The average cost per chest of opium was Rs. 461-14 in Bihar as against Rs. 456 1-9 in 1894-95, and Rs. 480-12-4 in Benares as against Rs. 484-15-2 in the preceding year.

Irrigation and advances for wells.

7. It is reported that out of a total cultivation of 355,973 bighas, exclusive of failures, in the Bihar Agency, 281,904 were irrigated and 74,069 unirrigated; and out of a total area of 475,451 bighas in the Benares Agency, 460,301 were irrigated and 15,150 were unirrigated. In Bihar there was a noticeable increase of irrigated lands in Tehta and a decrease in Aliganj, while there was a heavy fall in the unirrigated area in Hajipur, the reason for which is not given by the Agent In the Benares Agency there are only four divisions with unirrigated tracts, and nearly half of this area lies in the Gorakhpur division. There was a heavy increase in unirrigated lands in Gonda and Sitalpur, the causes of which are not explained. There were Rs. 38,805 advanced for wells in Bihar in 1895-96, against Rs. 17,923 in 1894-95, the increase being due to the

dry season. It is stated that 349 pucka and 3,943 kutcha wells were constructed, and 134 pucka wells repaired with the help of these advances. In Benares there were Rs. 13,063 advanced, against Rs. 8,202 in the preceding year, insufficient rainfall being the cause of the increase as in Bihar. There were 61 pucka and 1,671 kutcha wells constructed, and 177 pucka and 75 kutcha wells repaired. In both agencies the sums advanced for construction of wells were small. The Benares Agent mentions that in the Oudh division zamindars object to wells being sunk on their lands, as statutory tenants cannot be ejected without compensation for improvements. The Lieutenant-Governor would reiterate the remark made in last year's Resolution that the construction of pucka wells should be encouraged, as they form permanent improvements and are probably cheaper in the long run, and he would be glad to see larger amounts of money advanced annually for this purpose. The law, in the North-Western Provinces allows tenants at fixed rents and occupancy tenants and in Oudh and Bengal, all tenants to make wells without the consent of their landlords, where the landlords are unwilling to make them themselves, and this being so the objections of the landlords need not interfere with the extension of wells if the law is properly explained to the tenants.

Saw Mills.

8. There were 36,613 provision chests and 5,247 abkari chests made at the Patna Mill during the year, giving a total of 41,860, against 39,427 in the preceding year. All the provision chests were made out of mango wood, the cost being Rs. 2-5-3 per chest, as compared with Rs. 2-6-11 in 1894-95.

Breaches of Opium laws.

9. The following statement shows the figures relating to the breaches of the opium law during the past two years:—

	Cases investigated.		Persons—						Fines—				Rewards to informers.	
			Tried.		Convicted.		Acquitted.		Imposed.		Realized.			
	1894-95	1895-96.	1894-95.	1895-96.	1894-95.	1895-96.	1894-95.	1895-96.	1894-95.	1895-96.	1894-95	1895-96.	1894-95.	1895-96.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
									Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Bengal	1,005	632	1,340	976	1,145	848	187	121*	23,567	26,457	17,241	17,252	21,017	20,635
North-Western Provinces ...	566	518	640	600	490	462	150	138	9,842	8,344	5,075	4,580	4,506	4,274

* Seven persons pending trial.

There were fewer cases investigated in both Agencies in 1895-96 than in 1894-95. The figures regarding fines show that, whereas the average fine per person convicted was Rs. 31 in Bengal, it was only Rs. 18 in the North-Western Provinces and Oudh, and that the realisations of fines were much worse in the latter than in the former province. The Bihar Agent mentions an important case in which three men attempted to smuggle over a maund of an extract of opium from Nepal into the Panjab. They were convicted and sentenced—two men to one year's rigorous imprisonment and Rs. 100 fine each, and the third man to Rs. 100 fine. The Benares Agent mentions several cases of importance in which persons were convicted of illicit possession of opium, and also gives in detail an account of a case of opium smuggling from a Native State in which the accused was sentenced to nine months' rigorous imprisonment.

The asamiwar system.

10. The asamiwar system was introduced experimentally into the three kothis of Barhi, Adapur, and Phulwari in Bihar during the year under report, under the supervision of Mr. A. G. Tytler, C.I.E. The result of this trial has been to show that, except in Barhi, the cultivators do not care for the Benares system in its integrity. An alternative scheme has been drawn up by Mr. Tytler, and the Lieutenant-Governor has sanctioned the trial of this scheme from the 1st September 1896 in the three kothis of Aliganj.

Merits of officers.

11. The thanks of the Lieutenant-Governor are tendered to Mr. Lyall (whose services the Government was sorry to lose) and to Mr. Grimley for their careful supervision of this important Department, and to Messrs. Wright and Grierson, the Agents, for their efficient management of their respective Agencies. Among the officers named as having done specially good service during the year are Messrs. Tytler, Drummond, Blair, Currie, Christian, Graham in the Bihar Agency, and Dr. Sedgefield, Messrs. Gregory, Levett-Yeatts, Pigot and Rai Gunga Charan Roy Bahadur in the Benares Agency.

12. Sir Alexander Mackenzie is glad to be in a position to announce that the prospects of promotion, pay and travelling allowances of the officers of the department will be considerably improved under a scheme recently sanctioned by the Government of India. New rules for admission to the Department are under consideration, and it is hoped that the field of recruitment will soon be considerably enlarged.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

IDENTIFICATION OF OLD OFFENDERS BY ANTHROPOMETRY AND FINGER IMPRESSIONS.

No. 1753J (Police.)—The 23rd March 1897.—The following is published for general information.

C. W. BOLTON,
Chief Secretary to the Government of Bengal.

No. 2471, dated Calcutta, the 13th March 1897.

From—E. R. HENRY, Esq., C.S., Inspector-General of Police, L.P.,
To—The Chief Secretary to the Government of Bengal.

IN continuation of previous reports (the numbers and dates of which are given in the margin), I have the honour to submit information regarding the working in this Province, during 1896, of the anthropometric system, and also regarding the progress made in elaborating a system of classifying impressions with a view to substituting identification by finger prints for anthropometry.

Letter No. 25229 of 22nd December 1891; No. 1732 of 25th February 1893; No. 6558 of 1st May 1894; No. 10552A. of 26th June 1895, and 10500T of 24th June 1896, from the Inspector-General of Police, Lower Provinces, to the Chief Secretary to the Government of Bengal.

II. During the year, 2,101 persons were on arrest, treated as unidentified. By sustained enquiry, the local Police succeeded subsequently in recognizing 1,270 of them, leaving a balance of 831 persons unidentified, with whom Anthropometry had to deal.

The following table, which gives statistics for three years, shows that the success achieved has been progressive, and that the figures compare favourably with those submitted for Provincial France by Monsr. A. Bertillon, to the Fourth International Congress of Criminal Anthropology held at Geneva in August 1896:—

YEAR.	Total number of cases in which identity established by Anthropometry.	Number in column 2 referred by Bengal districts.	Total number of persons in Bengal districts whose identity local Police failed to ascertain.	Percentage of success from Bengal districts (column 4 to column 3).	Percentage of success, with females, juveniles, and non-British subjects excluded from total of column 4.	Number of cases identified by the Paris Bureau on reference from French Provinces.	REMARKS.
1	2	3	4	5	6	7	8
1894	143	113	536	21	27	138	
1895	207	162	641	25	31·6	151	
1896	334	262	831	28	42·3	...	

The figures in column 2 for 1896 include 69 cases identified for the Calcutta Police, 27 for Assam, 1 for Burma, and 1 for the North-Western Provinces.

The figures of column 6 are arrived at by deducting females and juveniles who are not liable to measurement, and non-British subjects belonging to States where anthropometry has not been introduced, from the totals of column 4 for the purpose of calculating the percentage. In 1896, there were 14 females, 53 juveniles, and 103 non-British subjects.

III. These statistics may be relied upon, as much care is taken at the Central Office to guard against bogus identifications. In three cases—one from Mymensingh and two from Nadia—references were made to the Central Office regarding men actually residents of these districts, the explanation offered being that, although the identity of the suspects was known, it was thought, as they were of wandering habits, that they might have been convicted in distant places, intimation not having been sent to their native districts. Of the 334 persons identified, 109 were ascertained to have given correct names and addresses. As pointed out last year, such information, until tested, is of no value, as criminals, to defeat enquiries, occasionally give the names and addresses of persons other than themselves. This information might have been verified by calling witnesses, a tedious and expensive process, which was rendered unnecessary by the testimony afforded by the anthropometric data. When the cases came to trial, the evidence required by law as to the fact of

previous criminality and identity had of course to be produced by the local Police, who, from the information supplied by the Central Office, know where to seek for it.

IV. This outturn justifies the opinion that the anthropometric system is being worked on sound lines and effectively, since, by means of it, 4 out of every possible 10 cases were identified, some of the identifications being from areas not in any way under the departmental control of the Bengal Police Office, as Assam, the North-Western Provinces, Burma, the Calcutta Police.

V. Satisfactory as are these results, longer experience has convinced me that it is possible to substitute, with gain of power and saving of expense, labour and time, a system of identification by finger impressions only, not supplemented by measurements. The difficulties experienced during the last two years in devising an effective system of classifying have at length been overcome. A statement in parallel columns of the strong and weak points of either system will illustrate the advantages claimed.

Anthropometry.	*Identification by finger prints.*
1st.—Instruments are costly, liable to get out of order, and not easily replaced.	*1st*—Accessories needed, a piece of tin and some printer's ink, are inexpensive and procurable everywhere.
2nd.—Measurers have to be put through a somewhat lengthy course of instruction and must be possessed of sufficient education to understand the significance of the figures of the decimal scale.	*2nd.*—Any person, whether educated or not, after half an hour's practice, can take legible finger impressions.
3rd.—The "Personal Equation" error, due to negligence or want of skill on the part of the measurer in taking, reading or transcribing figured results, must always remain a probable source of failure	*3rd.*—As impressions are self-signatures free from all possible errors of observation and transcription, the "Personal Equation" error may be wholly left out of account.
4th.—Recording measurements occupies much time, as each measurement is taken three several times and the mean only accepted. Marks and scars are noted, and this necessitates the body being exposed. High caste measurers express repugnance at having to touch the feet of low caste men, and the persons measured object to the uncomfortable positions into which they are forced.	*4th.*—The impressions of the ten digits can be taken in one quarter of the time needed for measuring. No record of marks and scars is needed, consequently the subject has not to divest himself of his clothes. High caste men do not object to taking finger impressions; even *purdanishin* ladies now give a thumb impression when admitting before a Registrar, the execution of deeds.
5th.—Search in the almirahs is particularly onerous, because allowance must be made for the "Personal Equation" error. For instance, when a card with Length of Head 18·4 is received, it is necessary to assume that the measurer may have gone wrong within 2 millemetres either in excess or defect, and search accordingly is made between 18·6 and 18·2, but the former comes under limit "Long" and the latter under limit "Medium"; *i.e.*, different pigeon-holes have to be examined. Similar allowance has to be made in respect of the other five measurements, with the result that on an average, nine pigeon-holes must be searched, the process, now that our Criminal Record consists of about 30,000 cards, occupying over one hour.	*5th.*—Search is comparatively rapid. By the aid of rigid definitions transitional cases have been wholly eliminated, and search consequently has to be made under one classification number only, and not under several. With criminal records of similar volume, search amongst finger impressions would be manyfold more rapid and, according to my experience, more certain.
6th.—The strongest feature is the excellence of the system of primary classification, whereby roll-cards are distributed amongst 729 pigeon-holes. In this country, owing to there being little variation in the pigmentation of the iris of the eye, or in the colour of the hair, secondary classification upon the data we possess presents many difficulties.	*6th.*—An arrangement similar in principle to the Bertillon system, only more exhaustive, has been devised, whereby finger impressions are, in primary classification, rapidly subdivided amongst 1,024 pigeon-holes, and wherever there is accumulation, effective means of secondary classification have been worked out.

Anthropometry.

7th.—It has been claimed that the probability of all six measurements of two different persons agreeing is so small, that a fraction with a denominator of five figures would be required to express it arithmetically. The assertion would be correct if no allowance had to be made for the "Personal Equation" error, but in practice such allowance (*i.e.*, from 4 to 6 millemetres) is and must be made, and, as coincidences in measurement have occurred, no positive deductions from measurements as to identity can be deemed safe.

Identification by finger prints.

7th.—Each of the ten impressions taken has its own individual "minute peculiarities," which can be observed and described. If for purposes of establishing identity, a couple of minute peculiarities in each impression on a card under search, are selected, sought for, and found in a duplicate, the probability that the impressions on the card under search, and on the duplicate, are those of the same person, is of a higher degree than that which, to most minds, ordinarily represents certainty.

VI. We have ready classified over 8,000 sets of finger impressions with about 600 duplicates, so the materials for subjecting the system to severe tests are ample. If it answers these tests, there will remain no room for doubt that identification by finger impressions must, owing to its inherent advantages, supersede anthropometry everywhere in this country, and also in Europe, and the subject consequently is of more than provincial interest. I venture, therefore, to ask that the Government of India be moved to appoint a small independent Committee to enquire into and report upon the system. Since the beginning of the present year, anthropometric data are no longer taken for permanent record in Bengal. Unidentified persons are being measured as before, so that the existing anthropometric criminal record may be utilized, but the finger impressions only, and not the measurements of new convicts, are being taken.

STOCKS OF RICE IN AND AROUND CALCUTTA.

No. 694Stats.—The following is published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Statement showing the Stocks of Rice in and around Calcutta during March 1897.

M. FINUCANE,
Secretary to the Government of Bengal.

STATISTICAL DEPARTMENT,
The 23rd March 1897.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 699 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 23rd March 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 14th March 1896 and 1897 is shown in the following statement:—

	8TH TO 14TH MARCH			
	1896.		1897.

Gram and pulses	6,722	9,149	9,183	12,499
Other food-grains, such as jowar, barley, oats, &c.	.....	.....	3,987	5,427
Total ...	84,887	1,15,540	243,264	3,31,109

During the week under report, rice continued to be imported in large quantities from Burma, namely, 171,214 cwts., against 188,209 cwts in the week ending 7th March 1897. The only other ports from which rice was imported into Calcutta were Balasore and Chandbali, but the shipments from those places showed a heavy falling off in comparison with those in the corresponding period of last year. Rangoon supplied 9,548 cwts. of paddy, which accounts for the increase shown under this head. The improvement under gram and pulses and miscellaneous food-grains was due to larger despatches from the Madras ports and from Rangoon.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the second week of March 1897 is compared with the figures for the corresponding period of 1896 :—

	8TH TO 14TH MARCH			
	1896		1897.	
1	2	3	4	5
Food-grains.	Cwts	Mds.	Cwts.	Mds
Rice	278,302	3,78,800	64,572	87,889
Paddy	2,889	3,932	... ..	.....
Wheat	488	664	265	361
Gram and pulses ...	19,431	26,448	4,945	6,731
Other food-grains, such as jowar, barley, oats, &c.	.....	.....	970	1,320
Total ...	301,110	4,09,844	70,752	96,301

Foreign Ports.

The total quantity of rice exported to foreign ports fell off from 203,024 cwts in the corresponding period of last year to 63,894 cwts. during the week under report The exports in the preceding week were 120,039 cwts. There was a heavy decline in the quantities sent to Ceylon, namely, 7,412 cwts., against 110,055 cwts. in the preceding year; the increase in exports to Muscat and Persia amounted to 24,822 cwts. and 8,676 cwts. respectively, while Natal received 11,232 cwts. against nil in 1896. To the United Kingdom, Germany and Aden, to which large exports were made during the corresponding period of 1896, there were no exports at all The decrease under gram and pulses was due to the cessation of exports to the United Kingdom.

Indian Ports.

With the coast ports there was practically no trade in food-grains. The consignments of rice fell off from 75,278 cwts. to a merely nominal figure (678 cwts.), and those of gram and pulses from 7,056 cwts. to 3,839 cwts. in comparison with the corresponding week of 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below.

EXPORTS OF FOOD-GRAINS BY THE EAST INDIAN RAILWAY.

No. 693 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the East Indian Railway from Calcutta and Howrah during the period from 1st January to 13th March 1897, both days inclusive, to have been 23,47,137 maunds. The destination of 21,86,269 maunds is specified. About seven-tenths of this quantity (15,17,677) was carried to the North-Western Provinces and Oudh, a little more than one-seventh (3,36,917 maunds) to stations in Bengal, and the rest (3,31,675 maunds) to other provinces.

M. FINUCANE,
Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 22nd March 1897.

Burdwan.—No rain. Weather cloudy. *Rabi* harvest nearly over. Sugarcane still being pressed. Rain wanted for ploughing. Fodder sufficient. Water getting scarce in some villages. Condition of cattle good. Common rice selling as follows:—

	Srs. c.	Srs. c.	
Sadar	10 0	to 12 0	per rupee.
Kalna		11 0	
Katwa	10 15	to 11 2	
Raniganj		10 2	

Birbhum.—·75 rain registered at Sadar on the night of 21st instant. Weather hot. Price of common rice at Sadar 9¾ seers, and at Rampur Hât 10¼ seers per rupee.

Bankura.—Rainfall at Bankura 1·07. Weather cloudy from the 20th instant with occasional storms. The rain has facilitated ploughing. Harvesting of wheat going on. Pressing of sugarcane continues in places. Water insufficient in a few places. Fodder everywhere sufficient. Common rice selling at Bankura 11 seers, and Vishnupur 11½ seer per rupee.

Midnapore.—No rain. Weather rather unsettled. Prospect of indigo not good. Plantation of sugarcane going on. Wheat and barley are being cut in Garhbetta. *Boro* is being sown in Binpur and Gopiballavpur. *Til* is still being sown. Cattle-disease reported from Keshpur, Binpur, Dantun, Benapura, Ramnagar, and Chandrakona. Fodder sufficient except in Chandrakona and water except in Garhbetta. Common rice selling as follows:—

	Srs.	
Sadar	11	per rupee.
Contai	12 to 14	
Tamluk	11½	
Ghatal	11½ to 12½	

Hooghly.—A shower of rain on the night of 21st instant. *Boro* doing well in some places. Common rice sells from 9 to 11 seers per rupee.

Howrah.—Rainfall nil. Weather hot and cloudy. Prospect of *rabi* not good. Fodder and water sufficient. Common rice sells at 8½ to 11 seers per rupee.

24-Parganas.—Rainfall at Sadar ·06. Weather warmer with cloud. Prospects of crops poor. Ploughing is going on, but more rain is wanted. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs. c.	
Sadar	9 to 11 0	per rupee.
Barasat	10 0	
Basirhat	10 8	
Diamond Harbour	10 10	

Nadia.—Rainfall nil. Rain urgently needed for ploughing of lands for *aus*. Harvesting of *rabi* crops almost over. Water-supply generally deficient. Fodder insufficient in places. Common rice sells from 8 to 10 seers per rupee. Latest price of rice where test-works are open is 9 seers per rupee. Numbers on relief on Saturday, 20th March—

	Men.	Women.	Children.	Total.
Relief-workers	5,416	844	597	6,857
Dependants	15	59	1,665	1,739
Otherwise relieved	1,015	4,463	1,329	6,807
Test-workers	406	Nil	8	414
		Total	...	15,817

Murshidabad.—No rain. Weather hot and at times cloudy. Harvesting of *rabi* still continues. Pressing of sugarcane going on. Indigo doing fairly well, but mulberry has suffered greatly from want of rain. Fodder sufficient. Common rice sells as follows:—

	Srs.	
Sadar ...	10	per rupee.
Kandi	10½	
Jangipur	10	

Numbers on relief on Saturday, 20th instant, Sadar and Kandi subdivisions—

	Men.	Women.	Children.	Total.
Test-workers	2,646	10	152	2,808

Jessore.—Weather hot, comparatively dry, and cloudy for three days. Storm on night of 21st, with a shower of rain lasting for a few minutes. Rainfall at Jessore ·21, Jhenida ·01. This will do some good to cultivation, but more is urgently wanted for *til*. *Boro* doing well. Fodder available except in Chowgacha and Keshabpur thanas. Water scarce in places. Cattle-disease reported from Bang on. Common rice sells as follows:—

		Srs.	
Jessore	... ...	10 to 10½	per rupee.
Jhenida	... ...	9½	
Magura	... ...	10 to 10½	
Narail	... ...	10 to 10⅝	
Bangaon	... ...	10 to 11	

Khulna.—No rain. Weather hot. Prospect of *boro* fair, but rain needed urgently. Common rice sells as follows:—

		Srs.	
Khulna	... ...	10 to 12	per rupee.
Bagerhat	... ...	12	
Satkhira	.. ..	9½	

Relief wages calculated at 10 seers per rupee. Fodder available. Water scarce. Numbers employed on fourteen relief-works—

	Men.	Women.	Children.	Total.
Relief-workers	1,292	Nil	122	1,414
Otherwise relieved	569	1,956	1,176	3,701
Total ...				5,115

Rajshahi.—No rain. Transplantation of *boro* paddy over Sowing of jute and *bhadoi* going on slowly. *Til* has commenced to be sown in some places. Fodder available. Scarcity of drinking-water reported from Nauhatta outpost. Price of common rice ranges between 9 and 11 seers per rupee. Three test-relief works open. Numbers on Saturday, 20th March—

	Men.	Women.	Children.	Total.
Test-workers ...	899	Nil	18	917

Price of rice at relief-works, 8 to 9¾ seers per rupee.

Dinajpur.—Rainfall nil. Weather seasonable. Lands are being prepared for *bhadoi* rice and jute Condition of cattle good. Fodder and water sufficient. Price of common rice 10 seers per rupee

Jalpaiguri.—Weather seasonable. *Betri* plants are withering for want of rain, and its cultivation is retarded in many places for want of moisture. A few showers of rain have fallen to-day (22nd), which may do some good to the crop. Drinking-water drying up in places. Fodder-supply fair. Average price of common rice, 8⅛ seers per rupee.

Darjeeling.—No rain. Weather seasonable. Hills—Wheat and barley coming to perfection; *phaphur* and potatoes being harvested; *bhutta* being planted. Terai—Ploughing for *bhadoi dhan*, and jute going on. Price of coarse rice:—

		Srs.	
Hills	... ...	7 to 8	per rupee.
Terai	... ...	9 to 10	

Bhutta, 13 to 16 seers per rupee.

Rangpur.—No rain. Sowing of *aus* going on. Lands mostly prepared for *aus* and jute. Rain wanted. Cutting of tobacco commenced. Common rice selling at 9 to 10 seers per rupee. Fodder and water sufficient except in the Kurigram subdivision.

Bogra.—No rain. Weather warm and cloudy. Sowing of jute and *aus* in progress Fodder and water sufficient. Price of common rice at head-quarters 10⅛ seers, and in the interior from 9 to 11¼ seers per rupee.

Pabna.—Rainfall at Sadar ·34. Weather hot and partially cloudy. No change in prospects of standing crops Common rice sells at 9 to 10 seers per rupee. Fodder plentiful. Numbers on relief on Saturday, 20th March—

Total ...				6,472

Singhbhum.—Rain on Saturday night. Rice plentiful. Price of rice 9 to 12 seers per rupee.

General Summary.—There were scattered, and in some places heavy, showers, accompanied by high winds, in many districts on the 21st and 22nd instant. These showers have done good to the spring crops, and have facilitated the ploughing and sowing of the autumn crops. It is said to have done some damage to the *mahua* crop in Chota Nagpur. The harvesting of the *rabi* crops is in active progress, and the collection of opium is nearly finished. The pressing of sugarcane still continues. The supply of fodder is still generally sufficient, but water is getting scanty in many parts of Bengal Proper. Prices show but little change during the week. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Nadia (common rice) 9 seers, Khulna (common rice) 10 seers, Rajshahi (common rice) 8 to 9¾ seers, Pabna (common rice) 9 to 10 seers, Patna (common rice) 10½ seers, Shahabad (common rice at Bhabua) 8½ seers, Saran (barley) 13 seers, Champaran (Indian-corn) not reported, Muzaffarpur (Indian-corn) 10½ seers, Darbhanga (Indian-corn) seers, Bhagalpur (common rice) 10 and 10¾ seers.

The numbers on relief on Saturday, 20th March, were —

STATISTICAL DEPARTMENT,
The 19th March 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

COMPARATIVE STATEMENT OF THE PRICES OF FOOD-GRAINS.

RETAIL prices of common rice and other food-grains in the several districts of Bengal and in the neighbouring districts of the North-Western Provinces during the first and second fortnights of February and the first fortnight of March in 1897, as compared with the corresponding fortnights of February and March in 1896, are published for general information. The latest available prices of common rice in Cachar and Sylhet are also published.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT, *the 23rd March 1897.*

Quantity obtainable for a rupee.

The total fall from 1st January to 20th March 1897		1·63
The average fall of the corresponding period for 24 years, Surveyor-General's Office		2·46

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed, open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓ dew, ═ fog, o overcast.

REORGANIZATION OF THE SUPERIOR SERVICE OF THE EDUCATION DEPARTMENT.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 26th March 1897.

RESOLUTION—No. 1244.

READ—

(1) Resolution No. 4-Education/204—215, dated the 23rd July 1896, from the Government of India in the Home Department.
(2) Letter No. 959T., dated the 27th October 1896, from the Offg. Director of Public Instruction.
(3) Letter No. 987T., dated the 30th October 1896, from the Offg. Director of Public Instruction.
(4) Sir Alfred Croft's note, dated 15th February 1897.

1. Sir Alexander Mackenzie regrets the delay which has taken place in settling this difficult question. This delay was due to the serious illness of Sir Alfred Croft whose mature advice regarding the many problems involved was much to be desired.

2. The provisions of the scheme, as sanctioned by the Right Hon'ble the Secretary of State, are the following :—

The Department of Education is to be divided broadly into (A) the Superior Service and (B) the Subordinate Service. The former will consist of two branches, one including all posts to be filled by persons appointed in England, which will be called "The Indian Educational Service," and the other, including all posts to be filled by recruitment in India, which will be known as "The Provincial Educational Service."

The Indian Educational Service is to consist of 27 officers, including the Director of Public Instruction, Assam, the Inspector of European Schools, and the Superintendent of the School of Art.

The appointments to be included in this service are—

5 Inspectors of Schools (including the Director of Public Instruction, Assam, and the Inspector of European Schools).

5 Principals of Colleges, viz., those of—
- The Presidency College.
- The Sibpur Civil Engineering College.
- The Patna College.
- The Dacca College.
- The Calcutta Madrasah.

13 Professors, viz.—
- 8 in the Presidency College.
- 2 in the Sibpur Civil Engineering College,
- 2 in the Patna College,
- 1 in the Dacca College.

1 Superintendent of the School of Art.
3 officers to fill vacancies.

Total ... 27 officers.

The Provincial Educational Service is to consist of 104 officers, as follows:—

5 Inspectors of Schools.
10 Assistant Inspectors
7 Principals and
51 Professors of Colleges.
24 Head-masters of Collegiate and Training Schools.
7 Others, including the (1) Assistant Superintendent and the (2) Head-master of the School of Art, (3) the Personal Assistant to the Director of Public Instruction, and (4) supernumerary appointments (Professorships) to be filled by Indian gentlemen with degrees from the Universities of England, Scotland and Ireland, or by Premchand Roychand students.

Total ... 104

That is, the Superior Service is ultimately to consist of—

			Officers.
Indian Educational Service	...	...	27
Provincial ditto	...	...	104
	Total	...	131

The inclusion in the Provincial Service, on personal grounds, of nine other officers has received the sanction of the Secretary of State, and the number in that service was in this way to be brought up temporarily to 113. Of these nine officers, two have been absorbed by appointment to posts which bring them *by right* into the Provincial Service, and one has retired. The Provincial Service should, therefore, apparently consist now of 110 officers; but as the Indian Service numbers now three men more than the sanctioned number, the number in the Provincial Service must be temporarily reduced to 107: thus the Superior Service will at present consist of—

			Officers.
Indian Service	...	...	30
Provincial „	...	...	107
	Total	...	137

By the 1st of May next, *i.e.*, after the retirements of Messrs. Ewbank and Stack, the service will consist of—

			Officers.
Indian Service	...	...	28
Provincial „	...	...	109
	Total	...	137

The Director of Public Instruction will be instructed, when this can be done without impairing the efficiency of the department, to reduce the Superior Service to the proper number of 131 officers by the appointment of officers who are now placed in the service on personal grounds, to posts which properly belong to the Provincial Service.

3. It may be noted, in passing, that of the six Professors sanctioned for the Civil Engineering College, one is referred to in statement G attached to Sir Alfred Croft's No. 1414T., dated 28th June 1895, as "lately indented for from England." The Secretary of State has supplied for the post Mr. Tate, whom he appointed under covenant for five years on Rs. 500 a month, and has directed that this officer is to be reckoned as an officer of the Indian Service after his period of probation. For the present Mr. Tate is given a place in the Provincial Service in square brackets to show that, though not regularly belonging to the service, he nevertheless fills up one of the 104 posts included in the cadre of that service. On the termination of Mr. Tate's period of probationary service the Superior Service will consist of—

			Officers.
Indian Service	..	...	28
Provincial „	...	...	103
	Total	...	131

This follows from the fact that the 27 officers originally provided for have all got posts assigned to them, and that Mr. Tate thus becomes an additional officer in the service.

Indian Educational Service.

4. The names of the 30 officers who now form the "Indian Educational Service" (under which term is included here and in subsequent paragraphs of the Resolution the former graded Superior Service) are given below. To each

officer the choice of the old and the new service was given, in accordance with the orders of the Secretary of State, and the choice of each is recorded after his name:—

Name of Officer.	Service for which he has elected.
1	2
A. L. V. Ewbank ...	Old.
A. Pedler ...	Old.
F. J. Rowe ...	Old.
J. Willson ...	Old.
J. S. Slater ...	Old.
W. Booth ...	Old.
G. A. Stack ...	Old.
J. H. Gilliland ...	Old.
A. C. Edwards ...	Indian Educational Service.
J. Mann ...	Ditto ditto.
P. K Ray ...	Old.
S. Robson ...	Indian Educational Service.
A. Macdonell ...	Old.
E. F. Mondy ...	Indian Educational Service.
M. E. DuS. Prothero ...	Old.
H. M. Percival ...	Old.
A. F. R. Hœrnle ...	Indian Educational Service.
S. C. Hill ...	Ditto ditto.
P. B. Mukerji ...	Old.
G. W. Küchler ...	Indian Educational Service.
C. Little ...	Ditto ditto.
J. C. Bose ...	Old.
C. R. Wilson ...	Indian Educational Service.
N. L. Hallward ...	No choice:
H. R. James ...	Ditto.
W. P [illegible] ...	Indian Educational Service.
B. Heaton ...	Question undecided.
C. W. Peake ...	Indian Educational Service (no choice given).
H. A. Bamford ...	Ditto.
E. B. Havell ...	Ditto.

5. At the time when a choice was given several factors of the scheme were unknown [notably (*a*) the number of staff allowances which will be allowed to the service, (*b*) the principle which will regulate promotions, and (*c*) the date from which effect will be given to the scheme], and Sir Alexander Mackenzie thinks that it is only proper that these officers should be given an opportunity of reconsidering their choice.

6. On the subject of staff allowances, the orders contained in the Government of India Resolution No. $\frac{\text{Education}}{204-15}$, dated 23rd July 1896, are as follows:—

The plan suggested by the Secretary of State in 1892 of attaching personal allowances to the office of Principal and senior Inspector of Schools has been adopted. There will be two grades of allowances of Rs. 250—50—500 and Rs. 200—10—250 a month, respectively, so as to correspond to some extent with the higher rates of pay in the graded list, which will be supplanted by the new system. The allowances will be strictly *personal*, within the meaning of the Civil Service Regulations, *i.e.*, they will be held continuously by officers whether on duty or on leave (subject to the provisions of the leave rules in regard to allowances during leave), and will not be given to those who act for them during their absence. The following is the scale of allowances allotted to the several provinces:—

* * * * * * * *

Bengal.—(*a*) Two allowances of Rs. 250—50—500 a month, and (*b*) three allowances of Rs. 200—10—250 a month. The allowances will be open to the two senior Professors only at the Presidency College, Calcutta, and to Principals of Colleges and Inspectors of Schools generally, the rule being that they should be given to the senior, or most deserving, men, and should not be treated as staff allowances attached to certain offices.

7. In connection with these orders, Sir Alfred Croft has noted:—

An unfortunate mistake has crept into the Proposition Statement, showing the new sanctioned scale. In paragraph 5 of the Government of India's letter No. 210, dated the 18th August

1894, it is stated:—"The Lieutenant-Governor agrees with the Government of India that there should be two personal allowances on the higher scale of Rs. 250—50—500 . . . The Government of India are of opinion that the number of allowances on the lower scale should be fixed at four (one of which would be held by the Director of Public Instruction in Assam)." In my letter to Government, No 1114T., dated 28th June 1895, I referred (end of paragraph 2) to the number of officers in the "European Service" (now styled "Indian") as 27; but in the attached Proposition Statement A, showing the financial effect to Bengal, I excluded the salary of the Director of Public Instruction, Assam, and reduced the number of officers to 26, with two higher-scale allowances and three lower. To the "three lower" I appended a foot-note, "Excluding the Director of Public Instruction, Assam"; but this was unfortunately misprinted "Including." The Government letter forwarding these Proposition Statements to India (No. 2832, dated 14th August 1895) explains (paragraph 3) that there are to be 26 officers of the European Service, "exclusive of the Director of Public Instruction, Assam"; and it was not noticed that Proposition Statement A showed 26 officers, *including* the Director of Public Instruction, Assam. The mistake was not subsequently detected, and it is repeated in Appendix B, attached to the Home Department Resolution of the 23rd July 1896, in which, while 27 appointments are shown, "including the Director of Public Instruction, Assam," there are only five personal allowances, two in the higher and three in the lower scale. I hope I am right in assuming that the mistake has only to be pointed out to be corrected, and that the number of personal allowances for Bengal and Assam together will be increased from five to six, as stated in India's letter quoted above. I should also point out that while in that letter the personal allowance for the Director of Public Instruction, Assam, was restricted to the lower scale, no such restriction finds a place either in the Resolution of the 23rd July 1896, or in Appendix B attached thereto. I presume that the original order stands good, but a definite ruling on the point seems necessary.

8. The Lieutenant Governor agrees with Sir Alfred Croft in thinking that five staff allowances only were sanctioned for Bengal owing to the mistake referred to. The matter will be brought to the notice of the Government of India, with a recommendation that the mistake may be rectified.

9. In regard to the principle by which the promotion of officers coming under the old or under the new system shall be governed, Dr. Martin, in his letter No. 987T., dated 30th October 1896, proposed the following rule:—

No officer, to whichsoever service he may belong, will have any claim to promotion, be it to Class I or Class II of the graded service, or to one of the staff allowances in the Indian Educational Service, till such time as he would have had a legitimate expectation of preferment, on the supposition that the Education Department officers who were graded on the 1st July 1896 had elected for the particular service to which he belongs.

This rule is criticised by Sir Alfred Croft in the following terms:—

The necessity of a rule upon the point arises from the fact that there are eight (what may be called) staff appointments under the old system, and only six under the new. The officers affected could not claim more than eight staff appointments, however distributed between the old and the new service, but they seem at first sight to be entitled to six at any rate. If all the officers had chosen the old system, or all the new, there would be no difficulty; and Dr. Martin's proposed rule is based on this supposition. But the result of it would be that, as the distribution stands, the number of officers enjoying staff allowances might easily be not only less than eight, but less than six. This will be evident from the following illustration. On the 1st April Messrs. Ewbank and Stack and I shall have retired, and I assume that Dr. Martin will be appointed Director. The senior officers will then stand as follows in their order:—

Old system.	*New system.*
Pedler.	
Rowe.	
Willson.	
Slater.	
Booth.	
Gilliland.	
	Edwards.
	Mann.
Roy.	
	Robson.
Macdonell.	
	Monly.
Prothero	
	Hœrnle.

Messrs. Pedler and Rowe will be promoted to Class I of the old service, and Messrs. Willson, Slater, Booth and Gilliland will remain in Class II. The other two appointments out of the six in Class II will be suspended. Messrs Edward and Mann cannot claim them, because they have elected the new service, in which there are only six staff appointments. Dr. Roy and Mr. Macdonell cannot claim them, the way being blocked (under the assumed rule) by

Messrs. Edwards and Mann. Next let us suppose, what will probably be the case, that Messrs. Pedler and Willson go on leave from the 1st April. The two appointments in Class I will then be held by Messrs. Rowe and Slater. In Class II there will be Messrs. Booth and Gilliland and Dr. Roy, and no others will apparently be entitled to promotion. For the claim of Mr. Edwards to promotion is only valid on the supposition that all the officers above him have chosen the new service, and that one of the six personal allowances is left vacant for him. But the six allowances in the new service are strictly personal, and no junior officer succeeds to one when his senior goes on leave. Mr. Edwards, therefore, would have no claim, nor similarly would Mr. Mann. The claim of Mr. Macdonell is barred by Mr. Robson, the eighth remaining officer in the list. Hence, only five staff appointments would be enjoyed. To take an extreme supposition, if all the first six officers on the list were on leave together, no officer in the new service would, under the proposed rule, be entitled to promotion, and the only promoted officers in the old service would be three,—Messrs. Roy, Macdonell and Prothero. No officer in the new service would, in fact, be entitled to promotion until one of the six senior men had retired.

These are the obvious objections to the proposed rule; briefly, that the number of staff appointments actually held at one time would often be less than the number sanctioned under either system. But having given the subject full consideration, I am inclined to think that Dr. Martin's proposal is sound. It is certainly, in my opinion, correct as regards permanent promotions. With regard to officiating promotions there is room for doubt, but even so, it may be defended. The rule is based on the principle that no officer can rightfully claim any advantage which would not have been open to him had all his seniors elected the service to which he belongs Therefore, no junior officer in the old service can claim promotion merely from the fact that senior officers in the new service, who would otherwise have come within range of promotion, are not entitled to it. Again, officers in the new service would seem to have no grievance, because the Government orders have made it clear that the personal allowance of an officer on leave is not transferable to his substitute; and further, those officers in Class III, who have chosen the new service and are of 15 years' standing (Messrs. Edwards, Mann, Robson, Mondy, Hœrnle and Hill) gain the immediate advantage of an increase of pay to Rs. 1,100. At the same time it is not clear that officers, when making their choice, have understood on what principle future promotions are to be made. Mr. Edwards, for example, told me that he expected officiating promotion if an officer went on leave, making him the sixth on active service, which promotion he would not be entitled to under the proposed rule. This question of promotions may possibly have arisen in other provinces, and it may be necessary to refer it to the Government of India for settlement. When definite orders on the point are issued, I should recommend that officers be given an opportunity of reconsidering their choice. This will be all the more necessary if any increase, such as I have proposed above, be made in the number of personal allowances in the Indian Educational Service Meanwhile I would suggest that the word "permanent" be inserted before "promotion" in the proposed rule, the question of officiating promotion being left for future settlement.

Sir Alexander Mackenzie is inclined to concur in the view thus taken by Sir Alfred Croft, but as the question is involved in difficulty, it will be necessary to refer it to the Government of India for orders.

10. It has been ordered that "an officer of 15 years' approved service, whose total salary did not exceed Rs. 1,000, shall be given a special allowance of Rs. 100 a month." This order will have force from the date from which the new scheme will take effect. The names of officers who will reap the benefit of this ruling are not now mentioned, in view of a reconsideration of choice between the old and the new system being conceded to all of the officers of the old graded service.

11. It will not be out of place to consider here the status of Messrs. Livingstone and Bamford, who may be confidently expected to elect for the new service. The facts about Mr. Livingstone are that he was appointed to Government service in 1865, appointed to officiate in Class IV on the 17th May 1880, and acted continuously in that class up to the date of his confirmation on the 15th November 1892. He drew Rs. 700 a month from 1880 to 1892, and from the 15th November 1892 he drew Rs. 750. From every subsequent 1st December the accrual of an increment may be reckoned under Article 165 of the Civil Service Regulations. Thus, Mr. Livingstone may be regarded as having been entitled to Rs. 950, for the purposes of this scheme, from the 1st December 1896. Mr. Bamford's case is different. He was appointed to be Assistant Inspector of European Schools in February 1885. His pay was subsequently raised to Rs. 500—50—750, and after officiating as Inspector for some time he was confirmed as Inspector on the 1st November 1890. He has drawn Rs. 750 from 11th February 1895, and was therefore entitled to Rs. 800 from 11th February 1896.

PROVINCIAL EDUCATION SERVICE.

12. As already stated in paragraph 3 above, this service is for the present to consist of 107 officers. On Mr. Stack's retirement from the Indian Service, it will be increased to 108 officers, and on Mr. Ewbank's retirement, it will consist of 109 officers; and again, when the Indian Service reckons 27 officers, the number in the Provincial Service will be 110 to become 109 again when Mr. Tate becomes a member of the Indian Service. In the figures 107, 108, 109 and 110 are included six officers who are admitted on personal grounds. As these are gradually absorbed from one cause or another the service will be reduced by the number so absorbed, until the normal number 104 (or 103) is reached.

13. Of the 5 Inspectors of Schools, 1 is spoken of in the Government of India's (Home Department, Education) letter Nos. 104—115, dated the 23rd July 1896, as "a Joint Inspector of Orissa." This office is now held by Babu Radha Nath Roy, who is styled "Temporary Inspector of Schools." He has been in independent charge for four and-a-half years, and will for the future be designated "Inspector of Schools" simply. Another who comes under this appellation is the "Inspectress of Schools."

14. The distribution of the officers who are to appear in the Provincial Service list is attended with much difficulty: it has been dealt with by Sir Alfred Croft in consultation with Dr. Martin, and the Lieutenant-Governor, after weighing carefully the difficulties connected with individual cases, has placed the officers as shown at the close of paragraph 15 below.

Class I—Presents no difficulty. Rai Radhika Prasanna Mookerjea Bahadur has been permanently in Class IV of the Superior Service since 1885. Rai Dinanath Sen Sahib is the senior officer in the present Subordinate Service (Mr. Phillips being disqualified by his office for the new Classes I and II), and has been acting in Class IV of the Superior Service since 1888.

Classes II and III.—The question of the position of Mr. Billing is involved in considerable difficulty. It is argued that he has been for eight and a half years serving in the former graded service, where his name follows that of Rai Dinanath Sen Sahib, and for the same period has been serving as Principal of a first grade college; further that he draws a salary of Rs. 540 (Rs. 340 as pay and Rs. 200 acting allowance) and is, therefore, too highly paid for Class III (Rs. 500); and lastly that he has been selected by the Secretary of State for the first vacancy arising in the Indian Service. On the other hand, it is to be borne in mind that his permanent post is in Class II of the Subordinate Service, being 11th in the total list of that service. On the former grounds he would appear at the top of Class II (Rs. 600), immediately succeeding Rai Dinanath Sen Sahib; on the latter he would appear in Class III (Rs. 500). Taking all these circumstances into consideration, the Lieutenant-Governor thinks that the question will be most equitably settled by placing him at the bottom of Class II. His position as an officer serving for more than eight years in Class IV of the old graded service and as an officer specially selected for promotion to the Indian Service amply warrants such a place being assigned to him. The first three appointments in Class II will be taken by Mr. J. A. Reuther and Babus Radha Nath Rai and Abinash Chandra Chatterjea, the seniors on the list, who are qualified by their offices for this class.

Class III.—The office held by Mr. A. S. Phillips does not entitle him to promotion above Class III. He will naturally stand at the head of this class, and be followed by Babu Mathura Nath Chatterjea and Shams ul-ulama Abul K. M. Siddiq. The next officer would in regular course be Babu Ambika Charan Bose, and to follow him would come Babu Nilmani Mukherjea, the class being concluded by the name of Mr. Tate, placed in square brackets, *vide* paragraph 3 above. The position of Babu Nilmani Mukherjea has been given special consideration. He is Principal of the Sanskrit College, and his case is thus referred to by Sir Alfred Croft:—

"Babu Nilmani Mukherjea, Principal of the Sanskrit College, has put forward a strong appeal for exceptional promotion, on the ground (1) of the importance of the Sanskrit College compared with the Chittagong College (whose Principal is above him in the graded list); (2) the high pay drawn by Mahamahopadhyaya Mahes Chandra Nyayaratna, C.I.E., his immediate predecessor; (3) the extra duties that the Principal has to discharge in connection with the Sanskrit Title and Sanskrit Tol examinations; and (4) the interest felt by the Hindu community in maintaining the dignity of the College. It is true that the Sanskrit College is

a much more important institution than the Chittagong College. The latter prepares for the F. A. only, while the former sends candidates to the M. A., and the Principal has very important duties connected with the Sanskrit examinations. Both Principals entered the service in the same year, 1867, Babu Nilmani Mukherjea as an M. A., Babu A. C. Chatterjea as a B A. Nilmani Babu has spent all his service in Calcutta, where he has done a good deal of literary work (see History of Services of Gazetted Officers, page 1024); Babu A. C. Chatterjea has spent all his service in Cuttack and Chittagong. It so happened that the latter was drawing higher pay than the former when the graded list was established in 1878, and so he took the higher place The high pay drawn by Mahamahopadhyaya Mahes Chandra Nayayaratna does not, I think, affect the question. He was promoted to the Superior Service by reason of his character and high position as a Sanskrit Scholar, and the pay that he drew as Principal was his personal pay as a graded officer. It has now been decided that the Sanskrit College Principalship is not to be in the Indian Service cadre of appointments. As to the feeling of the Hindu community, I received a letter last year, signed by Maharajas Durga Charan Law, Jotindro Mohan Tagore and Narendra Krishna, Sir Romesh Chunder Mitter, and Dr. Mohendra Lal Sircar, pointing out the importance of the Sanskrit College, and praying that in the reorganised service "a high place, both as regards pay and rank," might be given to the Principal. Lastly, Nilmani Babu draws attention to his age. He is in his second year of extension, and will have little chance of promotion to a higher grade. Babu A. C. Chatterjee is five years younger, and has many chances of promotion.

The chief grievance, it will be seen (putting aside personal and official claims), is the higher position occupied by Babu A. C. Chatterjea. But I hardly see how it can be remedied. It would be a difficult and invidious matter to disturb the order of seniority in the Education Department, which has been accepted for years Nilmani Babu urges that he can now rise (owing to his age) no higher as Principal of the Sanskrit College, with all its reponsibilities, than he would have risen had he remained Professor of the Presidency College. But though Nilmani Babu himself may not rise to the highest class, yet I have proposed that the Principal of the Sanskrit College should be eligible for that class, and it is his own misfortune that he was promoted so late in life. His promotion, however, has not been very slow. He was confirmed in Class II in 1892, and rose to Rs. 400 in 1893. It is proposed to give him Rs. 500 now. Again, his chances of promotion to Rs. 600 are not so bad as he makes out. Rai Radhika Prasanna Mukherjea is in his fourth, and Rai Dinanath Sen in his second year, of extension. Mr. Phillips retires in April next. Maulavi Abul Khair is limited, as Superintendent of a Madrasa, to a salary of Rs. 500 Babu A. C. Bose is in his last year of extension. Babu B. Chakravarti has already retired. Thus, of eleven officers senior to Nilmani Babu, five will have retired in the next two or three years, and one of the remainder cannot rise to Class II. His position would, no doubt, be improved if it were declared that the Principal of a second grade College could rise no higher than Class III, which would debar Babu A. C. Chatterjea from Class II, in which he is placed by Dr. Martin. But I think this would not be fair. It is proposed that head-masters of Collegiate Schools (like Mr. Phillips) should be entitled to rise to Rs. 500, and Principals of first grade Colleges and the Sanskrit College to Rs. 700. It seems reasonable that Principals of second grade Colleges should rise to Rs. 600.

I have dwelt on this question at, perhaps, tedious length, because I promised Nilmani Babu and the Maharajas that his case should be fully submitted to Government. As a matter of policy, the exceptional promotion of the Principal of the Sanskrit College would no doubt be gratifying to the Hindu community, but individual claims cannot be disregarded As what seems to me a fair way of meeting the difficulty, I would suggest that Babu Nilmani's name should immediately follow that of Babu M. N. Chatterjea."

The extract has been given at length, and carefully considered. The Lieutenant-Governor, while fully admitting the distinguished abilities of Babu Nilmani Mukherjea and the importance of the high office which he fills, is yet of opinion that, with due regard to the individual claims of his seniors, it would be improper to give him a place higher than that now assigned to him, viz., immediately after Babu Ambika Charan Bose.

Class IV.—The remarks made by Sir Alfred Croft in reference to individual officers who may be regarded as having a claim to inclusion in this class are the following:—

Babu Ratna Mani Gupta, the next senior officer, has retired from the service. The first three places should, therefore, be taken by Mrs. M. Wheeler (II, 6), Mr. E R. Tiery (III, 1), and Babu Chandra Mohan Mozumdar (III, 2), who come next in order of seniority (The references are to the Civil List for January 1897, page 179) I turn now to the case of those officers of European qualifications, who have been selected for early and exceptional promotion. They are, in order of seniority, Mr. P. Brühl (1882), Dr P. C. Ray (1889), Mr. J. N. Das Gupta (1890), and Mr. D. N. Mallik (1893). Mr. Bruhl (see paragraph 15(*d*) of Dr. Martin's letter) was educated in Germany, and is a specialist in Science of a quite exceptional order. The other three are distinguished graduates of English universities. Mr. Brühl, Dr. Ray and Mr. Das Gupta were recommended by the Bengal Government in 1894 for immediate promotion to Rs. 350, pending sanction of the reorganisation scheme; but the Government of India declined to promote them in anticipation. If they were considered worth Rs. 350

in 1894, I agree with Dr. Martin that they have a claim to Rs. 400 in 1897. Mr. D. N. Mallik is of only three and a half years' standing, and I propose to place him in the class next below (Rs. 300). His case will be considered later on.

Along with graduates of European qualifications have always been reckoned Premchand Roychand students of the University, as entitled to equal promotion with the former. I think this principle should be maintained, as they are the most distinguished students that the University turns out. There is one officer of this class now to be considered, Babu Nilkanta Mazumdar, who was appointed to the department on Rs. 250 in 1879, and has officiated as Principal of the Cuttack College. The seniority and pay of these four officers (excluding Mr. Mallik) are (*vide* Civil List, pages 177, 179)—

	Rs.
Babu Nilkanta Mazumdar, 1879 (No. 3 in Class III) ..	280
Mr. P. Bruhl, 1882 (No. 6 in Class III)	300
Dr. P. C. Ray, 1889 (ungraded)	250
Mr. J. N. Das Gupta, 1890 (ungraded)	250

I think that all these officers should be placed in the new Class IV in the above order (subject to the proposal made below with regard to Mr. Ghilardi). This will put Babu Nilkanta Mazumdar in his right place in the order of seniority of the old list, following next after Babu Chandra Mohan Mazumdar.

An appeal has been made to me by Mr. Pedler, then Principal of the Presidency College, in favour of Babu Bipin Bihari Gupta, one of the Professors of that institution. He is a distinguished Mathematician, being the only graduate who obtained a First Class at the M. A. examination in that subject from 1874 to 1880. He also competed in 1880, but without success, for the Premchand studentship, taking up Pure and Mixed Mathematics, Chemistry and Physics. No candidate indeed (with one exception) was declared qualified for the studentship in these subjects from 1874 to 1881; and the University at length recognised the fact that they were far too wide, and they have now been divided into six, only one of which need be taken up. I think it beyond doubt that, under the present regulations, Babu Bipin Behari Gupta, as the best Mathematician among the M. A. graduates for six years, would certainly have gained a studentship; and he discharges his duties at the Presidency College with very marked ability. While fully acknowledging his distinguished ability and usefulness, at the same time I regret that I cannot discern any principle by which he could be promoted above the heads of his seniors, all of whom are thoroughly competent and deserving officers. Babu Bipin Bihari's merits and services will soon, I hope, obtain recognition in due course. He is second on the list in Class V, and should rise to Class IV in a short time.

The case of Mr. Ghilardi, Assistant Superintendent of the School of Art, has been separately before the Government,—see correspondence ending with Mr Finucane's No. 531T.G., dated 14th October 1896. Mr. Ghilardi has been in the department since March 1886, and draws Rs. 300, ungraded (Civil List, page 177). In Madras the pay of the Assistant Superintendent is Rs. 400 rising to Rs 600, and in Bombay Rs. 500 rising to Rs. 750. Mr. Ghilardi certainly deserves promotion after 11 years' good work, while he has been very highly spoken of by successive Superintendents; and this has been recognised in the Government orders referred to. I should think he might properly take rank with the specialists holding European qualifications whose case has just been considered, and if that be granted, his rank should be in accordance with his seniority. In that case he would come between Mr. Bruhl (1882) and Dr. P. C. Ray (1880).

It will be seen that Dr. Martin places Mrs. Wheeler, Mr. Tiery, and Babu Chandra Mohan Mazumdar below the five officers whose case has just been considered. I cannot, on reconsideration, support this arrangement, which is based on my earlier proposals of 1894. Mrs Wheeler has occupied her present office, that of Inspectress of Schools, since 1876. As the sole Inspectress, she occupies an important position In Madras there are two Inspectresses (belonging, however, to the European service) drawing, respectively, Rs. 500 to Rs. 600 and Rs. 450 to Rs 500. Mrs. Wheeler is 52 years of age, and deserves consideration towards the end of a long service. Mr. Tiery and Babu Chandra Mohan Mazumdar stand next in seniority, and occupy important offices (Mr. Tiery was an Assistant Inspector before he was selected for the Murshidabad appointment), and should not be passed over without necessity. The arrangement that I propose will leave room in Class IV for the five officers with European or Premchand qualifications, and Babu Nilkanta Mazumdar will thus come into his right place, being next below Babu Chandra Mohan Mozumdar in order of seniority.

The Lieutenant-Governor accepts these views.

It is to be observed that the cases of the retired officers, Babus Bireswar Chakravarti and Ratna Mani Gupta, must be taken into consideration up to the dates of their retirement. The positions of those retired officers would be immediately below Babu Ambika Charan Bose and Babu Nilmani

Mukherjea respectively. This will involve some slight changes in the classes below, which can be settled hereafter in communication with the Accounts Department.

Class V.—Sir Alfred Croft's note upon this class is as follows:—

Class V.—The only cases requiring notice in this class are those of officers on fixed pay, whose place in the new list, with respect to graded officers in the old list, it is necessary to settle. They are those of Mr. R. F. Shaw, Head-master of the Apprentice Department-Civil Engineering College, Mr. D. N. Mallik, Assistant Professor, Patna College, Pandit Hara Prasad Sastri, Professor of Sanskrit, Presidency College, and Mr. H. A Stark, Head-master of the Anglo-Persian Department, Calcutta Madrassa (Civil List, page 177). Mr. Shaw (M. A., Aberdeen) was appointed on 20th January 1891 on Rs. 300; Mr. Mallik (B. A., Camb., B. S.C., London) on 12th July 1893, on Rs. 250; Pandit Hara Prasad (M. A., Calcutta) on 28th February 1895, on Rs. 300; Mr. Stark (B. A., Calcutta) on 1st July 1895, on Rs. 300. It has to be determined how they should stand with respect to other officers in the old list. On reconsideration of my previous proposals, I think the method to be followed should be this:—An officer appointed on Rs. 300, which is the maximum pay of Class III, should not be in a worse position than if he had been appointed five years earlier on Rs. 200—20—300, the pay of the class. That is, he should rank next below those who had been *confirmed* in the class five years before the date of his appointment, all of whom at the date of his appointment will have reached the maximum of Rs. 300. He should rank above officers who were only *officiating* in the class five years before his appointment. (The status of a sub. *pro tem.* officer is that of an acting officer.) An officer appointed on Rs. 250 should take rank on the same principle. Since it takes three years to rise in Class III from Rs. 200 to Rs. 260, such an officer should rank next below those who were appointed permanently to the class three years before the date of his appointment, all of whom were on that date drawing Rs. 260. Hence, comparing the dates given above for the purpose of ascertaining each officer's place, Mr. Shaw may be supposed to have been appointed to Class III on 25th January 1886, Mr. Mallik on 12th July 1890, Pandit Hara Prasad Sastri on 26th February 1890, and Mr. Stark on 1st July 1890. Referring to the Civil List (page 179), it therefore appears that Mr. Shaw should come immediately before Babu Barada Prasad Ghose (III, 7) who was appointed on 1st June 1886, and that Pandit Hara Prasad Sastri, Mr. Stark and Mr. Mallik should come in that order immediately before Babu Hari Prasad Banerjea (III, 11), who was appointed to that class on 13th July 1890. [The dates of confirmation of Mr. E. Pegler and Babu S. B. Dutt (III, 8 and 9) seem inconsistent with their position in the class, but it is not really so. These two officers, who had drawn Rs. 250 fixed pay for many years, were transferred to Class III in December 1891, and therefore took rank, exactly in accordance with the foregoing principle, as if they had been appointed to the class in December 1888.]

Sir Alexander Mackenzie accepts the principle thus enunciated, and class V will be fixed accordingly.

Sir Alfred Croft continues:—

"In reference to the position assigned to Mr. D. N. Mallik, it will be convenient at this point to consider what special prospects, in the way of exceptional promotion, are now and hereafter to be offered to those graduates in honours of English Universities whom we wish to attract to the Department, to take the place of men hitherto appointed by the Secretary of State. It has, I think, always been understood that special advantages were to be offered them. In 1894 I recommended that all such officers, appointed on Rs. 250, should, after three years, be promoted to the first vacancy arising in the Rs. 350 class; and this proposal was afterwards made the basis of the recommendation above referred to, that Messrs. Brühl, P. C. Roy, and J. N. Das Gupta, should at once be promoted to Rs. 350. The Rs. 350 class has now disappeared, and another method must be adopted. I would propose that a professor of European qualifications or a Premchand student should originally be appointed on Rs. 250; that after a service of three years in that class, he should have a claim to the first vacancy arising in Class V (Rs. 300); and that after a further service of three years in that class, he should have a claim to the first vacancy arising in Class IV (Rs. 400). As vacancies would not generally occur immediately after the expiration of the periods of three years, he would have a fair prospect of rising from Rs. 250 to Rs. 400 in about seven years; and this, I think, would offer sufficient inducement. (In the Provincial Executive Service I see that an officer rises from Rs. 250 to Rs. 500 in from six to seven years.) Candidates of this class who were appointed to the Superior Service under the two-thirds rule, rose from Rs. 333 to Rs. 500 in five years: so that the new men will still be not as well off as their predecessors were. After appointment to Class IV they would be eligible for promotion in their turn under the ordinary rules.

It is of the first importance that graduates in honours of English Universities should be attracted to the Provincial Service; the rule now proposed is therefore approved. It follows that Mr. Shaw is the first officer for promotion

to Class IV, and that Mr. Mallik's time for such promotion will follow after he has served in Class V for three years from the date of the introduction of this scheme. In working the rule, active service (including privilege leave will alone be reckoned in the qualifying period.

Class VI.—Sir Alfred Croft observes with reference to this class :—

The cases here are those of Babu Kumudini Kanta Banerjea, Dr. P. N. Chatterjea, and Mr. M. M. Ghose (Nos. 7, 13, and 14 in Class VI of Dr. Martin's list), who have been appointed to the department on fixed pay—the first on Rs. 200 in 1887, the next two, who are graduates of English Universities, on Rs. 250 in 1894 and 1895, respectively. The place of Babu Kumudini Kanta Banerjea was fixed in my former list as following that of Miss. C. M. Bose. Dr. P. N. Chatterjea was appointed on the 9th November 1894, and should therefore rank among Class III (old list) officers as if he had been appointed to the class on the 9th November 1891. He will therefore stand after Babu B. K. Guha (III, 14). Mr. M. Ghose, appointed on 22nd June 1895, will rank as from 29th June 1892, and follow Babu Sarada Prasad Ganguli (Babu Uma Kisor Roy, the next on the list, not being a Provincial Officer). Babu Khirod Chandra Rai Chaudhuri (III, 18) has, since the date of Dr. Martin's letter, been transferred to a Provincial appointment, and should therefore come into the list before Babu Sib Chandra Gui. Dr. Chatterjea and Mr. Ghose will be entitled to the first vacancies arising in Class V, after they have served for three years each on their present pay.

The case of Maulavi Abdul Karim, B.A., Assistant Inspector of Muhammadan Education, is exceptional. It will be seen that in the provisional list, recommended in my note of 20th January 1894, I placed Maulavi Abdul Karim next after Shams-ul-ulama Ahmad (VI, 12 in that list, III, 20 in the Civil List, page 180). This was in accordance with the place that he then occupied as a sub. *pro tempore* officer. But in the Civil List for January 1897 (page 181), Maulavi Abdul Karim comes nine places lower down (III, 30). The reason is that he was in 1894, and had been for some years, substantively *pro tempore* in Class III, in place of an officer who had been appointed to the Provincial Service, but whose confirmation in that service was for some reason delayed for many years. In consequence of the rule that substantive *pro tempore* officers take rank below those who have been confirmed, Maulavi Abdul Karim found himself passed over, between 1894 and 1896, by a number of officers promoted from the class below. I think with Dr. Martin that he should take the place twhich I previously assigned to him in January 1894, and which he would have held had the scheme been sanctioned from about that date In 1894 he had already been substantive *pro tempore* for over four years, and the position now assigned to him is that which he would have taken if confirmed after three years.

The reasons given for regarding Maulavi Abdul Karim's position as exceptional are sound. The argument might be strengthened by the consideration that the post held by him, viz. Assistant Inspector of Muhammadan Education, is a special one. Had this not been so, his confirmation in Class III of the former service would have taken place in regular order as vacancies occurred in the class. Under the circumstances, it is right that his case should receive exceptional treatment.

Sir Alfred Croft, in reserving four posts in this class for graduates in honours of English Universities or Premchand Students, writes thus:—

Of the four reserved appointments, one can be filled up immediately upon my departure, by Mr. Bhupati Nath Das, about whom there has been separate correspondence. He is the man so strongly recommended, as an original worker in science, by Professor Ramsay. The other three may be filled up by substantive *pro tempore* promotions from the class below, until specialists are appointed permanently to the class after the retirement of Messrs. Ewbank and Stack.

Mr. B. N. Das may at once be appointed to one of these reserved appointments, and on the retirement of Mr. Stack in the end of March, a second specialist may be appointed, and similarly another on the retirement of Mr. Ewbank towards the end of April. There will then remain one post which may temporarily be filled up.

Sir Alfred Croft has laid special stress upon the fact that nearly all the officers in this Rs. 250 class are at present drawing more than Rs. 250 a month, and that those on less than Rs. 300 a month would have had a fair prospect of rising to Rs. 300 (as pay under the old system) within a few years by regular increments. He adds:—"For the present I consider that the fair and only possible plan will be to continue to them, as personal allowances, the amounts above Rs. 250 to which they are now, or may become, entitled until all of them are promoted to the next higher class on Rs. 300." This proposal is sanctioned, and will be applicable to those who had already set foot in the former Class III or had drawn increments in the

same; these will, if they revert to Class VII of the Provincial list, continue to draw the increments to which, from time to time, they would have become entitled under the old system. This principle will be extended to all the classes.

Class VII.—Sir Alfred Croft discusses the cases of certain officers who have hitherto been on fixed pay:—

P. W. Byers, Teacher, Apprentice Department, Civil Engineering College; Annada Prasad Bagchi, Head-master, School of Art; Braja Ballabh Dutt, M.A., Lecturer, Rajshahi College; Sivendra Nath Gupta, Lecturer, Krishnagar College.

The last two men have already had their places assigned in my 1894 list. Mr. Byers was appointed on the 23rd March 1894, on a salary of Rs. 200—10—230, and therefore ranks below those who have been confirmed in old Class III, the pay of which is higher (Rs. 200—20—300). Babu Annada Prasad Bagchi was appointed on Rs. 200 on the 3rd January 1880, and therefore ranks above all officers in Class IV (Rs. 150—10—200), the senior of whom was promoted to that class in 1885. At the head of the list I keep two places for Assistant Inspectors, for a reason to be afterwards explained.

In one of the two places referred to by Sir Alfred Croft the name of Babu Kumad Bandhu Bose was entered, and the second place was reserved for an Assistant Inspector of Schools to be newly appointed.

In regard to the position given to three officers, Sir Alfred Croft writes:—

"Babu Rasamay Mitra (No. 23) and Kali Prasanna Bhattacharjea (No. 24) have been acting since November 1895 and January 1896, in the class above, having been specially selected for such promotion (Civil List, page 183). They have, therefore, been placed above Babu Rajeswar Gupta (No. 25), the senior officer for promotion, who has not yet acted in the class above.

This is sanctioned.

Class VIII.—In discussing Class VIII, Sir Alfred Croft has written:—

Class VIII.—The only special cases in this class are those of six officers transferred from fixed pay. But in arranging the names in this class, I have adopted a new method, rendered necessary by the following circumstances: In the first appointment of M. As. as Lecturers in Colleges, it has been the practice to appoint them either to Class V (Rs. 100—10—150) or to fixed pay appointments of Rs. 150, according as one or other kind of appointment happened to be vacant. But it has by no means followed that the officers in Class V, though appointed on lower pay, were in any way inferior to those who were appointed on Rs. 150. Further, those who were appointed to Class V generally received acting or substantive *pro tempore* appointments in the first instance, and were only confirmed after a lapse of time, while officers appointed on Rs. 150 were commonly appointed permanently. Thus, the former class of officers suffered a two-fold disadvantage: firstly, in the rate of initial pay, secondly, in their lower position in the list, that position being determined under the ordinary rule by the date of confirmation. I propose now to reduce this inequality once for all by fixing the position of College Lecturers, whether starting on Rs. 100 in Class V or on Rs. 150, by the date of their first service, whether acting, substantive *pro tempore*, or permanent, provided such service was continuous. And I further recommend that all such officers, whatever their previous designations may have been, should henceforth be uniformly styled Professors."

Sir Alexander Mackenzie approves of this recommendation: it is therefore sanctioned.

To summarize:—At the present time there are 30 out of 137 posts assigned to the Superior Service filled up by Officers of the Indian Service. There remain 107 Officers for the Provincial Service. These will be distributed as follows:—

Class	I	...	...	...	2 Officers.
„	II	...	...	...	4 „
„	III	...	...	...	6 „
„	IV	...	...	...	8 „
„	V	...	...	...	12 „
„	VI	...	...	...	22 „
„	VII	...	...	...	25 „
„	VIII	...	...	...	28 „
			Total	...	107 Officers.

The nominal roll, as now sanctioned, is the following:—

CLASS I (2), Rs. 700.

1. Rai Radhika Prasanna Mukerjee Bahadur.
2. Rai Dinanath Sen Sahib.

CLASS II (4), Rs. 600.

1. Mr. J. A. Reuther.
2. Babu Radhanath Rai.
3. „ Abinash Chandra Chatterjea, B.A.
4. Mr. Billing, M.A.

CLASS III (6), Rs. 500.

1. Mr. A. S. Phillips, B.A.
2. Babu Mathura Nath Chatterjea, M.A.
3. Maulvi Abul Khair Muhammad Siddiq, M.A.
4. Babu A. C. Bose.
5. „ Nilmani Mukerjea.
6. [Mr. W. Tate.]

CLASS IV (8), Rs. 400.

1. Mrs. M. Wheeler.
2. Mr. E. R. Tiery, B.A.
3. Babu Chandra Mohan Mazumdar, M.A.
4. „ Nilkanta Mazumdar, M.A.
5. Mr. P. Brühl.
6. „ O. Ghilardi.
7. Dr. P. C. Ray, D.SC. (Edin.).
8. Mr. J. N. Das Gupta, B.A. (Oxon.).

CLASS V (12), Rs. 300.

1. Babu Jagat Bandhu Laha, M.A.
2. „ Bipin Bihari Gupta, M.A.
3. Mr. R. F. Shaw, M.A (Aberdeen).
4. Babu Baroda Prasad Ghose, M.A.
5. Mr. E. Pegler.
6. Babu Sasi Bhusan Dutt, M.A.
7. Maulvi Muhammad Ibrahim, B.A.
8. Pandit Hara Prasad Sastri, M.A.
9. Mr. H. A. Stark, B.A.
10. Mr. D. N. Mallik, B.A. (Camb.), B.SC. (Lond.).
11. Babu Hari Prasad Banerjea (now Assistant Inspector).
12. Mrs. E. C. W. Stansbury.

CLASS VI (22), Rs. 250.		Draws. Rs.
1.	Sasi Bhusan Sen, B.A., *plus* personal allowance ...	300
2.	Brajendra Kumar Guha, B.A., *plus* personal allowance	300
3.	Dr. Purnananda Chatterjea, B.A., D.SC., (Edin.) ...	...
4.	Miss Chandra Mukhi Bose, M.A., *plus* personal allowance	280
5.	Kumudini Kanta Banerjee, M.A.	...
6.	Saroda Prasad Ganguli (on personal grounds), *plus* personal allowance	300
7.	Mr. Manomohan Ghose, B.A. (Oxon.)	...
8.	Khirod Chandra Rai Chaudhuri, M.A., *plus* personal allowance	300
9.	Sib Chandra Gui, M.A., *plus* personal allowance ...	280
10.	Shams-ul-ulama Ahmad, *plus* personal allowance ...	260
11.	Abdul Karim, B.A., *plus* personal allowance ...	300
12.	Bireswar Chatterjee, M.A., *plus* personal allowance ...	280
13.	E. A. LeFeuvre, *plus* personal allowance ...	260
14.	Ram Das Chakravarti, *plus* personal allowance ...	280
15.	Ambika Charan Mukherjea (on personal grounds), *plus* personal allowance	280
16.	Baikuntha Nath Roy, B.A. (on personal grounds), *plus* personal allowance	260
17.	Mati Lal Maitra	240
18.	Bhuban Mohan Sen, B.A.	240
	Rai Sarat Chandra Das Bahadur, C.I.E. (*on personal grounds*) *seconded*	300
19.	Raj Kumar Sen, M.A., sub. *pro tem.*	240
20.	Chandra Kumar Maitra, sub. *pro tem.*	240
21.	Abdul Munim, sub. *pro tem.*	200
22.	Kumud Bandhu Bose, sub. *pro tem.*	240

CLASS VII (25), Rs. 200.

One place reserved for an Assistant Inspector of Schools.

1. P. W. Byers, *plus* personal allowance (draws Rs. 230).
2. Annada Prasad Bagchi.
3. Jagat Bandhu Bhadra (on personal grounds).
4. Bhawani Charan Mukharjea, B.A.
5. Kunja Bihari Bose, M.A.
   H. A. Lane, M.A., *seconded.*
6. Ram Chandra Chatterjea.
7. Braja Ballabh Dutta, M.A.
8. Haranath Bhattacharjea, M.A.
9. Debendra Nath Bose, M.A.
10. Kisori Mohan Sen Gupta, M.A.
11. Upendra Nath Mitra, M.A.
    Dwija Das Dutt, M.A., *seconded.*
12. Kali Pada Bose, M.A.
13. Joges Chandra Ray, M.A.
14. Sivendra Nath Gupta, M.A.
15. Narendra Nath Bose, M.A.
16. Madhu Sudan Rao.
17. Sagar Chandra Chakravarti.
18. Govinda Lall Set, M.A.
19. Mahamahopadhyaya Chandra Kanta Tarkalankar, sub. *pro tem.*
20. Surendra Kumar Bose, B.C.E. sub. *pro tem.*
21. Rasamay Mitra, M.A., sub. *pro tem.*
22. Kali Prasanna Bhattacharjea, M.A., sub. *pro tem.*
23. Rajeswar Gupta, sub. *pro tem.*
24. Rajendra Nath Banerjea, B.A., sub. *pro tem.*
25. Rajmohan Sen, M.A., sub. *pro tem.*

CLASS VIII (28 AT PRESENT), Rs. 150.

Hari Charan Ray, M.A., *seconded.*
1. Chandra Bhushan Bhaduri, B.A.
2. Mukunda Chandra Vidyabagis, M.A.
   Jagadis Chandra Sen, M.A., *seconded.*
3. Aditya Kumar Chatterjea, B.A.
4. Mohini Mohan Chaudhuri, M.A.
5. Bisseswar Sen, M.A.
   Sasi Sekhar Banerjea, B.A. *seconded.*
6. Braja Lal Mukerjea, B.A.
7. Poresh Nath Sen, B.A.
8. Joy Gopal Dey, B.A.
9. Murali Dhur Banerjea, B.A.
10. Harish Chandra Bhattacharjea, B.A.
11. Harish Chandra Dutt, M.A.
12. Mohit Chandra Sen, M.A.
13. Satis Chandra Dey, M.A.
14. Binayendranth Sen, M.A.
15. Gopal Chandra Ganguli, M.A.
16. Mohini Mohan Dutt, M.A.
17. Bidhu Bhushan Goswami, M.A.
18. Abdul Ali.
19. Pramatha Nath Mukerjea, M, A., sub. *pro tem.*
20. Rakhal Raj Biswas, M.A., sub. *pro tem.*
21. Ram Prasana Mukherjea, sub. *pro tem.*
22. Sukhbasi Tewari, sub. *pro tem.*
23. Hari Charan Mukherjea, L.E., sub. *pro tem.*
24. Govinda Sastri, sub. *pro tem.*
25. Hriday Chandra Banerjea, sub. *pro tem.*
26. Professor for Rajshahi College, sub. *pro tem.*
27. Professor for Dacca College, sub *pro tem.*
28. Professor for Chittagong College, sub. *pro tem.*

15. The following quotation is also extracted from Sir Alfred Croft's note on the re-organization scheme:—

"Connected with the question of the minimum pay to be given to Professors who have graduated in English Universities, and of the conditions of their promotion thereafter, is another very similar question as to the minimum pay to be given to the holders of certain

appointments. In some cases the officers have to be appointed by the Secretary of State in England; in others, the importance of the office requires that a suitable rate of pay should be secured to the holder.

In most cases of the latter class, the officer so appointed will be of sufficient standing to have reached or passed the proposed minimum; but in the case of the transfer of an officer from the Subordinate to the Provincial Service (as, for example, of a Deputy Inspector to be Assistant Inspector), this condition will not always be realized. In order to meet exceptional cases of selection, the following minima are proposed:—

	Rs.
Principals, 1st grade (including Sanskrit) Colleges ...	400
Principals, 2nd grade Colleges	250
Superintendents of Madrassas	250
Inspectors	400
Assistant Inspectors	250
Personal Assistant to the Director of Public Instruction ...	300
Assistant Superintendent, School of Art	300
Head-master, Kurseong Boarding School	250"

Dr. Martin thinks that this proposal, if sanctioned, will probably lead to embarrassing consequences. At the present time in considering who might be a fit person to succeed to the Principalship of the Rajshahi College which is likely to fall vacant in the near future, he looked through the names of the officers in Class IV with a view to following the rule above, and as Babu Nilkanta Mazumdar has been selected to act as Principal of the Cuttack College, his choice was limited to Dr. P. C. Roy or Mr. J. N. Das Gupta. He sent for Dr. P. C. Roy to tell him that he might possibly be called upon to leave the Presidency College. The intelligence was received with consternation, and Dr. Martin, knowing that Dr. Roy is a distinguished Chemist engaged in original research in the Presidency College, after weighing the *pros* and *cons*, decided that the idea ought to be abandoned. He then considered the case of Mr. J. N. Das Gupta and came to the opinion that being a Professor of English Literature, Mr. Gupta's services at present cannot be transferred to such an office. Consequently at the outset the proposed rule is found to offer difficulties of a serious kind. Attempts may be made to follow a rule of the kind, but the Lieutenant-Governor agrees in thinking that no hard-and-first rule can be laid down in the case of several of the offices referred to. Hitherto, Superintendents of Madrasahs (who are paid from the Mohsin Fund) and Assistant Inspectors of Schools, have always been placed on first appointment to these offices on Rs. 250 a month. This rule may be admitted, and Sir Alfred Croft's proposal may also be accepted, so far as are concerned the Assistant Superintendent of the School of Art and the Superintendent, Apprentice Department, Civil Engineering College, with a minimum pay of Rs. 300 for each, and also for the Head-master of the Kurseong Boarding School, for whom a minimum of Rs. 250 is proposed. Beyond this Sir Alexander Mackenzie is not willing to go. These last three appointments require the services of officers recruited in Europe; but in the case of Principalships of Colleges, the choice of successors is obtainable from among a long line of Professors, to most of whom it would be improper to give undue promotion, on the ground of their being, from circumstances, selected for such an office.

It is, therefore ordered that *minima* are fixed, if there are vacancies in the several classes in the case of the following posts:—

	Rs.
Assistant Superintendent, School of Art	300
Head-master of the Apprentice Department, Civil Engineering College	300
Head-master, Kurseong Boarding School	250
Superintendents of Madrassa	250
Assistant Inspectors of Schools	250

As regards appointments to Assistant Inspectorships, the Director of Public Instruction in recommending for promotion to these posts Deputy Inspectors from the subordinate list should be careful lest by giving such promotion the prospects of Provincial Service officers may be materially injured. It is partly to avoid a complication of this kind that just now a very senior Provincial officer is being put forward for an Assistant Inspectorship of Schools.

16. It is now necessary to decide the question what offices should entitle their holders to rise to the several classes of the Provincial Service. The following proposal is sanctioned:—

Class I (Rs. 700).—Principals of Colleges, including the Sanskrit College, teaching up to the B.A, Standard; Inspectors of Schools; Professors who have obtained degrees in honors from the Universities of Oxford, Cambridge, London, or Dublin, or who have received a European training to an equivalent standard, and the Assistant Superintendent, Government School of Art.

Class II (Rs. 600).—Limit of promotion for the Lady Principal of the Bethune College and for the Inspectress of Schools and the Personal Assistant to the Director of Public Instruction, and for Assistant Inspectors of Schools; also for Principals of Colleges teaching up to the First Arts Standard.

Class III (Rs. 500).—The limit of promotion for the following:—Principals of second grade Colleges (teaching up to the F.A. Standard), Professors not possessed of European qualifications or an equivalent, Superintendents of Madrasahs, including the Head Maulavi of the Calcutta Madrasah, Head Masters of Collegiate and Training Schools, and Head Master of the Government School of Art: the Lady Superintendent, Dacca Eden Female School, the Head Maulavi of the Calcutta Madrasah and Head Master of the Kurseong Government Boarding School, and the Head Master, Anglo-Persian Department of the Calcutta Madrasah.

Class IV (Rs. 400).—Limit of promotion for Professors in second grade (F.A.) Colleges.

As exceptions to the foregoing limits, it is ordered that Shams-ul-ulama Abul Khair Muhammad Siddiq, M.A, Superintendent of the Dacca Madrasah and Mr. Tiery of the Murshidabad Nawab's Madrasah shall be eligible for promotion to Class II. Maulavi Abul Khair has qualifications English and Oriental, equal if not superior to those of the Assistant Inspectors of Muhammadan Education; while Mr. Tiery was, for several years, an Assistant Inspector of Schools, whence he was transferred to his present appointment, as being conspicuously fitted for it.

17. All College Lecturers, Assistant Professors and Professors in the Provincial Service will, henceforth, be uniformly styled Professors.

18. All Officers in the Provincial Service will be Gazetted Officers.

19. Officers transferred from the Subordinate to Provincial list to fill vacancies in the posts of Head-master of Collegiate Schools, Assistant Inspectors, &c., will, in ordinary cases, be eligible for the minimum salary attaching to the posts which they are called upon to fill.

20. The Lieutenant-Governor now sanctions the introduction of the new scheme with effect from the 1st August, 1896. His Honour observes that, owing to the narrowness of the scale of the Provincial Service, as compared with existing salaries, the prospects of officers in the lower classes are very discouraging. For instance, officers now placed in class VI on Rs. 250 of the service are all in class III (Rs. 200—20—300) of the existing service, and before they can receive any increase of pay, they must rise to the top of class VI and then move slowly to the top of class V. He also observes that the Provincial Services of other provinces are practically devoid of class VIII on Rs. 150. Sir Alexander Mackenzie regrets this state of things, and, with a view to improving the prospects of Provincial Service officers, he proposes at an early date to consider whether something may not be done by assigning a greater number of appointments to some of the intermediate classes.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2293A.

GENERAL.—*No. 2151A.—The 24th March 1897.*—Mr. W. E. Gordon Leith, Deputy Superintendent and Remembrancer of Legal Affairs, is allowed furlough for a period of eight months, under article 343 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

No. 2163A.—The 25th March 1897.—Babu Dumri Lal, Officiating Deputy Magistrate and Deputy Collector, is allowed leave for two months, under article 369 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 21st December 1896.

No. 2172A.—The 25th March 1897.—Lieutenant H. C. Sterndale, Northern Bengal Mounted Rifles, is allowed leave of absence for eight months, with effect from the 2nd March 1897.

No. 2177A.—The 25th March 1897.—Babu Govinda Chandra Basak, Deputy Magistrate and Deputy Collector, on furlough, is appointed to have charge of the Tangail subdivision of the district of Mymensingh.

No. 2185A.—The 26th March 1897.—Maulvi Aminul Islam, Officiating Deputy Magistrate and Deputy Collector, is posted to the head-quarters station of the district of Backergunge, on being relieved of his present appointment as Assistant Settlement Officer of the estates of His Highness the Maharaja of Hill Tippera in Tippera and Noakhali.

No. 2189A.—The 26th March 1897.—Babu Probodh Chandra Chatterjee, Officiating Deputy Magistrate and Deputy Collector, is posted to the head-quarters station of the district of Manbhum, on being relieved of his present appointment as Assistant Settlement Officer, Saran.

No. 2208A.—The 27th March 1897.—Mr. Abdur Rahim, Barrister-at-Law, is appointed to act as Deputy Superintendent and Remembrancer of Legal Affairs, during the absence, on leave, of Mr. W. E. Gordon Leith, or until further orders.

No. 2214A.—The 29th March 1897.—Babu Radhakant Banerjee, Deputy Magistrate and Deputy Collector, Monghyr, is allowed leave for six months, under article 369 of the Civil Service Regulations, with effect from the 8th April 1897.

No. 2262A.—The 30th March 1897.—Mr. E. G. Drake-Brockman, I.C.S., reported his departure from India, on furlough, on the 16th March 1897.

No. 2269A.—The 30th March 1897.—The undermentioned officers are vested with the powers of a Collector under Act I of 1894:—

Mr. J. S. Davidson, Deputy Collector, Cox's Bazar, Chittagong.
Babu Iswar Chunder Nandi, Deputy Collector and Khas Tahsildar, Satkania, Chittagong.

No. 2284A.—The 30th March 1897.—Mr. F. A. Slack, I.C.S., reported his departure from India, on furlough, on the 3rd March 1897.

LEGISLATIVE.—*No. 2235A.—The 29th March 1897.*—With the previous sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor appoints, under the provisions of the Indian Councils Acts of 1861 and 1892, Mr. Montague Cornish Turner to be a member of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William, *vice* Mr. W. B. Gladstone, resigned.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—(LAND REVENUE).

NOTIFICATION—No. 1312L.R.

The 24th March 1897.—Under section 3 of Act XIX of 1883, the Lieutenant-Governor is pleased to empower Mr. E. F. Ainslie, Subdivisional Officer of Gobindpur in the Manbhum district, to discharge the functions of a Collector under that Act in the said subdivision, with effect from the 4th March 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 1377L.R.

The 29th March 1897.—The following Rules for the grant of leases of waste lands in Saugor Island, which have been approved by His Excellency the Governor-General in Council, are published for general information.

RULES FOR THE GRANT OF LEASES IN SAUGOR ISLAND.

I.—LANDS AVAILABLE FOR LEASE.

Rule I.—The "waste lands" to which these rules apply include all the ungranted and unoccupied land at the disposal of Government in that portion of the Sundarbans known as Saugor Island which was declared to be "Protected Forests" under Government of Bengal notification, dated 7th December 1878, and which is not contained within the boundaries of the estates or grants known as (i) "Mud Point," (ii) "Ferintosh," (iii) "Bamankhali," (iv) "Trower land," (v) "Shikarpur," and (vi) "Dhobelat," or "Ganga Sagar."

Rule II.—In respect of the granting of leases for all such ungranted or unoccupied lands, the Commissioner in the Sundarbans shall exercise all the powers of a Collector of Revenue under Act XXIII of 1863.

Rule III.—The Government reserves to itself the right of withholding any land from being leased by special order made at any time before the lease is finally given by the Sundarbans Commissioner. In such case all expenses deposited by the applicant for demarcation, survey and advertisement under the following rules shall be refunded to him, together with reasonable expenses for the clearing of any lines and the erecting of any temporary boundary marks which he may have incurred with the permission of the Sundarbans Commissioner as provided in Rule XII.

Rule IV.—The Government reserves to itself the right to all minerals in, under or on the lands which may be leased, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals.

It also retains its proprietary rights in the lands, and will only confer on the lessee an occupancy right which shall be hereditary and transferable.

II.—APPLICATION AND PROCEDURE BEFORE ADVERTISEMENT.

Rule V.—Applications for leases shall be written on paper bearing a court-fee stamp of eight annas as required by law, and shall contain the following particulars:—

(i) The estimated area of the land applied for in standard bighas of 80 cubits square, with its character and description.

(ii) The situation of the land accurately ascertained and described as fully as possible.

(iii) A rough sketch-map of the land applied for.

The form of application is similar to that marked A given in Appendix II of the Waste Lands Manual, 1888.

Rule VI.—No blocks of waste land which are altogether surrounded by ungranted and unoccupied land shall be given on lease under these rules.

Rule VII.—No block shall be given on lease which is not adjacent to land which has already been granted for purposes of cultivation. All applications which do not comply with Rule VI or with this rule shall be rejected.

Rule VIII.—Every block applied for must be compact, including no more than a single tract such as might be enclosed in a ring-fence. If the land touches a navigable river or *khal*, the water frontage shall not exceed a length which, in the opinion of the Sundarbans Commissioner, is necessary, in comparison with the other sides of the block, to form the grant into one of a compact, regular and convenient shape.

Rule IX.—No greater area than 10,000 standard bighas will be included in one lease, except under the special orders of Government. The sanction of the Board of Revenue shall be necessary to the lease of more than one block to one applicant or to the lease of a second block to an applicant who already holds one. The Board may at its discretion allow such further leases to be given on being satisfied that the applicant is in a position to begin clearing and cultivating at once, and that he *bonâ fide* means to do so, provided that each application shall comprise no more than the prescribed maximum area.

Rule X.—On receipt of an application, the Sundarbans Commissioner shall satisfy himself that it complies with all the requirements of these rules, and that the lands are such as can be properly leased. Should he find that the lands are not available for lease, or that for any reason they ought not to be leased, or that the application does not fulfil the requirements of the rules, he shall reject the application, or, in the latter case, allow it to be amended. In no case shall any application be admitted without special sanction of the Board of Revenue for any land which any persons are found to be occupying or using.

Rule XI.—When no objection is known to exist against the lease being made, the Sundarbans Commissioner shall determine whether a survey of the lands is required, or whether the maps and records of previous surveys available in his office are sufficient for the ready identification and demarcation of the boundaries on the ground.

Rule XII.—If no survey is required, and it is only necessary to demarcate the boundaries on the ground, the Sundarbans Commissioner shall estimate the cost of such demarcation, as well as the cost of clearing the lines and erecting temporary boundary marks, and shall call upon the applicant to deposit the same before a certain day, which shall be fixed with reference to the time at which the demarcation can conveniently be made; provided, however, that it shall be optional with the said Commissioner to allow the applicant himself to clear the jungle and construct such temporary boundary marks as may be considered sufficient for the ready identification of the land, until the permanent marks prescribed by Article XV of the lease shall be erected. If the applicant is allowed to clear the jungle and erect temporary land marks, he shall enter into an agreement to do so within such

reasonable time as shall be fixed by the Sundarbans Commissioner.

Rule XIII.—Should the Sundarbans Commissioner decide that a survey of the land is necessary, he shall call upon the applicant to deposit, before a day fixed for that purpose, the cost of survey in addition to the cost of demarcation, &c., as provided in the preceding rule. The cost of survey shall be calculated at the rate of four annas an acre on the area estimated in the application, or at such higher rate as may for special reasons be fixed in any case. The sum payable for survey shall be adjusted at the rate fixed per acre according to the actual area which may be ascertained by survey, a further payment being made by the applicant, or a refund being made to him, as may be necessary for adjustment.

Rule XIV.—In addition to the cost of survey, demarcation, &c., the applicant shall be required to deposit a sum of Rs. 16 to cover the cost of issuing the notice prescribed by Rule XIX.

Rule XV.—Should the applicant fail to deposit any amount required by the foregoing rules before the date fixed for that purpose, or should he fail to clear the lines or demarcate the boundaries by the date fixed under Rule XII, the application shall be struck off the file. An application so struck off may be re-admitted, but in that case the application shall be considered to have been made on the date of the application for such re-admission, and not on the date of the original application.

Rule XVI.—After the deposit of the fees, if, for any reason, the application should be struck off or the survey abandoned, the applicant shall not be entitled to a refund of any sum deposited by him, except when the lands are withheld from lease under Rule III. Refund may, however, be made at the discretion of the Sundarbans Commissioner of any balance remaining in deposit after meeting all expenses incurred on the objects for which the deposits were made.

Rule XVII.—Surveys shall ordinarily be made by Government surveyors; if made by other agency temporarily employed for the purpose, they shall be tested by Government officers.

Rule XVIII.—Surveys need not be more minute or detailed than is necessary to ensure approximate ascertainment of area, but the boundaries must be very accurately and clearly defined.

III.—Issue of Notice of Lease.

Rule XIX.—When the land has been surveyed and demarcated, and the Sundarbans Commissioner is satisfied that it may be leased, he shall issue a notice in Form B given in Appendix II of the Waste Lands Manual, 1888, announcing that an application has been made, and calling upon all persons who may have objections to make, to appear before a date to be specified, which date shall not be less than three months from the date of the notice as provided in section 1, Act XXIII of 1863.

Rule XX.—The notice shall be published at the office of the Sundarbans Commissioner, the office of the Board of Revenue, the office of the Collector of the district, at the Court of the District Judge, at the Subdivisional Office, at the Munsif's Court, and at the police-station within the limits of which the lands are situate. A copy shall also be published in the Government Gazettes in English and in Bengali.

Rule XXI.—In framing the notice, the Sundarbans Commissioner must be careful to state, as precisely as possible, all rights which will be reserved, such as waterways, fisheries, and the strips of land along the banks of rivers and streams for towing paths (*vide* 11th article of the lease form annexed to these rules), which will be held available for the use of Government and the public use.

Rule XXII.—If after issue of the notice and before the lease has been sold any claim be preferred or objection taken, the Sundarbans Commissioner must proceed as directed in Act XXIII of 1863

Rule XXIII.—If the Sundarbans Commissioner shall consider that any claim or objection is established, he shall stay his proceeding for selling the lease as directed by section 4, Act XXIII of 1863, and make a special report to the Board of Revenue.

Rule XXIV.—If the objection be such as can be got over by an arrangement without proceeding to a formal trial under section 6 of the Act, the Sundarbans Commissioner may, with the sanction of the Board of Revenue, order the arrangement to be made and in such case, or in case the claim or objection is eventually withdrawn or pronounced invalid, the Sundarbans Commissioner may proceed, on the dates specified in the notice, to sell the lease of the land.

IV.—SALE IN CASE OF MORE THAN ONE APPLICATION.

Rule XXV.—If there is but one applicant for the lease of the lands, it shall be sold to him at the upset price of eight annas an acre.

Rule XXVI.—Should there be more than one application for the lease of the same land before the date fixed by notification for the sale of the land applied for, and should the second application comprise the whole of the lands contained in the first, the Sundarbans Commissioner shall put the lease up to auction on the day named in the notice, and shall sell it to the highest bidder, but no person shall be allowed to bid who has not made such application, and no bid shall be accepted which is not *bonâ fide* on behalf of such person. If the second application comprise a portion only of the land contained in the first, it shall be rejected.

Rule XXVII.—The purchaser of a lease shall pay down at once 25 per cent. on the amount of his bid, and he shall further deposit at once as earnest-money 10 per cent. on the estimated cost of the construction of the "protective works" prescribed in Rule XXX following. In default of the immediate payment of the abovementioned 25 per cent. of the amount of the bid and of the abovementioned 10 per cent. on the amount of the estimated cost of the said "protective works," the amounts deposited under Rules XIII and XIV shall be forfeited, and the lease may be put up to resale at once, or may be reserved for future sale. Provided that the deposit of 10 per cent. earnest-money above stated shall be refunded to the depositor when, in the opinion of the Sundarbans Commissioner, the construction of the "protective works" prescribed in Rule XXX hereafter shall have been completed in a thoroughly sufficient and workmanlike manner.

Rule XXVIII.—The purchaser of a lease shall further pay in the balance of the purchase-money, together with any other sums which may be legally demanded by the Sunbarbans Commissioner, within one month of the day of sale. If he fail to do so, the sale shall be cancelled by the authority of the Sundarbans Commissioner. The 25 per cent. on the bid and the amounts deposited under Rules XIII and XIV shall be forfeited, and the land shall be available for lease to any other applicant. The sum of 10 per cent. on the estimated cost of the construction of the protective works, deposited under Rule XXVII, shall not be forfeited, but shall be returned to the depositor on his application.

Rule XXIX.—After the conditions of the sale have been fulfilled, the Sundarbans Commissioner may permit the purchaser of the lease to enter upon the lands and forthwith commence clearing operations, and will grant a lease of the lands according to the terms of the lease form annexed to these rules. He will then forward the lease for registration in the office of the Board of Revenue and will also cause it and its counterpart to be duly registered by the Registrar of Assurances.

Rule XXX.—The purchaser shall, before the lease of the lands is given him and immediately on permission being granted him to enter upon the lands, execute an agreement to construct, or cause to be constructed, in a good, sufficient and workmanlike manner, in positions to be fixed upon by the Sundarbans Commissioner, "protective works" as described in the form of agreement annexed to these rules, and shall bind himself to complete the construction of the said "protective works" to the satisfaction of the Sundarbans Commissioner by the end of the fourth year of the currency of the lease, failing which the purchaser shall forfeit the earnest-money calculated at the rate of 10 per cent. on the estimated cost of the construction of the said "protective works" deposited by him as prescribed in Rule XXVII, and the Government shall have discretion to determine the lease or to cause the

Sundarbans Commissioner, or other officer appointed by Government, who shall have the right of entry upon the lands, to erect the said "protective works," as also all such other land-marks, &c., as are considered necessary, and all costs whatsoever incurred on these accounts shall, after giving credit for the forfeited earnest-money beforementioned, be recovered in accordance with the terms of the said agreement from the purchaser, his heirs and assigns by the law in force for the time being for the recovery of public demands. The description and dimensions of the abovementioned "protective works" shall be as detailed in the form of agreement annexed to these rules.

Rule XXXI.—A lease whether sold to the only applicant or by auction shall be sold subject to the terms and conditions set forth in the form of lease annexed to these rules and to those contained in the notice issued in Form B as given in Appendix II of the Waste Lands Manual, 1888.

Rule XXXII.—All leases of waste lands in Saugor Island will be recorded in a register to be kept in the office of the Commissioner in the Sundarbans in such form as the Board of Revenue may prescribe.

Rule XXXIII.—The Board of Revenue is empowered to issue any further subsidiary instructions for giving effect to the above rules.

Rule XXXIV.—No application for redemption of the assessments payable on account of leases of waste lands in Saugor Island will be entertained.

FORM OF LEASE UNDER RULE XXIX OF THE RULES FOR THE LEASE OF WASTE LANDS IN SAUGOR ISLAND.

THIS lease is granted by the Secretary of State for India in Council to son of his heirs, executors, administrators and assigns, for the term of 40 years from the day of 18 , for a portion of waste land in Saugor Island, estimated to contain standard bighas, situated in that part of the said Saugor Island know and described as , and bounded as follows :—

On the north.—
On the east.—
On the south.—
On the west.—

The conditions of this lease are—

First.—That one-fourth of the entire area leased shall be for ever exempted from assessment as an estimated allowance for unassessable area, such as that occupied by water-courses, creeks, tanks, roads, the space required for the construction of the hereinafter described "protective works" and of the lessee's embankments, dams, tow-paths, &c., and for irreclaimable waste land.

Second.—That the remaining three-fourths of the area leased shall be held free of assessment for fifteen years from the , and shall be subject thereafter to annual payments at the following rates, viz.—

From the beginning of the 16th to the end of the 20th year, two annas the bigha of 1,600 square yards.

From the beginning of the 21st to the end of 40th year, four annas the bigha of 1,600 square yards.

Third.—That one-eighth of the entire area leased, as recorded in the lease, shall be cleared, and shall be in a state fit for cultivation at the end of the fifth year, reckoning from the day of 18 , and that at any time after the expiration of the said fifth year, the Sundarbans Commissioner or other officer appointed by Government, or any person authorized by him, may enter upon the land and cause it to be measured for the purpose of ascertaining whether this condition has been fulfilled.

Fourth.—That on failure to comply with the above clearing condition, the lessee shall be liable at the discretion of Government to the forfeiture of all rights in land under the present lease, or to a penalty of four annas per acre on the whole area of the grant for each year in which the area rendered fit for cultivation falls shor of the area required to be cleared and made fit for cultivation in accordance with the clearing condition set forth in the preceding

clause of this lease. Provided that if the Government, at its discretion determines the lease, it shall have the right of immediate re-entry on the lands.

Fifth.—That the above stated penalty of four annas per acre on the whole area of the grant shall be recoverable from the lessee by the law in force for the time being for the recovery of public demands.

Sixth.—That the amount of assessment due on the land shall be paid to the Collector of the 24-Parganas district, according to the following instalments, viz :—

Seventh.—That all arrears of assessment due on the land shall be recoverable as arrears of revenue due on temporarily-settled estates according to any law for the time being in force.

Eighth.—That upon or at any time after the expiration of the term of 40 years hereby granted from , the land shall be open to resettlement for a period of 20 years on such terms as the Government shall think fit: provided that the assessment shall not be fixed higher than the rates which would be paid by cultivating raiyats in the neighbourhood for lands growing the ordinary crops of the country, less 30 per centum to be allowed to the lessee to cover the risks and cost of collection and to represent his profits; and that the above assessment shall be calculated on the entire area leased, less the one-fourth which is exempted from assessment under the first condition of this lease. That the land shall be subject to any cesses, such as the District Road Cess, the Public Works Cess or any other, in addition to the assessment to be paid, but the liability of the land to these cesses shall be left to the discretion of the Local Government after the first period of 40 years' settlement has expired.

Ninth.—That the land shall from time to time be subject to resurvey and reassessment in accordance with the first clause of the preceding condition after the expiration of 20 years from any resettlement.

Tenth.—That the land shall be subject to all existing rights of way and water and other easements, and to the following exceptions and reservations which were particularised in the notice of sale of this lease, viz :—

Eleventh.—That the right of using all streams and channels in any way navigable, and of fishing in the same, shall be reserved to the public, as also the use of land for tow-paths, not less than 25 feet in width, on each side of every such stream and channel. That no charge will be made for wood and timber standing on the land at the time it is leased, which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

Twelvth.—That Government reserves to itself the right to all minerals in, under, or on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Thirteenth.—That if any land leased under this lease shall hereafter be required for any public purpose, such land, whether cultivated or uncultivated, may be resumed by Government on exempting the lessee from payment of the rent assessed on the area required; and in the case of cultivated land by further payment of the reasonable cost of bringing the land under cultivation, and on payment of reasonable compensation for the value of any building, &c., which may stand on the lands.

Fourteenth.—That in the event of any boundary dispute arising between the lessee of the land granted under this lease and the lessee of any adjoining land already leased under the Waste Lands Lease Rules for Saugor Island, or otherwise granted out or which may subsequently be leased, the holders of this lease shall be bound to submit such disputes to the decision of the Commissioner in the Sundarbans or other officer empowered by Government to decide such disputes. That the decision of the Sundarbans Commissioner, or other officer abovenamed, shall be appealable to the Board of Revenue, and the decision of the Board shall be

final and binding on the lessees. That the lessees shall have no claim against Government for compensation or damages in respect of land having been included in this lease which has already been included in some previous lease; but the lessees shall be entitled to proportionate reduction of the assessment in respect of any land covered by this lease which may subsequently be discovered not to have been available for lease.

Fifteenth.—That on being put in possession of the land hereby leased, the lessee shall, except where the boundary runs along a river or a well-defined *nala or khal*, within three months, erect masonry pillars or platform or such other land-marks as may be required to the satisfaction of the Sundarbans Commissioner, or other officer appointed by Government, at each point where two or more blocks of waste land or other properties meet, and large earthen mounds at every angle or bend and at intervals of a hundred yards of the boundary line between such masonry pillars or platforms or other land-marks. That the lessee shall further construct or cause to be constructed "protective works," that is to say, a tank or tanks and embankments of the nature and dimensions set forth in the agreement for that purpose entered into on the day of between the parties to the present lease.

Sixteenth.—The Commissioner in the Sundarbans or other officer appointed by Government shall have the right to enter upon the grant and ascertain whether the lands have been demarcated and whether the protective works and lesser embankments prescribed in the 15th clause of this lease have been constructed; and if it be found that the lessee has neglected to demarcate the lands or to construct or have constructed the said protective works and lesser embankments, the Government may at its discretion determine the lease, in which case, it shall have the right of immediate re-entry on the lands, or it may, through the Commissioner in the Sundarbans or other officer, cause to be erected the land-marks considered necessary, or construct the protective works and lesser embankments hereinbefore described, and all costs incurred, whether the actual cost of the land-marks and of the construction of the protective works and lesser embankments (in this latter case the 10 per cent. earnest-money prescribed in Rule XXVII above to be deposited will be carried to the credit of the cost incurred), and the expenses incurred for clearing any jungle, and for supervision and travelling expenses and all other charges whatsoever shall be recovered from the lessee by the law in force for the time being for the recovery of public demands.

Seventeenth.—That the Sundarbans Commissioner or other officer appointed by Government shall have the right to enter upon the grant at any time and inspect the said boundary marks and "protective works" to ascertain whether the same are in good and proper repair Such inspections shall usually take place once a year, and if any defects are pointed out by the Sundarbans Commissioner or other officer appointed by Government at any such inspection, and the lessee fails to make them good before the next inspection, the Sundarbans Commissioner or other officer appointed by Government shall cause the defects to be rectified, and all costs whatsoever incurred on such rectification may be recovered from the lessee, if necessary, by the law for the time being in force for recovery of public demands.

Form of Agreement under Rule XXX of the Rules for the lease of waste lands in Saugor Island.

This AGREEMENT entered into the day of one thousand eight hundred and by son of of

witnesseth that the said having been granted a lease of certain lands in Saugor Island a map and plan of which lands are annexed to this agreement does hereby agree and bind himself his heirs executors administrators or assigns to excavate construct and maintain or cause to be excavated or constructed and maintained at the site marked A in the said plan in a thoroughly good sufficient and workmanlike manner a tank

surrounded by embankments the whole to be known as a "Protective Work" of the description height and dimensions and in accordance with all the terms and conditions hereinafter to be mentioned. The said further agrees and binds himself his heirs executors administrators or assigns to complete the excavation and construction of the said tank and its surrounding embankments and the terraces or buildings as hereinafter described or cause the same to be completed to the satisfaction of the Sundarbans Commissioner or other officer appointed by Government by the end of the fourth year from the date of the lease herein referred to and to maintain the same in a thorough good state of repair to the satisfaction of the said officer under all the terms conditions and penalties as stated in the clause of the said lease.

The terms and conditions under which and the height and dimensions to which the excavation and construction of the aforesaid "protective work" shall be carried out and the manner in which it shall be maintained are as follows:—

First.—That the tank shall not be less than two hundred feet in length one hundred and fifty feet in width and eight feet in depth and the embankments surrounding the same shall not be less than sixteen feet six inches in height above the level of the land. That the crest of each such embankment shall not be less than five feet in breadth and the gradients or slopes of each of the said embankments shall not be less than three and a half feet to one on the outside and not less than two feet to one on the inside.

Second.—That either the inner slope of each of the said embankments shall be cut in terraces, or a good and sufficient range of buildings shall be constructed within the said embankments, according as the Sundarbans Commissioner or other officer appointed by Government shall decide, so as to provide a place of refuge for the inhabitants of the grant in the event of a storm-wave passing over the same.

Third.—That the embankments surrounding the tank shall be properly rammed and turfed to the satisfaction of the Sundarbans Commissioner or other officer appointed by Government and that all round the tank there shall be a clear space or sward not less than fifty feet in breadth between the edge of the tank and the toe or base of the inner slope of each embankment.

Fourth.—That the said his heirs executors administrators or assigns shall not at any time erect cause or allow to be erected or used any building or construction for habitation at a greater distance than one English mile from the embankments of the aforesaid "protective work" or place of refuge unless the plinth of such building or construction is raised to a height of sixteen and a half feet above the level of the land.

Fifth.—That the said his heirs executors administrators or assigns shall at his or their own expense construct or cause to be constructed in a substantial and workmanlike manner good and convenient roads or "bheris" of the kind ordinarily used for communication in the locality leading to and from connecting the various habitations on his or their grant with the aforesaid protective work. The height of all such roads and cross roads above the level of the surrounding land to be not less than five feet and the crest of the same not less than three feet in width.

Sixth.—That as the population of the grant from time to time spreads beyond the hereinbefore prescribed distance from the said protective work] or place of refuge the said his heirs executors administrators or assi ns shall at his or their own expense construct excavate and maintain or cause to be constructed excavated and maintained an additional tank or tanks in every respect similar to and under all the terms and conditions referring to that hereinbefore enjoined at a site or sites to be selected or approved by the Sundarbans Commissioner or other officer appointed by Government.

That on failure to comply with any of the terms and conditions of this agreement or of his lease the said for himself his heirs executors administrators or assigns hereby agrees and covenants to undergo the penalties set forth in the clauses of the said lease: provided always that the Sundarbans Commissioner or other officer appointed by Government shall give to the said his heirs executors administrators or assigns 15 days' notice within which period to show cause why the said penalties should not be enforced.

Ahiapur	Do.	9·24

No. 69.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for staff quarters, &c., at Rajbari station on the Eastern Section of the Eastern Bengal State Railway, in the village of Benodepur, pargana Dhuldi, zilla Faridpur, it is hereby declared that for the above purpose a plot of land measuring, more or less, 11 acres 2 roods and 22·4 poles of standard measurement, bounded on the north, east and west by land belonging to the village of Benodepur and on the south by land belonging the Eastern Bengal State Railway, and by land belonging to the village of Benodepur, is required within the aforesaid village of Benodepur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 25th March 1897.

No. 75 Marine.—The following telegrams dated the 20th March 1897 from the Secretary of State, London, relative to the imposition of quarantine rules on account of the plague, are published for general information.

A. D. McARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

Copy of a telegram dated the 20th March 1897 from the Secretary of State, London, to the Viceroy, Calcutta.

Marseilles. My telegram of yesterday. Undress leather, raw hides, rags, animal matters, wool, prohibited even in transit. Oilseeds and coprah, whether in bag or bulk. Carpets to be disinfected. If there has been no sickness on board or death during voyage, passengers undergo medical visit and disinfection before landing. Steamers with interdicted cargoes for English ports discharge other cargo in quarantine. Roumania. My telegram of 24th February last. Sacks from India transhipped at British ports allowed enter *Sulina* and *Constanta* after disinfection.

Copy of a telegram dated the 20th March 1897 from the Secretary of State, London, to the Viceroy, Calcutta.

My telegram of 15th February last. Passengers from India can only enter Mesopotamia between Byazid and Khanakin.

Copy of a telegram dated the 20th March 1897 from the Secretary of State, London, to the Viceroy, Calcutta.

Germany. Untanned skins and hides from India admitted if port free from plague despatched after 11th February last compressed into airtight bales compressed for transport in or near harbour at port of departure. Bombay and Karachi specially excluded from this concession. Prohibition regarding Germany in my telegram of 19th February last extended to goods from India transhipped in ports in Europe.

The 27th March 1897.

No. 76 Marine.—The following notification dated the 15th March 1897, issued by the Administration of Burma regarding the imposition of quarantine against arrivals from Goa, is published for general information.

A. D. McARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATION.

Dated Rangoon, the 15th March 1897.

No. .—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Plague have been made by the Chief Commissioner of Burma, with the previous sanction of the Governor-General in Council: they have effect from this date in the Ports of Rangoon, Akyab, Moulmein and Bassein as a temporary measure:—

I.—The commander of every vessel, including junks or other native craft, arriving from Goa, shall, on arrival at the pilot station, hoist a yellow flag and indicate by signal the port from which she has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the shore or with any other vessel or boat except with the boat supplying a pilot, and in that case communication shall be limited to receiving on board the pilot, his servant, if any, and baggage.

III.—The pilot shall not take such vessel higher than Elephant Point, the Stone pier, Lower Anchoring creek or Takaing, as the case may be, but shall anchor it there until the Health Officer of the Port has visited it and ascertained by enquiry from the commander whether any person on board is suffering, or has during the voyage suffered, from plague. If the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, the Health Officer *may*, by writing under his hand to be delivered to the commander, permit such vessel to haul down the yellow flag and proceed upwards in the port and hold free communication with the shore and with vessels

and boats in port. Provided that, if the vessel has undergone since leaving Goa a quarantine, which is properly proved, for not less than eight days at Colombo, or some other British Port, the Health Officer *shall* grant such permission as aforesaid.

If the vessel has not undergone eight days' quarantine at Colombo or some other British port since leaving Goa, the Health Officer *may* direct the commander to take the vessel to the quarantine anchorage and there to remain for a period of eight days from the date of arrival in the harbour. In such case the Health Officer shall also direct the commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorge aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Chief Commissioner as places of quarantine, there to remain for a period of eight days, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Conservator of the Port to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Rangoon, Akyab, Moulmein or Bassein which may have communicated with any vessel coming from Goa shall be subjected to the same quarantine as vessels arriving at those ports from Goa unless the communication was held after the vessel from Goa was released from quarantine.

By order,

F. C. GATES,
Secretary.

The 27th March 1897.

No. 77 Marine.—The following telegram dated the 22nd March 1897 from the Secretary of State, relative to the imposition of quarantine rules on account of the plague by the authorities at Turkey, is published for general information.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

Copy of a telegram dated the 22nd March 1897 from the Secretary of State for India to the Viceroy, Calcutta.

Turkey. Susceptible goods including jute sacking from Indian ports to be disinfected in Lazaret; but if certified suspects admitted to free pratique in port of transhipment disinfection unnecessary.

The 29th March 1897.

No. 78 Marine.—Under the provisions of section 15 of the Calcutta Port Act, 1890, the Lieutenant-Governor is pleased to appoint Captain P. J. Falle, R.I.M., to act as a Commissioner of the Port of Calcutta during the absence of Captain A. Gwyn, R.I.M.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

The 29th March 1897.

No. 79Marine.—Under the provisions of section 7 of Act IV (B.C.) of 1887, the Lieutenant-Governor is pleased to re-appoint Mr. E. Good to be a Commissioner of the Port of Chittagong with effect from the 2nd April 1897.

Mr. Good is also re-appointed to be Vice-Chairman of the Commissioners from the same date.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

The 30th March 1897.

HIGH COURT NOTICE.

NOTIFICATION.

The 25th March 1897.

THE following rule passed by the High Court of Judicature at Fort William in Bengal is published for general information.

By order of the High Court,
T. W. RICHARDSON, *Registrar.*

It is ordered that Rule 4 of the Rules for the preparation of Paper-books in Second Appeals exceeding Rs. 50 in value, contained in Part II, Chapter IX, page 57 of "the Rules of the High Court, Calcutta, Appellate Side," published in Part I, page 494 *et seq.* of the *Calcutta Gazette* of the 20th May 1891, be amended by substituting the words "the costs actually, or likely to be, incurred" for the words "the actual costs incurred" appearing in the said rule, and that such amendment do take effect immediately on its publication in the *Calcutta Gazette.*

The 22nd March 1897.

High Court, Original Side.

NOTIFICATION.

Calcutta, the 29th March 1897.

THE Hon'ble the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Arthur Thomas Whatley, Esq., of No. 27, Lincoln's Inn Fields, London, Solicitor, a Commissioner within all parts of England to take affidavits or affirmations or declarations in all suits, matters and proceedings in the Calcutta High Court, and also the acknowledgments of married women in respect of property in India.

By order,
R. BELCHAMBERS, *Registrar.*

Sheriff's Office, the 10th March 1897.

NOTICE is hereby given that the Second Criminal Sessions of the year 1897 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Thursday, the Twenty-ninth day of April next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

SHEWBUX BAGLA, *Sheriff.*

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

PUBLIC.

Calcutta, the 26th March 1897.

No. 451.—Under the provisions of section 9 of the Statute 24 and 25 Vict., Cap. 67, the Governor-General in Council is pleased to direct that His Excellency's Council shall assemble at Simla in the jurisdiction of the Lieutenant-Governor of the Punjab.

MEDICAL.

The 23rd March 1897.

No. 214.—Surgeon-Major R. H. Charles, M.D., M.CH., F.R.C.S.I., Professor of Surgical and Descriptive Anatomy in the Medical College, Calcutta, and *ex-officio* 2nd Surgeon to the College Hospital, is granted furlough on medical certificate for twelve months, with effect from the date on which he may avail himself of it.

No. 215.—Surgeon-Lieutenant-Colonel J. Lewtas, M.D., Civil Surgeon of Chittagong, is appointed to officiate as Professor of Surgical and Descriptive Anatomy in the Medical College, Calcutta, and *ex-officio* 2nd Surgeon to the College Hospital during the absence on furlough on medical certificate of Surgeon-Major R. H. Charles, M.D., M.CH., F.R.C.S.I., or until further orders.

The 25th March 1897.

No. 234.—Surgeon-Colonel J. H. Newman, M.D., I.M.S. (Bengal), is appointed to officiate as Inspector-General of Civil Hospitals, Bengal, during the absence of Surgeon-Colonel G. L. Ross, on furlough on medical certificate, or until further orders.

SANITARY.

The 22nd March, 1897.

No. 1033.—In exercise of the powers conferred by section 2, sub-section (1), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to prohibit the bringing of used apparel and bedding (except when carried as the personal baggage of travellers), rags, waste paper and used gunny bags, from the territories administered by the Governor of Bombay in Council including Sind into any other part of British India.

The 26th March 1897.

No. 1093.—The following documents regarding quarantine and trade restrictions imposed in Foreign Countries in consequence of the existence of bubonic plague in India are published for general information :—

Quarantine notice issued by the Norwegian Government.

Justice and Police Department
of the Norwegian Government.

Christiania, February 5, 1897.

Under date of the 1st instant, the following Royal Proclamation has been drawn up :—

"With reference to section 2 of the Quarantine Law of the 12th July, 1848, notice is hereby given that ports in Arabia, Persia and British India ('Forindien'), together with Formosa and the Pescadores in Eastern Asia, shall, until further notice, be regarded as infected with the Oriental pest; and that in compliance therewith, the regulations concerning quarantine against the pest contained in the abovenamed law are to be immediately enforced, to which all persons concerned are required obediently to conform."

This is hereby made known in order to draw attention to the fact that at present unloading quarantine can only be performed at Christiania and Quarantine Station—see section 8 in the Quarantine Law of the 12th July, 1848, and section 11 in the Quarantine Regulation of the 10th February, 1849.

A number of copies of this Circular are herewith enclosed.

F. HAGERUP.
L. ESMARCH.

The British Consulate-General, Christiania.

Regulation issued by the Roumanian Government respecting the importation of waste paper.

Bucarest ce $\frac{26 \text{ Janvier}}{9 \text{ Février}}$, *1897.*

Le Département des Affaires Etrangères s'empresse de porter à la connaissance de la Légation Royale que le Conseil des Ministres, sur l'avis du Conseil Supérieur Sanitaire et conformément à l'Art. 162 de la loi sanitaire, a pris la décision d'interdire l'importation en Roumanie du papier maculature sale, des jaurnaux usés (qui ont été lus) et de toute sorte d'imprimés salis introduits comme maculature.

Cette décision contenue dans le Journal du Conseil des Ministres No. 13 est entrée en vigueur à partir du $\frac{26 \text{ Janvier}}{4 \text{ Février}}$, 1897.

Regulations respecting Quarantine at Antwerp.

(Translation.)

Precautions to be taken at the Sanitary Station at Doel in the cases of all vessels (including those having clean bills of health) coming from infected ports, whether they have touched at intermediate ports or not.

Indirect Arrivals.

1. Disinfection of all latrines and urinals, and such other parts of the ship as may be deemed necessary.

2. The bilge water shall be pumped out, and a fresh supply of drinking water taken on board.

3. The Sanitary Officials shall inspect the list of passengers and the crew list and examine every person on board.

If it shall be found that any of the persons who left the port of origin with the vessel are no longer on board, satisfactory proof shall be demanded that they did not leave the ship on account of any epidemic or contagious disease.

4. The ship's manifest shall be submitted to the Sanitary Inspector, in order that he may ascertain that there are no goods on board of a suspicious nature or of which the introduction is forbidden.

In order to facilitate the carrying out of these measures, vessels can, if necessary, be detained at the Sanitary Station during one tide.

Any vessels having on board no merchandise of a suspicious or prohibited nature can be exempted from detention, if a duly signed copy of her manifest has, five days before arrival, been forwarded to the President of the Sanitary Commission, and if they are able to produce a certificate (in duplicate) of the Sanitary Authorities of a port of call, free of any contagious disease, stating—

(*a*) That measure for disinfection, similar to those described in provisions 1 and 2, have been carried into effect.

(*b*) That no person on board has suffered from any contagious disease during the whole voyage, if the duration thereof shall have been at least twelve days between the last infected port visited and the port at which the certificate is granted.

If the above conditions shall have been fulfilled, the Master must slacken speed at Doel to permit the quarantine boat to come alongside. The duplicate bills of health shall be

delivered to the Sanitary Inspector; one of these shall be retained by him, and the other, after having been dated and stamped, will be returned to the Master, who shall deliver it to the Customs Authorities on his arrival in the port.

The greater number of countries having taken effective quarantine measures with regard to all goods coming from the plague-stricken districts of India, vessels arriving at Antwerp from healthy ports need undergo no special sanitary formalities.

At the same time certificates of origin must be produced for any suspicious or prohibited goods arriving even from a healthy port.

Merchandise.

A. Merchandise of which the introduction is forbidden even in transit—

1. Green hides, salted or pickled, raw hides, hoops, etc., fresh animal matter, etc.

(Exception is made in the case of salted green hides, which have been treated with arsenic, which are admitted for sale in Belgium.)

2. Wearing apparel, bedding, used or unused.

3. Old or new carpets, woollen goods, used or unused, silk stuffs.

4. Peacock feathers and small articles, imported retail, which might carry the germs of infection.

5. Bottles of liqueur and perfumes, imported retail.

6. Dress goods, drill, etc., not packed in compressed bales and secured with hoops.

7. Samples of raw wool, cotton and jute, if not compressed and bound with hoops.

The goods mentioned in numbers 2, 3, 4, 6, and 7 can be admitted after having been disinfected by the apparatus at the Doel Sanitary Station.

B. Merchandise admitted in transit but not for sale in Belgium—

1. Raw wool in pressed bales bound with hoops.

2. All dress goods and drill staffs packed in pressed bales and bound with hoops.

The Sanitary Authorities can, however, order the bales to be sprinkled with disinfectant before they are unloaded from the vessel.

Antwerp, February 6th 1897.

Telegram, dated the 19th March 1897.

From—The Secretary of State, London.

To—The Viceroy, Calcutta.

Marseilles. My telegram* of yesterday. Undressed leather, raw hides, rags, animal matter, wool, prohibited even in transit. Oilseeds and coprah, whether in bag or bulk, carpets to be disinfected. Réunion. Rice and grain in bags from Bombay must be transferred on arrival to fresh uninfected bags. No susceptible articles admitted.

Germany. My telegram of 20th* March last. Dry-salted and arsenicated hides not admitted from Indian infected ports. Prohibited articles repulsed from Hamburg, though transhipped in European ports.

Madagascar. All ships coming from *Indian infected ports are repulsed.*

Mozambique grants pratique.

* Published in this Notification.

No. 1101.—The following rules for quarantine against plague, which have been made by the Chief Commissioner of Burma with the previous sanction of the Governor General in Council, are published for general information.

The rules have effect from the 15th March 1897 in the Ports of Rangoon, Akyab, Moulmein and Bassein as a temporary measure :—

I.—The commander of every vessel, including junks or other native craft, arriving from Goa, shall, on arrival, at the pilot station, hoist a yellow flag and indicate by signal the port from which she has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the shore or with any other vessel or boat except with the boat supplying a pilot and in that case communication shall be limited to receiving on board the pilot, his servant, if any, and baggage.

III.—The pilot shall not take such vessel higher than Elephant Point, the Stone pier, Lower Anchoring creek or Takaing, as the case may be, but shall anchor it there until the Health Officer of the Port has visited it and ascertained by enquiry from the commander whether any person on board is suffering, or has during the voyage suffered, from plague. If the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, the Health Officer *may*, by writing under his hand to be delivered to the commander, permit such vessel to haul down the yellow flag and proceed upwards in the port and hold free communication with the shore and with vessels and boats in port. Provided that, if the vessel has undergone since leaving Goa a quarantine, which is properly proved, for not less than eight days at Colombo, or some other British Port, the Health Officer *shall* grant such permission as aforesaid.

If the vessel has not undergone eight days' quarantine at Colombo or some other British port since leaving Goa, the Health Officer *may* direct the commander to take the vessel to the quarantine anchorage and there to remain for a period of eight days from the date of arrival in the harbour. In such case the Health Officer shall also direct the commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the veesel, to such particular spots as may from time to time be selected by the Chief Commissioner as places of quarantine, there to remain for a period of eight days, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Conservator of the Port to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Rangoon, Akyab, Moulmein or Bassein which may have communicated with any vessel coming from Goa shall be subjected to the same quarantine as vessels arriving at those ports from Goa unless the communication was held after the vessel from Goa was released from quarantine.

JUDICIAL.

The 20th March 1897.

No. 286.—The Hon'ble Mr. Justice Gordon having tendered the resignation, as from the 1st April 1897, of his appointment as an Officiating Judge of the High Court of Judicature at Fort William in Bengal, *vice* the Hon'ble Sir H. T. Princep, the Governor-General in Council is pleased, under the provisions of the Indian High Courts Act, 1861 J(24 and 25 Vict., Cap. 104), section 7, to appoint Mr. J. F. Stevens, Indian Civil Service, Judicial Commissioner of the Central Provinces, to officiate as a Judge of the said Court from the said date until further orders.

Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

STATISTICS AND COMMERCE.
MERCHANT SHIPPING.

Calcutta, the 24th March 1897.

No. 1360-*S.R.*—Under the provisions of Sections 65 and 89 of the Merchant Shipping Act (57 and 58 Vic., chap. 60) the Governor General in Council is pleased to direct that the forms referred to in the Memorandum of the Board of Trade and General Order of Her Majesty's Commissioners of Customs set forth below shall be adopted in British India for the registry of British ships under the said Act, with effect from the 1st April 1897.

A supply of the forms can be obtained on application at Calcutta, Madras, and Bombay from the Port Officer, and at any other port from the officer appointed by the local Government to be a Registrar of British Ships at that port.

---

(1) Memorandum of the Board of Trade, dated July 1896, No. 547.

It has been thought expedient to make alterations in certain of the forms used in connection with the registry of British ships. The forms so altered have, in accordance with section 65 of the Merchant Shipping Act, 1894, been prescribed by the Commissioners of Customs with the consent of the Board of Trade, and public notice of the alterations has been given by the Commissioners in the United Kingdom

As the section quoted above requires the prescribed forms to be used by all Registrars of Shipping, and as section 89 of the Act provides that the Governor of each British Possession shall occupy the place of the Commissioners of Customs in matters relating to the Registry of Ships, it is necessary that notices, somewhat similar to those issued in the United Kingdom by the Commissioners of Customs, should be issued in the British Possessions.

A copy of the Notice issued by the Commissioners, and a copy of their General Order ($\frac{19}{1896}$) upon the subject are enclosed, and it is suggested that in framing similar notices and instructions in British Possessions the 1st January, 1897, would be a convenient date for bringing the new forms into use.

No alteration involving any question of principle affecting the registry of ships has been made, the old forms and the new being practically the same. It would, therefore, be advisable that any notice of the kind proposed should be so framed as not to invalidate any old form which may be inadvertently used after the date upon which the new forms come into use.

Copies of the new forms Nos. 1 to 18A are enclosed, and a supply of these forms for use can be obtained on application in the usual manner.

---

(2) General Order No. $\frac{19}{1896}$, dated 5th May 1896, by the Commissioners of Customs, referred to above.

With reference to Section 65 of the Merchant Shipping Act, 1894, 57 and 58 Vict., C. 60, and to General Order $\frac{80}{1894}$, the Commissioners have now, with the consent of the Board of Trade, prescribed the Forms specified in Part I of Schedule II of the above Act. They have, also with the consent of the Board of Trade, approved of the revision of the Forms specified in Part I, Schedule of the above Act.

The following List embraces the Forms in question, *viz.* :—

Form No. 1. Certificate of Survey.

" 2. Declaration of Ownership by individual. Resident or non-resident Owner or Transferee a natural born subject.

" 3. Declaration of Ownership by individual. Owner or Transferee resident in Her Majesty's Dominions (naturalized subject, etc.).

" 4. Declaration of Ownership by individual. Owner or Transferee *not* resident in Her Majesty's Dominions (naturalized subject, etc.).

" 5. Declaration by Joint Owners or Transferees attending together.

" 6. Declaration by a Joint Owner or Transferee.

" 7. Declaration of Ownership (special cases).

" 8. Declaration of Ownership on behalf of a Body Corporate.

" 9. Certificate of British Registry.

" 10. Bill of Sale.

" 11. Mortgage (to secure Principal Sum and Interest).

" 12. Mortgage (to secure account current, etc.).

" 13. Declaration by Representative of a deceased Owner or Mortgagee taking by transmission.

" 14 Declaration of Ownership or Interest on transmission by Bankruptcy.

" 15. Declaration on transmission by marriage.

" 16. Certificate of Mortgage.

" 17. Certificate of Sale.

" 18 Revocation of Certificate of Mortgage or Sale.

" 18*a*. Provisional Certificate.

The Forms now prescribed are to be adopted in the British Islands on and after the 1st July next Any of the previous Forms remaining on hand on that date are to be treated as waste paper. A supply of the Forms No. 2 to No 18, inclusive, can be obtained on application in the usual manner to the 2nd Division of the Secretary's Office Form No 1, Certificate of Survey, and No. 18*a*, Provisional Certificate, which are not in use by Officers of this Department, will be obtained, kept, and issued by the Board of Trade.

A copy of the enclosed Notice which has been prepared in accordance with Paragraph 2 of Section 65 of the Merchant Shipping Act, 1894, is to be posted up at all places where Registry transactions may take place

SEPARATE REVENUE.

Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1648M.—The 24th March 1897.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, and in accordance with the recommendation of the Commissioners of the Bhabua Municipality, in the district of Shahabad, made at a meeting, to extend the provisions of section 261 and clauses (2) and (3) of section 273 of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1656M.—The 25th March 1897.—Whereas a notification No. 5108M., dated the 30th December 1896, was published at page 2, Part IB of the *Calcutta Gazette* of the 6th January 1897, declaring the intention of the Lieutenant-Governor to extend the provisions of sections 256A, 256B, and 260A of Part VI of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, to the Cossipore-Chitpur Municipality, in the district of the 24-Parganas, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality,

it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Cossipore-Chitpur Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1733M.—The 26th March 1897.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as amended by Act IV of 1894, the Lieutenant-Governor is pleased to appoint Syed Ahmud Ali to be a Commissioner of the Cossipore-Chitpur Municipality, in the district of the 24-Parganas, *vice* Nawab Syed Asgar Ali Delar Jung Bahadur, C.S.I., deceased.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1735L.S.-G.—The 26th March 1897.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint the following gentlemen to be members of the District Board of Dinajpur :—

Babu Hari Charan Sen, *vice* Babu Harendra Narayan Choudhury.
„ Purna Chandra Rai, *vice* Babu Brindaban Chandra Rai.
„ Atal Behari Moulic, *vice* Munshi Jamiruddin Choudhury.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1744Medl.—The 26th March 1897.—The following draft of rules which the Lieutenant-Governor proposes to make in modification of rules 9 and 10 of the rules for the establishment and maintenance of hospitals and dispensaries under the supervision of the Government of Bengal, sanctioned under section 69, clause (6) of the Bengal Municipal Act, III of 1884, and section 138, clause (*k*) of the Bengal Local Self-Government Act, III of 1885, is published for general information, and notice is hereby given that the draft will be taken into consideration on or after the 1st May 1897, when any objections or suggestions which may be made by any person and received before that date will also be considered :—

RULE 9.—The medical officer of every institution in Class I of these rules shall be a member of the Government service, and shall be appointed by the Inspector-General of Civil Hospitals.

RULE 10.—The local authority or Managing Committee vested with the control and administration of an institution in Class II, and the Managing Committee of an institution in Class III, shall be entitled to appoint their own medical officer, subject to the following conditions, viz.—

(*a*) that he be a duly qualified medical man, licensed or certified by a recognised Medical College or School, his license or diploma being subject to examination and approval by the Inspector-General of Civil Hospitals;

(*b*) that he be not a dismissed servant of Government, or disqualified for his duties by age, infirmity, or character; and

(*c*) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise, being proved against him to the satisfaction of the Medical Department, he be removed from his charge on the requisition of the Inspector-General of Civil Hospitals.

Provided that on the application of the local authority or Managing Committee of any such institution, the services of a Government medical officer may be lent to such institution subject to the rules laid down in this Manual. In the case of institutions in Class II, the pay of an Assistant Surgeon will be assumed to be Rs. 150 per mensen, and that of a Civil Hospital Assistant Rs. 38, and local authorities will be required to pay these sums into the Treasury half-yearly in June and December, irrespective of the actual pay of the officer appointed.

Provided also that in the case of dispensaries situated at the head-quarters of districts or of sub-divisions, the medical officer shall be a member of the Government service, and shall in all cases possess such qualifications as may be declared to be necessary for such an appointment.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1753L.S.-G.—The 29th March 1897.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Champaran to be the Chairman of the Champaran District Board, with effect from the 8th January 1897.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

Dinajpur Collectorate, the 3rd March 1897. F. W. DUKE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Puri will be put up to sale at the Puri Collectorate on the 28th of April 1897, corresponding with 17th Bysack 1304 Umli :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

COMMISSARIAT NOTICE No. 83.

SEALED tenders for the supply to the Bombay Command Commissariat of Indian manufactured rum for one and three years, from 1st April 1897, will be received by the—

Commissariat Store-keeper-General, Bombay,
Ditto ditto, Madras,
Commissariat Store and Shipping Officer, Calcutta,
Ditto Officer, Lahore,

(hereinafter referred to as the Commissariat Officer) up to noon on the 5th April 1897, and then and there opened in the presence of all parties who may choose to attend. Particulars of the quantities and the stations where required are given in the tender form.

2. No tenders will be received except on forms obtainable from the above officers, which, as well as any information required regarding the contract, will be given on application to the above Commissariat Officers up to 4 o'clock P M. on the 1st April 1897. Any addition or alteration made in the tender forms will make them liable to rejection.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4. Covers to be superscribed "Tender for the supply of Rum of Indian Manufacture."

5. The tender may be in part or for the whole requirement under any of the schedules appertaining to the contracts, but the term of contract must be as noted above and the rate an average for the whole period. Government shall have the power to accept a tender in whole or in part or to reject a tender without assigning any cause for so doing; but in the event of the tender being accepted in part only, and the tenderer failing to take up the contract, the whole earnest-money deposited will be confiscated.

6. Each tender must be accompanied with earnest money in Government Promissory Notes or Bank of Bengal, Madras or Bombay or Treasury receipt* or Provincial or Municipal Debenture or Port Trust Bond for Rs. 110 for one year's contract and Rs. 210 for three years' contract. Tenders without earnest-money will not be attended to

* The receipt may be for currency notes or cash.

7. Earnest-money will be confiscated if the tenderer withdraws from his tender. Acceptance or rejection of the most favourable tenders will be notified to the tenderers concerned on or about the 1st June 1897, at latest.

S. A. DOUGLAS, *Head Asst. for Commissariat Store and Shipping Officer.*

Notification.

Price Rs. 20 for 1895-96 Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.G.S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs. 6: postage, 3 annas.*

Copies are to be had at the Office of the Director of Public Instruction.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series *including postage*, Rs. 22-8.

Obtainable at the Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Catalogue of Books procurable from Thomason College Book Depôt.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depôt at Rs. 62 per box. Drawing Instruments, drawing materials, &c., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 4th March, 1897, and, having been assented to by His Excellency the Viceroy and Governor-General on the 20th idem, is hereby published for general information :—

An Act to amend the Public Demands Recovery Act, 1895.

CONTENTS.

SECTION.

1. Commencement.
2. Meaning of "section" and "schedule."
3. Repeal of part of sections 2, 16, 23 and 33 of Bengal Act I, 1895, and part of Form No. 2 in the Schedule thereto.
4. Amendment of section 4.
5. Amendment of sections 6 (*2*) and 15.
6. Amendment of section 7.
7. Amendment of section 8.
8. Amendment of section 9.
9. Amendment of section 14.
10. Amendment of section 17.
11. Amendment of sections 18, 22, 29, 30 and 32, and further amendment of section 33.
12. Amendment of sections 19, 20 and 21.
13. Further amendment of section 22.
14. Further amendment of section 23.
15. Amendment of section 26.
16. Amendment of section 27.
17. Further amendment of Form No. 2 in the Schedule.

ACT No. I OF 1897.

An Act to amend the Public Demands Recovery Act, 1895. Ben. I of 1895.

WHEREAS it is expedient to amend the Public Demands Recovery Act, 1895; It is hereby enacted as follows:—

Commencement.

1. This Act shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor-General.

Meaning of "section" and "schedule."

2. In this Act, unless there is something repugnant in the context, "section" and "schedule" mean respectively a section of, and the schedule annexed to, the said Public Demands Recovery Act, 1895.

Repeal of part of sections 2, 16, 23 and 33 of Ben. Act. 1, 1895, and part of Form No. 2 in the Schedule thereto.

3. The following words are hereby repealed, namely:—

(*1*) in section 2, the word "being;"

(*2*) in section 16, the words "section thirteen or;"

(*3*) in section 23, sub-section (*1*), the words "under the provisions of section twenty;"

(*4*) in section 33, the words "Assistant Commissioner," where they occur before the words "or Certificate Officer;"

(*5*) in the heading to Form No. 2 in the Schedule, the words "Arrears of."

Amendment of section 4.

4. In clause (3) of section 4, for the words "Municipal Committee" the words "body of Municipal Commissioners" shall be substituted.

Amendment of sections 6 (*2*) and 15.

5. In sub-section (*2*) of section 6, and in section 15, for the word "nineteen," in each place in which it occurs, the figures "32" shall be, and be deemed to have always been, substituted.

Amendment of section 7.

6. For section 7 the following shall be, and be deemed to have always been, substituted, namely:—

"7. (*1*) When any of the following public demands are unpaid by the person liable to pay the same, that is to say,— Power to make a certificate in Form No. 2.

(*a*) any sum of money which by any law for the time being in force is declared to be recoverable or realizable as an arrear of revenue or land-revenue, or by the process prescribed for the recovery of arrears of revenue or of the public or Government revenue;

(*b*) any sum of money due from the sureties of a farmer in respect of the revenue of the estate farmed by him;

(*c*) any fees or costs awarded by a Revenue Authority under any law or any rule having the force of law;

(*d*) any money which is recoverable under section 9 of Bengal Act VIII of 1862 (*an Act to improve the system of Zamindari Dâks in the Provinces subject to the Government of Bengal*) or section 36 of

Recovery of Public Demands.

(*Section 6.*)

Ben. VII of 1878.

the Bengal Excise Act, 1878, or which is declared in any enactment now in force—

(*i*) to be a demand or a public demand, or

(*ii*) to be recoverable as arrears of a demand or public demand, or as a demand or public demand, or

(*iii*) to be recoverable under Bengal Act VII of 1868 (*an Act to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*);

(*e*) any sum awarded as compensation under section 2 of the said Bengal Act VII of 1868;

(*f*) in the case of a person to whom the collection of tolls has been farmed under section 8 of the Canals Act, 1864, or of the sureties of such person—any sum of money due in respect of such farm;

Ben. V of 1864.

(*g*) any arrears of revenue or rent payable to the Secretary of State for India in Council from any raiyat or from any person holding any interest in land, pasturage, forest rights, fisheries and the like, whether such interest is or is not transferable;

(*h*) in the case of property which, under the provisions of any law for the time being in force, is under the charge of, or is managed by, the Court of Wards or the Revenue Authorities on behalf of a private individual—any arrears of rent or of other demands recoverable as rent, whether such arrears became due before or after the management devolved upon such Court or such Authorities:

Provided that this clause shall not apply to any arrears of rent at an enhanced rate, unless such enhanced rate has been agreed to by the person liable to pay the same or has been confirmed by a competent Court;

(*i*) any sum payable to a Government Officer or any Local Authority in respect of which the person liable to pay the same has agreed, by a written instrument duly registered, that it shall be recoverable under the provisions of this Act,

the Certificate Officer may make under his hand, and in Form No. 2 in the Schedule hereto annexed, a certificate of the amount of such public demand so remaining unpaid, including such interest thereon as may by any law for the time being in force be chargeable, and may cause the same to be filed in his office:

Provided that no such certificate shall be made in respect of any such demand the recovery of which is barred by any law of limitation for the time being in force.

(2) A certificate for a public demand referred to in clause (*h*) of this section shall not

Recovery of Public Demands.

(*Sections 7-9.*)

cease to be in force by reason of the release of the estate from the charge of the Court of Wards or the Revenue Authorities."

Amendment of section 8.

7. For the second sentence of section 8 the following shall be, and be deemed to have always been, substituted, namely:—

"In the cases specified in clauses (*a*) to (*g*), both inclusive, of the said section, and in the case of the Government Officer specified in clause (*i*) of the said section, the Secretary of State for India in Council shall be deemed to be the decree-holder; in the case specified in clause (*h*) of the said section, the private individual therein mentioned, or, if such private individual be a minor, lunatic or ward of Court, then such minor, lunatic or ward of Court by his next friend, shall be deemed to be the decree-holder; and, in the case of the Local Authority specified in clause (*i*) of the said section, the said Local Authority shall be deemed to be the decree-holder. And in all the cases specified in the said section the person named in the certificate as debtor shall be deemed to be the judgment-debtor."

Amendment of section 9.

8. (*1*) For sub-section (*1*) of section 9 the following shall be, and be deemed to have always been, substituted, namely:—

"(*1*) When any of the public demands specified in section 7 is unpaid by any person liable to pay such public demand to a Government Officer other than a District Collector, or to a Local Authority, or when any such demand as is specified in clause (*h*) of the said section is unpaid by any person liable to pay the same to the Court of Wards or a Revenue Authority, then—

Requisition for certificate in Form No. 2.

(*a*) the said Government Officer or Local Authority, or

(*b*) the manager appointed by the Court of Wards, or

(*c*) the said Revenue Authority, or the manager (if any) appointed by such Authority,

as the case may be, may make to the Certificate Officer a requisition in writing in Form No. 3 in the Schedule hereto annexed."

(*2*) In sub-section (*2*) of the said section the word "Authority" shall be, and be deemed to have always been, inserted after the word "Officer," and the words "of every such requisition, except when made by a Government Officer under clause (*a*) of sub-section (*1*) of this section" shall be substituted for the word "thereof."

(*3*) In sub-section (*3*) of the said section the word "demand" shall be, and be deemed to have always been, substituted for the word "arrears."

Amendment of section 14.

9. For section 14 the following shall be substituted, namely:—

"14. (*1*) The Certificate Officer shall have full power to direct that the costs, or any part of the costs, of any such petition and of the hearing thereof shall be paid by the petitioner, or, if his

Costs of petition.

finding is in favour of the petitioner, then by the Secretary of State for India in Council or the person or Local Authority on whose requisition or on whose behalf the certificate was made, as the case may be.

(*2*) In any case in which a Certificate Officer directs the payment of costs as aforesaid by a petitioner, the amount thereof shall be added to the amount entered in the certificate, and shall be recoverable as if the same had been originally entered in the certificate.

(*3*) In any case in which a Certificate Officer directs the payment of costs as aforesaid by a person or Local Authority on whose requisition or on whose behalf the certificate was made, the amount thereof shall be recoverable in the same way as public demands specified in section 7, clause (*d*)."

Amendment of section 17.

10. In section 17, clause (*c*), the words "any law or any rule having the force of law" shall be substituted for the words "any Regulation or Act for the time being in force," and the words "law or rule" shall be substituted for the words "Regulation or Act."

Amendment of sections 18, 22, 29, 30 and 32, and further amendment of section 33.

11. (*1*) In sections 18, 22, 32 and 33 the words "or Deputy Collector" shall be substituted for the words "Deputy Collector or Assistant Commissioner" wherever they occur.

(*2*) In section 29 the words "and Deputy Collector" shall be substituted for the words "Deputy Collector and Assistant Commissioner."

(*3*) In section 30 the words "and Deputy Collectors" shall be substituted for the words "Deputy Collectors and Assistant Commissioners."

Amendment of sections 9, 20 and 21.

12. For sections 19, 20 and 21 the following shall be substituted, namely :—

"19 (*1*). Every certificate made under sections 5, 7 or 9 may be enforced and executed, with interest at the rate of six per centum per annum from the date of the certificate being filed up to the date of realization, and costs, upon the expiry of one month from service of the notice mentioned in section 10, or, when any such petition as is mentioned in section 12 has been filed, then as soon as such petition has been heard and determined.

Enforcement of certificate.

(*2*) Such certificates may be enforced and executed in the manner provided by Chapter XIX of the Code of Civil Procedure for the enforcement of decrees for money; and all the provisions of that Chapter, except section 310A thereof, and of Chapter XX of the said Code, shall apply, so far as they are applicable.

XIV of 1882.

"20. Any sale of immoveable property made in the course of enforcing any such certificate may be set aside in accordance with the provisions of sections 311 and 313 of the said Code of Civil Procedure.

Power to set aside sale of immoveable property on ground of irregularity or on ground of judgment-debtor having no saleable interest.

"21. (*1*) The judgment-debtor, or any person claiming through him, may, at any time within thirty days from the date on which

Power to set aside sale of immoveable property on deposit of amount due, &c.

Recovery of Public Demands.

(*Sections 13-17.*)

any immoveable property is sold in execution of a certificate, apply to the Certificate Officer to set aside the sale on his depositing—

(*a*) the amount stated in the certificate, together with costs, and with the interest thereon at the rate of twelve per centum per annum, calculated from the date when the certificate was filed up to the date when the deposit is made;

(*b*) as penalty, a sum equal to one-tenth of the auction price, but not less than one rupee; and

(*c*) such outstanding charges due to the Government under any law for the time being in force in respect of the property sold as the District Collector certifies to be payable by the judgment-debtor.

If such a deposit is made within the said thirty days, the Certificate Officer shall pass an order setting aside the sale:

Provided that, if a person applies that the sale of his immoveable property be set aside in accordance with the provisions of section 311 of the Code of Civil Procedure, he shall not be entitled to make an application under this section. XIV of 1882.

(*2*) In the event of a sale being set aside by an order of the Certificate Officer under this section, any money paid or deposited by the purchaser on account of the purchase, together with the penalty specified in clause (*b*), shall be paid to the purchaser by the Certificate Officer.

(*3*) Any order made by the Certificate Officer under this section shall be final."

Further amendment of section 22.

13. In section 22 the words and figures "any certificate made under sections 5, 7 or 9" shall be substituted for the words "such certificate."

Further amendment of section 23.

14. In section 23, sub-section (3), the figures "21" shall be substituted for the word "nineteen."

Amendment of section 26.

15. In section "26," the word "and" shall be inserted before the words "in the register."

Amendment of section 27.

16. In section 27 the words "Local Authority, manager or Revenue Authority" shall be, and be deemed to have always been, substituted for the words "other than a Certificate Officer, or from a manager appointed by the Court of Wards," and the words "District Collector, Certificate Officer, Government Officer, Local Authority, manager or Revenue Authority" shall be, and be deemed to have always been, substituted for the words "other District Collector or Officer or manager."

Further amendment of Form No. 2 in the Schedule.

17. In Form No. 2 in the schedule, for the words "Government Officer [or Manager and of what estate] to whom due" the words "name of Authority or person who is to be deemed to be the decree-holder" shall be, and be deemed to have always been, substituted; and the words "*or, as the case may be*" shall be, and be deemed to have always been, inserted after the letters "C. D."

CALCUTTA;
The 29th March, 1897.

WEDNESDAY, MARCH 31, 1897.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

BILL FOR THE SUPPRESSION OF RAIN-GAMBLING.

THE following Report of the Select Committee, together with the Bill as amended by them, is, by order of the President, published for general information:—

REPORT OF THE SELECT COMMITTEE.

We, the Members of the Select Committee appointed to consider the Bill for the suppression of rain-gambling, have the honour to submit the following report:—

1. We think it desirable to give some indication of what is meant by the expression "rain-gambling," and have accordingly inserted the words "that is to say, wagering on the occurrence or non-occurrence of rain."

2. We have, following the precedent of the Bombay Act of 1890, added to the definition of "instruments of gaming" the words "and anything used as a means of rain-gambling." This addition will make it clear that clocks and water-spouts are included in the definition.

3. We recommend that the Bill as amended be passed.

C. W. BOLTON.
C. A. WILKINS.
SURENDRANATH BANERJEE.
MAHOMED BAKHTYAR SHAH.

WHILE I approve of the provisions of the present Bill, I think certain other amendments, which were suggested by me and the Hon'ble Babu Guru Proshad Sen, should be made on the present occasion. I reserve my right to submit my suggestions to the Council when this report is presented.

M. S. DAS.

I feel constrained to write a dissenting Minute to the Report of the other Members of the Select Committee regarding this Bill, for the following reasons :—

Though I am opposed to gambling in any form, and would be only too glad if by legislation or otherwise it were possible to put a stop to it, I cannot approve of the Bill in its present form.

In the first place I believe that the measure will not prove of any practical use or benefit. It is expressly directed only against that form of wagering known as rain-gambling, and in this respect is more limited in its intended scope than the Bombay Act (referred to in the Objects and Reasons which accompanied the Bill), which, by defining "gaming" as including "wagering," purports to include any form of wagering whatsoever. For instance, though the proposed measure might suppress public rain-gambling, I am doubtful if it would meet the case of wagering, say, on the rise and fall of the temperature, or any other form of wagering which a class of people, bent on betting upon some common contingency, would be sure to devise.

I am further of opinion that if the present Bill is passed into law, this and other Legislatures might be confronted with difficulties in the future, if urged by those whose belief in the possibility of moral reform by Statute (which is, to say the least, considerably in advance of both responsible and public opinion) to push the principles involved in this Bill to what they would call a logical conclusion, by extending repressive legislation in the matter of wagering to other forms of the practice, the conditions of which are admitted to be such as to render it practically impossible, and certainly undesirable, to interfere with by legislation.

A. H. WALLIS.

The 26th March, 1897.

NOTE.—The amendments made by the Select Committee are, as far as possible, printed in italics.

A

BILL

For the suppression of Rain-gambling.

WHEREAS it is expedient to amend the law in force in Bengal so as to secure the suppression of the practice of rain-gambling ;

It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Bengal Rain-gambling Act, 1897 ; and

(*2*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor-General.

(*3*) Section 4 shall further be deemed to be in force on and from the said day in every city, town or place to which Bengal Act II of 1867 (*An Act to provide for the punishment of public gambling and the keeping of common gaming-houses in the territories subject to the Lieutenant-Governor of Bengal*), or any part thereof, has before that day been extended by notification under its second section.

Amendment of Bengal Act IV, 1866, section 3.

2. (*1*) To the definition of "common gaming-house" in section 3 of the Calcutta Police Act, 1866, the following shall be added, namely :— "or in which rain-gambling, *that is to say, wagering on the occurrence or non-occurrence of rain*, is carried on for the profit or gain of any such person as aforesaid." Ben. IV of 1866.

(*2*) After the said definition the following shall be inserted, namely :—

"'gaming' shall include rain-gambling;

'instruments of gaming' shall include books or registers in which rain-gambling wagers are entered, all *other* documents containing evidence of such wagers, *and anything used as a means of rain-gambling.*"

Cf. Bombay Act I, 1890.

Amendment of Act XXI, 1857, section 59.

3. To section 59 of Act XXI of 1857 (*An Act to make better provision for the order and good government of the station of Howrah*) the following shall be added, namely:—

"'common gaming-house' shall include any house, tent, room, space or walled enclosure in which rain-gambling, *that is to say, wagering on the occurrence or non-occurrence of rain*, is carried on for the profit or gain of the person owning, occupying, using or keeping such house, tent, room, space or enclosure;

'gaming' shall include rain-gambling; and

'instruments of gaming' shall include books or registers in which rain-gambling wagers are entered, all *other* documents containing evidence of such wagers, *and anything used as a means of rain-gambling.*"

Amendment of Bengal Act II, 1867, section 1.

4. (*1*) To the definition of "common gaming-house" in section 1 of Bengal Act II of 1867 (*An Act to provide for the punishment of public gambling and the keeping of common gaming-houses in the territories subject to the Lieutenant-Governor of Bengal*) the following shall be added, namely:—

"or in which rain-gambling, *that is to say, wagering on the occurrence or non-occurrence of rain*, is carried on for the profit or gain of any such person as aforesaid."

(*2*) After the said definition the following shall be inserted, namely:—

"'gaming' shall include rain-gambling;

'instruments of gaming' shall include books or registers in which rain-gambling wagers are entered, all *other* documents containing evidence of such wagers, *and anything used as a means of rain-gambling.*"

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 26th March, 1897, and is hereby promulgated for general information :—

ACT No. XII OF 1897.

An Act to enable local authorities to borrow money for temporary emergencies.

WHEREAS it is expedient to enable local authorities to borrow money for temporary emergencies; It is hereby enacted as follows :—

1. (*1*) This Act may be called the Local Authorities (Emergency) Loans Act, 1897.

Short title, extent and commencement.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force at once.

2. (*1*) Notwithstanding anything contained in the Local Authorities Loan Act, 1879, or in any other law for the time being in force, a local authority as defined in that Act may, with the previous sanction of the Governor General in Council, borrow money on the security of its funds for any of the following purposes, namely :—

XI of 1879.

Power to local authorities to borrow in cases of famine or epidemic disease.

(*a*) the giving of relief and the establishment and maintenance of relief-works in time of famine or scarcity;

(*b*) the prevention of the outbreak or spread of any dangerous epidemic disease; and

(*c*) any measures which may be connected with, or ancillary to, any of the purposes aforesaid.

(*2*) Nothing in this section shall be deemed to authorize any local authority to borrow or spend money for any purpose for which under the law for the time being in force it is not authorized to apply its funds.

3. (*1*) Every loan under the last foregoing section shall be made subject to such terms and conditions as the Governor General in Council may think fit to impose.

Power to Governor General in Council to impose conditions.

(*2*) In particular, and without prejudice to the generality of the provisions of sub-section (*1*), the Governor General in Council may, by general or special order, prescribe—

(*a*) the terms on which the Governor General in Council or the Local Government may lend money under this Act;

(*b*) the manner of recording and enforcing the conditions on which such loans are to be made;

(*c*) the inspection of any works carried out or expenditure incurred by means of such loans;

(*d*) the instalments by which such loans are to be repaid, the interest to be charged thereon and the manner and time of repaying such loans and of paying the interest thereon; and

(*e*) the accounts to be kept in respect of such loans.

4. The provisions of sections 6 and 7 of the Local Authorities Loan Act, 1879, shall apply to the borrowing of money under this Act.

Application of sections 6 and 7, Act XI, 1879.

XI of 1879.

5. The provisions of this Act shall apply to any loan made after the first day of January, 1897, and before the commencement of this Act by, or with the sanction of, the Governor General in Council to any local authority for any of the purposes hereinbefore mentioned, and every such loan shall be deemed to have been made under this Act.

Application to loans made before commencement of Act.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 26th March 1897, and is hereby promulgated for general information :—

ACT NO. XIII OF 1897.

An Act to amend the Indian Stamp Act, 1879.

WHEREAS it is expedient to amend the Indian Stamp Act, 1879; It is hereby enacted as follows :— of 1879.

1. After section 7A of the Indian Stamp Act, 1879, as amended by Act No. VI of 1894, section 2, the following section shall be added, namely :— of 1879.

Addition of new section after section 7A, Act I, 1879.

"7B. (1) Notwithstanding anything in this Act, any local authority raising a loan under the provisions of the Local Authorities Loan Act, 1879, or of any other law for the time being in force, by the issue of bonds, debentures or other certificates, shall, in respect of such loan, be chargeable with a duty of eight annas per centum on the total amount of the bonds, debentures or other certificates issued by it, and such bonds, debentures or other certificates need not be stamped and shall not be chargeable with any further duty on renewal, consolidation, subdivision or otherwise. XI of 1879.

Bonds, debentures or other certificates issued on loans under Act XI, 1879.

"(2) The provisions of sub-section (1) exempting certain bonds, debentures or other certificates from being stamped and from being chargeable with certain further duty shall apply to the bonds, debentures or other certificates of all outstanding loans of the kind mentioned therein, and all such bonds, debentures or other certificates shall be valid, whether the same are stamped or not :

"Provided that nothing herein contained shall exempt the local authority which has issued such bonds, debentures or other certificates from the duty chargeable in respect thereof prior to the twenty-sixth day of March, 1897, when such duty has not already been paid or remitted by order issued under this Act."

2. In Schedule I, No. 39, of the said Act, after the heading "Lease" in the first column, the words "including an under-lease or sub-lease" shall be added.

Amendment of No. 39 in Schedule I, Act I of 1879.

3. In Schedule I, No. 60, of the said Act, the word "Lease" wherever it occurs, is hereby repealed ; and after the said No. 60 the following shall be added, namely :—

Amendment of No. 60 and addition of new No. 60A in Schedule I, Act I of 1879.

"60A. **TRANSFER OF LEASE** by way of assignment and not by way of under-lease.	The same duty as a Conveyance (No. 21).

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 26th March, 1897.—

No. 8 of 1897.

A Bill to amend Act XX of 1863 (an Act to enable the Government to divest itself of the management of Religious Endowments).

WHEREAS it is expedient to amend Act XX of 1863, relating to the administration of Religious and Charitable Institutions and Endowments of a public character in British India; It is hereby enacted as follows —

Short title, extent, application and commencement.

1. (1) This Act may be called the Religious Endowments Amendment Act, 1898.

(2) It extends to the whole of British India and applies to all non-Christian Religions and Charitable Institutions and Endowments of a public character the annual income of which does not fall below two hundred and fifty rupees, and

(3) It shall come into force on the first day of January, 1898.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "Religious and Charitable Institutions" include all temples, mosques, pagodas, shrines and charitable institutions by whatever local designation known, and all property endowed or purchased, and all offerings of pilgrims connected therewith, whether applied to religious or charitable or other purposes, which are not the personal property of, and offerings to, any individual:

(2) "trustee" includes all persons, by whatever local designation such persons may be known, who have charge or management of any institution, or the property of any institution, in trust: and

(3) "Civil Court" means the Court of the District Judge in the district in which the institution is situated.

Formation of electorates.

3. (A) In every District where a Committee such as is contemplated by Act XX of 1863 has been constituted, such Committee shall, within a month of the passing of this Act, prepare a register, and publish in all public offices and institutions a list of the leading persons of each religion or sect which has any institution in the district, including the principal landholders, pandits, moulvies and priests, and all such men of respectability and position as in the opinion of the Committee ought to be included in this list. (B) Provided that, where no such committee has been constituted, the Civil Court of every District shall, within a month of the passing of this Act, nominate three persons of each religion or sect to form a Committee to prepare and publish the aforesaid list.

The persons of each religion or sect included in this list shall be "the district electorate" of that religion or sect in that District for the purposes of this Act. But the said Committee

shall include or eliminate the name of any person who, in the opinion of two-thirds of the persons in the lists so prepared, may be recommended or objected to.

Formation of District Committee.

4. The said Committee shall call upon each electorate to meet at a time and place to be fixed by it, and duly notified in all public offices and institutions, and elect by a majority of votes, not less than three, and not more than five, members to form "the District Committee" for the control of the endowments of that religion or sect in that District.

Formation of Central Committee.

5. Each District Committee of any Province within a month of its election shall elect a voting Delegate. Such voting Delegates shall meet at a time and place jointly agreed upon and shall elect by a majority of votes not more than five members, and the members so elected shall form "the Central Committee" of that religion or sect with head-quarters at any place that the said Committee by a majority of votes may elect for the purpose.

Default of electorate.

6. In case the district electorate or the District Committee fail to make the elections required by sections 4 and 5, the Civil Court of each defaulting district and the High Court of the Province shall nominate the members of the District and Central Committees respectively.

Tenure of office of members of Committees.

7. The District Committee and the Central Committee shall hold office for three years, but will continue in office until relieved by their respective successors, and their members will be eligible for re-election. The said Committees shall elect their own chairman and decide all matters by a majority of votes, each member having one vote and the chairman having a casting vote.

Powers of Central Committee.

8. As soon as the first Central Committee shall have been formed, the powers hereby conferred on the Committees referred to in clauses A and B of section 3 shall thenceforward vest in such Committee and its successors.

Removal of members of Committees.

9. Any member of the District or Central Committee, who shall be found guilty of misconduct or any conduct which make him unfit for his place, shall be liable to be removed by the unanimous vote of the remaining members.

Provision for vacancies on Committees.

10. Any vacancy caused by death, resignation or removal of any member shall be filled up according to the provisions of the aforesaid sections 4 and 5 The member or members so elected shall hold office only for the unexpired portion of the Committee's tenure of office. The District and Central Committee, on the expiration of the tenure of their office, shall also be elected in the same manner.

Revision of lists of electorates.

11. Each Central Committee shall, in the first quarter of the last year of its tenure of office, either confirm or reverse the lists of District electorate, and shall in the last quarter of the same year cause the District Committees and District electorates to make their respective elections under sections 4 and 5 : Provided that, in case such District Committees or District electorates fail to act, the High Court of the Province and the Civil Court of the District shall respectively exercise powers conferred under this section.

Powers of District Committee.

12. The District Committee of each religion or sect shall have absolute control, not inconsistent with their maintenance, over the institutions belonging to that religion or sect, including the appointment of the trustees, according to the custom prevailing in each institution, as vacancies shall occur after the passing of this Act, but shall not have the power of dismissal of trustees for misconduct, disobedience of orders issued by the District or Central Committee or dereliction of duty assigned to them except as hereinafter provided.

Duties of District Committee.

13. The District Committee shall keep a register of the institutions in its charge, with properties appertaining to them, and the trustee shall submit, within a time to be fixed by the District Committee, a list of all such properties. The trustees shall prepare a budget of receipts and disbursements including their rateable share of costs of necessary establishment of the District and Central Committees in March every year for each shrine, and shall likewise submit monthly or quarterly accounts. All these shall be kept and submitted in the forms prescribed by the Central Committee in consultation with the District Committee.

Revision of budget.

14. The District Committee may, by a majority of votes, revise the budget as they see fit, subject to confirmation or revision by the Central Committee.

Custody of property.

15. The property and the proceeds of every institution shall remain in such custody as at the commencement of this Act, subject to such provisions as the District Committee shall, with the sanction of the Central Committee, prescribe for their safety.

Appeal to Central Committee.

16. The orders of the District Committee shall be appealable to the Central Committee, whose decision shall be final.

Power of Central Committee to make inquiry.

17. In addition to the powers conferred by section 13 of Act XX of 1863, the Central Committees of each religion or sect shall have power to call for explanation from the trustees subject to their control and to hold enquiries into the management and the conduct of such trustees. The Civil Court within whose jurisdiction such enquiries are held shall, on the application of the Chairmen of such Central Committees, issue the necessary processes for production of documents and the appearance of witnesses at such enquiries.

The District and Central Committee shall have power to take evidence on oath in any inquiry before them, and their members, individually and collectively, as well as the trustees, of any institution or property aforesaid shall be public servants within the meaning of the Indian Penal Code. XLV of 1860

Rules and bye-laws.

18. The Central Committee of each religion or sect in consultation with the District Committee of that religion or sect shall have power to frame necessary bye-laws and rules for the election of the members of the said Central and District Committees, and for the proper management of the institutions and properties within their respective jurisdiction, and for the due discharge of their duties by the aforesaid trustees. These bye-laws and rules and the annual report of the administration of the institutions and properties in their respective jurisdiction shall be published in each provincial Gazette not later than the middle of June of every year.

Expenses of Committees.

19. The District Committee shall be entitled to maintain an office and an establishment ordinarily costing not more than fifty rupees per mensem, and the Central Committee not more than one hundred rupees per mensem, exclusive of other incidental charges, such as the cost of auditing of accounts, or the travelling expenses of any member deputed to inspect any institution, or make local enquiry whenever necessary. These items of expenditure shall, as far as practicable, be rateably apportioned among the several shrines of the districts or recovered from the particular shrine to which they relate, and shall be included in the budgets and the accounts of the shrines or shrine in question, respectively.

Amendment of section 18, Act XX, 1863.

20. In section 18 of Act XX of 1863, after the words "no suit" and before the words "shall be entertained" the following words shall be inserted, *viz.*, "except when such suit is brought by any Central Committee of any religion or sect constituted under this Act."

STATEMENT OF OBJECTS AND REASONS.

1. The object of the Bill is to remove certain defects in the management of Religious and Charitable Endowments under the law as it stands at present.

2. The Bill proposes to leave the existing trustees where they are. It allows their successors to come in, in accordance with the usage in vogue in each institution in that behalf. It leaves untouched all the trust property and income in the very hands which now hold them. It leaves them to carry on the customary expenses as hitherto, but only subject to budgeting previously and subject also to providing for possible contingencies which might arise for revision of such budget—a revision which no Committee would be found to make repeatedly or largely in the face of long-standing usage.

3. As regards the cost of the controlling agency, advantage is taken of the widespread ambition and readiness to render *unpaid* service in public interests, and each endowment is laid under a contribution, which is the veriest minimum that can be imagined as needed for maintaining a fairly efficient subordinate official staff.

4. As to the *constitution* of the controlling machinery, the Bill provides for two sets of Committees for each religion or sect. It makes the District Committees exercise *direct* supervision over the trustees, and the higher or Central Committees, as they are called, to exercise *general* supervision and act as an appellate tribunal to correct mistakes and remedy the effects of likes and dislikes on the part of the District Committees.

5. The Committees are formed on the basis of election by the better class of worshippers of each religion or sect. An electorate formed by such classes should, it is thought, suffice for all practical purposes.

6. The members of the Committees would hold office *for a term of years* and *not for life* as now.

7. The Bill proposes to abolish the distinction which the present law makes between the endowments which had been under the direct control of the Government at one time and those that had not been so, malversation of the one class being as culpable as of the other.

8. It is proposed to enlarge the powers of the Central Committees relative to holding enquiries into the conduct of trustees, and dispense with the necessity on their part to obtain prior sanction to sue which the present law enjoins; while the trustees will continue to enjoy the present safety against harassment by any action of Committees by being liable to dismissal only by means of the decree of a Civil Court.

P. ANANDA CHARLU.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MARCH 31, 1897.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 62.

[First Publication.]

CHINA SEA—SHANGHAI DISTRICT.

Southern entrance to the Yangtze.

THE Coast Inspector, Imperial Maritime Customs, Shanghai, has given notice (No. 65 (Special) of 1897) that a survey of a section of the southern entrance to the Yangtze, about 25 miles in length and extending from abreast of the Tuplets to within two miles of the Tungsha lightship, which was completed on the 15th December 1896, shows that the deepest and safest channel for vessels is now to the north-eastward of the Kiutoan lightship instead of to the south-westward of her, as formerly.

Directions.

To make the best direct courses: pass two cables to the south-westward of the Tungsha lightship and then bring her to bear about S. 51½° E. true, and keep her so until the Kiutoan lightship is sighted on the opposite bearing, continuing on the same course till the latter is about three miles distant, when House island beacon will bear N. E. Then keep a little to the north-eastward and pass the Kiutoan lightship at a distance of from 1 to 1½ cables; hauling to the westward so as to bring the lightship to bear about S. 63° E. true by the time she is one mile distant, and keeping her on that bearing till she is 6 miles distant, when the vessel will be a little to the north-eastward of mid-channel, with the Kiutoan small beacon bearing about W. by S. ½ S., from which position to the Woosung outer bar the present British Admiralty Chart No. 1602 may be followed.

The least depths of water, at low water of spring tides, found on the track above indicated were 21 feet at 2½ miles inside the Tungsha lightship, then from 22 to 28 feet till abreast of House island beacon, decreasing to 18 feet in the vicinity of the Kiutoan lightship, where a bar, 2 miles in width between the 18 feet contours, has been formed by the junction of the former Middle ground with Blockhouse shoal. After passing this bar, the water gradually deepens to 5 fathoms at 4 miles inside the Kiutoan lightship.

Caution.

The Kiutoan lightship has sustained numerous collisions through vessels, most of them steamers, undertaking to cross her bow without making due allowance for the strength of the tide; and those on board of her complain that their lives are frequently imperilled through steamers passing dangerously near, when there is nothing to prevent them keeping a safe distance from the lightship.

The warning given in Notice to Mariners No. 55 (Special) that vessels should not pass between the Tungsha lightship and the south-east spit is repeated. This locality has not yet been re-surveyed, but a shoal patch has been found there with a depth of only 6 feet over it at low water, where the latest chart shows 3¼ fathoms.

Aids to Navigation.

The positions of the two lightships and of the Middle ground lower and south-east knoll buoys remain unchanged.

The Middle ground Upper buoy will shortly be removed and a conical red buoy surmounted by a black invented frustrum cage, to be known as the Blockhouse shoal buoy, will be moved on the edge of the shoal between the south-east knoll buoy and the Kintoan lightship.

[First Publication.]

CHINA SEA—SHANGHAI DISTRICT.

North channel entrance to the Yangtze.

THE Coast Inspector, Imperial Maritime Customs, Shanghai, has given notice (No. 66 (Special) of 1897) that systematic sweeping operations having been carried on in the North or Shaweishan channel for a period of four months, this entrance to the Yangtze is now considered free of all artificial obstructions to navigation, and the following mentioned buoys have been laid down to mark the channel:—

Drinkwater Point buoy:—A conical 10 foot, red and black, horizontally striped fairway buoy, surmounted by a black spherical cage. From the buoy Shaweishan lighthouse bears No. 86° E., distant 12¼ miles.

Ch'i-Yao Bank buoy:—A conical, 6 foot, red buoy, with a black spherical cage, moored off the south-eastern elbow of Ch'i-Yao bank, to mark the starboard side of the channel entering from sea. From the buoy Drinkwater Point surveying beacon bears N., distant 2¼ miles.

Middle island buoy:—A conical, 6 foot, red and black horizontally striped fairway buoy, with a black inverted frustrum cage, moored in position to guide vessels clear of the bank, which lies to the northward of Middle and Blockhouse islands. From the buoy Middle island surveying beacon bears S. 34° W., distant 4 miles.

Tsung-ming bank buoy:—A conical, 6 foot, red buoy, with a black spherical cage, moored off the eastern end of Tsung-ming bank, to mark the starboard side of the channel entering. From the buoy Middle island surveying beacon bears S. 5¼° E., distant 3 miles.

Directions.

At the present time and with the buoys in the positions above described, a vessel may round the western end of Bush island at about 2 cables and steer to make an E. by N. ½ N. course till abreast of Tsung-ming bank buoy, after which she may steer to make direct courses from buoy to buoy, passing each according to its colouring. The narrowest part of the channel and the locality where it appears most liable to change is between the Tsung-ming bank and Bush and Middle islands and their outlying banks, where, for a length of 5 miles, it varies in width from ⅓ to ⅔ of a mile between the 18 feet contours.

All bearings are magnetic, and distances in nautical miles.

AUSTRALIA, St. Vincent Gulf—Port Adelaide river.

Alterations in light beacons and buoys.

The British Admiralty has given notice (No. 99 of 1897) that on 1st February 1897 the undermentioned alterations would be made in the lighting and buoyage of Port Adelaide river:—

1. Light beacons Nos. 1, 2, 3 and 4 would be discontinued.
   Approximate position, light beacon, No. 1, lat. 34° 50′ 20″ S., long. 138° 30′ 35″ E.
2. All buoys marking the channel would be withdrawn, with the exceptions of the two buoys south-westward of the lighthouse, the two buoys (black) eastward of the closed (Boat) channel, and the two mooring buoys (red), for vessels with explosives near the North arm.
3. The new light system consists of 5 pairs of leading *electric* lights and 8 single *electric* light beacons, numbered from seaward, the former No. 12 becoming No. 1.

The front light of each pair of leading light is *red* and the rear light *white*; with the exception of the first pair within the lighthouse, these remaining as before, front light *white*, rear light *red*; and continuing to mark, in conjunction with No. 2 light (previously No. 11), the direction of the Ocean Steam-vessel buoy and the *bell* buoy at the extremity of the Wonga shoal.

Lights Nos. 1, 10, 11, 12, 13 are pairs of leading lights, giving the direction of the channel past the lighthouse, and from Mutton cove to port Adelaide.

Lights Nos. 2 to 9 inclusive are single beacon lights, marking the edge of the channel between the closed channel and Mutton cove.

When the exact positions of the new lights are known, they will be placed upon the chart, and the present chart of port Adelaide, No. 1750, will then be cancelled.

Particulars of Taka Bakang (Teignmouth bank).

THE British Admiralty has given notice (No. 107 of 1897) of the undermentioned particulars of Taka Bakang, the result of a recent examination by the Netherlands Surveying vessel *Banda*:—

Taka Bakang (Teignmouth bank) of five-sided irregular shape, is about 2 miles in length north-west and south-east, and $1\frac{5}{10}$ miles in breath; it dries at low water, with the exception of part at the west end, and is steep-to, with soundings of upwards of 100 fathoms round its edge.

The dark coral, of which Taka Bakang is composed, renders it indistinguishable at high water, when it is completely covered.

Approximate position, east point of Taka Bakang, lat. 4° 58′ 10″ S., long. 118° 33′ 25″ E.

NOTICE TO MARINERS—No. 47.

[Third Publication.]

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide river—Beacons lighted by electricity.

In continuation of Notice to Mariners No. 15, dated 20th January 1897, issued by this office, the following further notice (No. 1 of 1897) by the President, Marine Board, Port Adelaide, is republished :—

Referring to Notice to Mariners (No. 6 of 1896) dated December 14th, 1896, notice is hereby given that on and after Monday, the 8th February 1897, the beacons in the Port Adelaide river will be lighted by electricity.

Consequent on the above the whole system of buoys and light beacons will be rearranged.

Light beacons Nos. 1, 2, 3, and 4 of the present system will be discontinued.

All buoys marking the channel will be removed on the 8th instant except the two outside of the light-house, two black buoys near the old boat channel, and two mooring buoys (for vessels with explosives) in Lipson Reach.

The new system consists of (5) five pairs of leading lights and (8) eight single light beacons.

The pairs of leading lights and single light beacons will be numbered from seaward, instead of in the opposite way, as at present, that is to say, No. 12 and the light behind it of the old system will be No. 1 of the new, and so on.

The near light of each lead will be red, and the far one white, except in the case of No. 1 lead, where the far light will be red, as at present, and the near one white; these two have not been altered, because the red light of No. 1 on with No. 2 is an established lead over the ocean steamers' mooring buoy, and the white light of No. 1 on with No. 2 leads over the bell buoy on Wonga shoal.

The two lights of No. 1 lead through the outer cutting near the light-house, as at present.

Nos. 2 to 9, inclusive, are single lights, and will mark the edge of the channel from opposite the old boat channel to Mutton Cove.

Nos. 10, 11, 12, and 13 are leads, *i.e.*, pairs.

No. 10 is placed on the shore abreast of the two mooring buoys for vessels with explosives, and leads from Mutton Cove half way up Lipson Reach.

No. 11 is placed near the Torpedo station, and leads up the other half of Lipson Reach to the North Arm.

No. 12 is placed on the Swamp south of the False Arm, and leads from the North Arm to the False Arm.

No. 13 is placed on Snowden Beach, and leads from the False Arm to Luff Point.

The following sailing directions are published for general information :—

By night.—In approaching the entrance to the river the lights of No. 1 lead should, as formerly, be brought in line on a N.E. by E. bearing and be kept in line, which will lead between the outer black and red buoys and through the outter cutting. After passing the reflecting beacon gradually alter the course so as to pass the white light of No. 1 lead at a reasonable distance.

From a safe distance off No. 1, steer for a like distance off No. 2, and so on from beacon to beacon round the point until No. 9 is reached. From a safe distance off No. 9 the lights of No. 10 lead will be seen. Keep them in line until the red light is about a quarter of a point open to the right of the white light of No. 11 lead, then gradually alter the course to bring the lights of No. 11 lead in line. Keep them in line (a sharp look-out being kept for the mooring buoys on the starboard hand) until the lights of No. 12 lead are seen coming into line. Proceed as before by altering the course before the lights are on with each other. The same applies in the change from No. 12 to 13 leads. When the lights on the wharves are seen opening out off Luff Point alter the course so as to round the point at a safe distance, and then up the centre of the channel, looking out for the mooring buoy on the starboard hand.

By day.—The directions by day are the same as by night, merely substituting the beacons for the lights.

In going outwards the directions are just the opposite to those given for coming inwards; but in such case in changing from one lead to another the course should be gradually altered when abreast of the low (red) beacon of each lead.

Note.—The beacons from Nos. 1 to 9, inclusive, are placed from 15 to 20 feet shorewards from the edge of the cutting.

A new chart of the Port Adelaide Harbour and river and the Semaphore anchorage, showing the alterations herein referred to as well as other corrections to January last, may now be obtained at the Marine Board Offices, price 2*s*.

This affects charts Nos. 2389 A and B, plan 1750.

AUSTRALIA—FITZROY RIVER.

Additional leading lights near Rocky Point.

WITH reference to Notice to Mariners No. 32, dated 23rd February 1897, issued by this office, the Portmaster, Brisbane, has given notice that the Notice to Mariners No. 1 of 1897 is amended to read as follows, viz. :—

A pair of small white leading lights has been placed on False Point (about 7 cables below Rocky Point), Fitzroy river, which in line bearing about S.E. by E. lead through the gut between the ledge of rock 2½ cables below Rocky Point and the south-west extreme of Egg Sand, with a depth of 11 feet at low-water springs.

The front light is 3½ feet and the back light 18 feet above high water, the distance between them being about 950 feet. After passing the ledge a vessel must leave the line of lights and proceed as hitherto.

Chart affected—No. 363; and Australia Directory, Volume II.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled for the purpose of making Laws and Regulations under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met at the Council Chamber on Saturday, the 20th March, 1897.

Present:

The Hon'ble SIR ALEXANDER MACKENZIE, K.C.S.I., Lieutenant-Governor of Bengal, *presiding.*
The Hon'ble SIR CHARLES PAUL, K.C.I.E., Advocate-General of Bengal.
The Hon'ble H. H. RISLEY, C.I.E.
The Hon'ble RAI DURGA GATI BANERJEA, BAHADUR, C.I.E.
The Hon'ble NAWAB SYUD AMEER HOSSEIN, C.I.E.
The Hon'ble M. FINUCANE.
The Hon'ble C. W. BOLTON.

The Hon'ble A. H. WALLIS.
The Hon'ble SAHIBZADA MAHOMED BAKHTYAR SHAH.

PROVINCIAL SERVICE.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

I have the honour to call attention to the fact that in the North-Western Provinces there are eight members of the Provincial Service, who hold substantively or officiate in posts which are ordinarily reserved for the Civil Service, India, listed as open to the Provincial Service. Is it the case that in Bengal there is only one member of the Provincial Service who holds an appointment ordinarily reserved for the Covenanted Service, viz., that of District Magistrate; and he, too, Mr. Batabyal, was originally a member of the Statutory Service, and has elected the Provincial Service? Having regard to the all-but-total exclusion of members of the Provincial Service from the posts listed as open to the members of that service, will the Government be pleased to take such steps as to the Government may seem fit, with a view to give effect to the recommendations of the Public Service Commission in that behalf?

The Hon'ble MR. BOLTON replied:—

"The Hon'ble Member asked a similar question on the 22nd July, 1893, which was answered by the Hon'ble Mr. Cotton It was then explained, and the explanation still applies, that the effect of the notification of this Government published in the *Calcutta Gazette* of the 5th April of that year, specifying the posts ordinarily reserved for the Civil Service of India to which Members of the Provincial Service can be properly appointed, was qualified by paragraph 6 of the Resolution of the Government of India, No. $\frac{9}{1312}$C. Rev., dated the 21st April 1892, which declared that until all the existing Statutory Civil Servants were provided for either by promotion or by amalgamation with the new Provincial Service, and until the prior claims of officers of the Civil Service of India and Commissions had been satisfied, the twenty posts thrown open to members of the Provincial Service could not be brought into the general cadre of that service. In filling up the vacancies which have since occurred those orders of the Government of India have been adhered to, and only one vacancy in the superior appointments has fallen to the Provincial Service, to which Mr. Batabyal was appointed. There are eleven Statutory Civilians, and the majority of them must still be provided with substantive superior appointments before the number of members of the Provincial Service in these posts can be increased.

"The Civil List of the North-Western Provinces and Oudh for the present quarter shows five and not eight members of the Provincial Service occupying posts ordinarily reserved for the Civil Service of India."

SOUTH SUBURBAN MUNICIPALITY.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

(*a*) With reference to the Government Notification published in the *Calcutta Gazette* of the 28th October last, regarding the sub-division of the present South Suburban Municipality, is the Government aware that such a sub-division is at variance with the boundaries, as set forth in the Resolution of the Commissioners of the aforesaid Municipality, dated the 4th February, 1896, upon which the Government has taken action, and which runs as follows:—

"That the municipality be divided into two parts following the Diamond Harbour Road, as the common boundary of the two municipalities."

(*b*) Is the Government aware that the Resolution has the approval of the Commissioner of the Division and of the Hon'ble Mr. Bolton when he was District Magistrate of the 24-Parganas?

(*c*) Is it not the case that under section 9 of the Bengal Municipal Act, the Government can only take action in any matter affecting the sub-division of a municipality on the recommendation of the Commissioners at a meeting, and is therefore *à fortiori* bound by the terms of the recommendation?

(*d*) Is it not the case that the sub-division, as proposed in the Government Notification, takes away from the South Suburban Municipality the richest and the most populous wards and the only dispensary situated in the Municipality?

(*e*) Is the Government aware that the sub-division of the municipality, as proposed by the Government, is strongly opposed to local feeling, and that the Commissioners and the rate-payers have submitted memorials against the proposed sub-division?

(*f*) Having regard to all these considerations, will the Government be pleased to re-consider the matter and issue a Notification in accordance with the terms of the recommendation of the Commissioners?

The Hon'ble MR. RISLEY replied:—

"The Lieutenant-Governor is advised that Government is not bound by the specification of boundaries annexed to the Resolution of the Commissioners, and can proceed to subdivide the Municipality in the manner that appears most likely to conduce to good administration. The subdivision now proposed is the one best suited to the present circumstances of the Municipality; it has been duly notified, and no valid objections have been received. The Lieutenant-Governor is not prepared to re-consider the matter."

PROVINCIAL BUDGETS.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

I have the honour to call attention to the remarks quoted in the margin made by the Hon'ble Mr. Bourdillon, then Financial Secretary to the Government, and to enquire whether, having regard to the fact that the budget is submitted for the consideration of the Supreme Government on the 10th March or thereabouts, it would not be possible to lay the budget before this Council before it is sent to the Government of India for final approval, with the remarks of Members of Council thereon, for the consideration of the Supreme Government?

These budgets (Provincial budgets), after a careful examination by the Financial Department and the Secretaries of the Departments which have administrative control in each case, are compiled and forwarded to the Government of India, as a whole on the 15th January, through the Accountant-General, who, by that time, has before him the actual figures for nine months. Soon after the close of February, the actuals for two more months, or eleven in all, are available, and on or about the 10th of March, a final revised estimate for the expiring year, together with a final forecast for the year beginning on the 1st of April, are laid before the Government of India, for approval and for incorporation in the great Imperial budget for the whole of India (*vide* Council Proceedings of the 31st March, 1894).

The Hon'ble MR. RISLEY replied:—

"Under the orders of the Government of India, the Financial statement of a Local Government cannot be presented to, or discussed by, the local Legislative Council until it has received the sanction of the Government of India."

PROVINCIAL CONTRACTS.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

Will the Government be pleased to state (1) the total sum which the Government of Bengal has obtained from the Provincial contracts, owing to the normal expansion of the Revenue over and above the contract figure, that is to say the amount expected to be realized to meet the expenditure; (2) the total sum which the Government of Bengal would have obtained if the contract of 1877 had been in force; (3) the total appropriations of the Government of India over and above the sums to which the Government of India was entitled under the contracts? Have these sums been restored?

The Hon'ble Mr. Risley replied :—

"The Hon'ble Member will find the information which he requires in the Financial statement of 1st April, 1893, and the Financial Resolution of 10th October, 1896."

FAMINE RELIEF WORKS IN BIHAR.

The Hon'ble Babu Surendranath Banerjee asked—

Will the Government be pleased to give the names and salaries of Superintendents and Assistant Superintendents employed upon relief works in the affected tracts in Bihar?

The Hon'ble Babu Guru Proshad Sen asked—

Will it please Government to place on the table a list of persons, not being Government servants, who have been specially appointed for the purpose of Famine Relief in the afflicted districts of North Gangetic Bihar, as charge Superintendents and Assistant charge Superintendents, with their respective salaries and allowances?

The Hon'ble Mr. Finucane replied:—

"The Statement called for by the Hon'ble Members is laid on the table."

Superintendents and Assistant Superintendents on Famine Relief Works in the Patna Division.

DISTRICT OFFICER IN KHULNA.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

Is it the case that since July, 1893, no fewer than nine District Magistrates have from time to time been in charge of the district of Khulna, many of whom holding office for only a few months? Is the statement noted in the margin shewing the frequent transfers of district officers from Khulna substantially correct? Are not these frequent transfers calculated seriously to interfere with the efficiency of district administration, and will the Government be pleased to take steps to prevent them?

„ Bell, „ „ „ April, 1894 to October, 1894.
„ Brown, „ „ „ October, 1894 to April, 1895.
„ Fisher, „ „ „ April, 1895 to October, 1895.
„ Brown, „ „ „ October, 1895 to March, 1896.
Since March, 1896, three Magistrates, Mr. Fisher, Mr. Phillimore and Mr. Vincent have held charge of the district one after another. Mr. Vincent, the present Magistrate, has been in charge since January last.

The Hon'ble MR. BOLTON replied:—

"For various reasons it was found necessary in the past three years to change the District Officer of Khulna as often as the Hon'ble Member mentions. The Lieutenant-Governor agrees that such frequent changes are detrimental to the efficient administration of a district, and it is the endeavour of the Government to avoid them as much as possible. The necessity for retaining the same officer at Khulna for a longer period than has been the case in recent years has not escaped the notice of the Government."

PUBLIC DEMANDS RECOVERY ACT.

The Hon'ble BABU GURU PROSHAD SEN asked—

Will the Government be pleased to state under what circumstances and under what representations it was found necessary to permit the Court of Wards to relax the stringency of the Circular orders No. 3 of May, 1892, and 8 of October, 1895, prohibiting the issue of certificates under the Public Demands Recovery Act in estates of which a survey has not been made, and to vest it with powers to use the certificate procedure even in the case of an unsurveyed estate?

The Hon'ble MR. FINUCANE replied:—

"The existing orders are in accordance with the instructions of the Government of India, which directed that Collectors should issue no certificates on the application of a Court of Wards, except where a record of rights had been made and disputes between landlords and tenants settled, *or* in estates declared by a formal order of the Board of Revenue to have a settled rent-roll and to be ripe for the application of the certificate procedure."

The Hon'ble BABU GURU PROSHAD SEN asked—

Will the Government be pleased to order a strict enforcement of these Circular orders, the last of which appears to have been issued as the result of the discussions in Council on the 3rd April, 1895?

The Hon'ble MR. FINUCANE replied:—

"The Government has no intention of further altering these orders, which are perfectly reasonable."

RAIN-GAMBLING BILL.

The Hon'ble MR. BOLTON moved for leave to introduce a Bill for the suppression of rain-gambling. He said:—

"Full enquiry has been made into the practice of rain-gambling, and the evil has been found to exist to an extent which demands early action on the part of the Government. Public bodies representing various sections of the community in Calcutta have been consulted, and opinion is strongly and almost unanimously in favour of legislation. The matter can thus be dealt with at once, and delay is neither necessary nor desirable. In view of the fact that the session of the Council is, in the ordinary course, drawing to its close, I propose to ask Your Honour to suspend the Rules, to admit of my introducing the Bill and moving that it be referred to a Select Committee. Under your order, Sir, the Bill has already been published in the *Calcutta Gazette*, with the Statement of Objects and Reasons, and copies have been placed in the hands of Hon'ble Members. Its provisions are brief and simple, and I venture to anticipate that they will not provoke prolonged discussion in the Council or in the Select Committee."

The Motion was put and agreed to.

The Hon'ble MR. BOLTON also applied to the President to suspend the Rules of Business for the purpose of introducing the Bill and referring it to a Select Committee.

The Hon'ble the PRESIDENT having declared the Rules suspended—

The Hon'ble MR. BOLTON introduced the Bill and also moved that it be read in Council.

The Motion was put and agreed to.

The Bill was read accordingly.

The Hon'ble Mr. Bolton also moved that the Bill be referred to a Select Committee, consisting of the Hon'ble Mr. Wilkins, the Hon'ble Babu Surendranath Banerjee, the Hon'ble Mr. M. S. Das, the Hon'ble Mr. Wallis, the Hon'ble Sahibzada Mahomed Bakhtyar Shah, and the mover, with instructions to report in one week. He said:—

"Sir, the Bill of which I am in charge is a small, but not unimportant, measure. It seeks to put an end to a form of public gambling which has attained considerable magnitude, which has already done much harm among certain classes of the community in Calcutta, and which tends to affect larger and larger numbers. I trust, and cannot but believe, that its object will commend itself to every Member of this Council.

"Rain-gambling was introduced into this City many years since by the Marwaris, who are much addicted to play and wagering of one kind or another, and is practised in the Bara Bazar quarter, where they chiefly reside. For some years it was confined to one house containing a large courtyard where the gamblers can assemble. Two more houses were subsequently opened, and facilities for gambling are now offered at three establishments. The system of play followed at these places has been thus described. Attached to the houses are a number of men who register bets for the proprietors, charging them or the successful wagerers a commission of one pice or of one anna, respectively, on each rupee won. The bets are made on the occurrence of rain within a certain time, and they are registered three or four times daily. The proprietors of the premises offer odds against rain, and these depend chiefly on the state of the weather, ranging from level money to 2 to 1, 3 to 1, and so on, sometimes up to 50 to 1. Those who back the rain do not win unless the fall suffices to cause an overflow from a small raised tank through a spout, which is visible from the courtyard. A clock is kept on the premises to regulate the time.

"For many years after its introduction rain-gambling was practised mainly by the Marwaris; but, though it doubtless brought much pecuniary loss and misery to members of that community, as is inevitable with the systematic pursuit of gambling, the evil did not attain such proportions as to attract public notice and call imperatively for the interference of the Government. Recent years, however, have seen a marked development of this vice; and crowds of all nationalities are now observed at the gambling establishments. The Commissioner of Police has reported that they are frequented by Europeans, East Indians, West Indians, Native Christians, Jews, Hindus and Muhammadans—no doubt, chiefly the poorer and less respectable of those classes—and that native women and even children take part in the betting. So systematised and general has rain-gambling, in fact, become that a guide to it was published in the past year, which professed to instruct the public in the study and forecast of the weather and to furnish tips for the rainy season. It appears that bets are made for small sums of few annas as well as for many hundreds of rupees, and temptation is thus offered to the poor and the wealthy alike. The gambling-houses and the streets where they are situated are frequently crowded from morning till midnight, and stalls for registering bets are kept in the street as well as inside the premises, causing much obstruction to traffic. A public nuisance thus exists, and, apart from the annoyance to persons residing in, or using, the streets who do not take part in the gambling, the Police fear that there may, at any time, be a serious breach of the peace. The attention of the Government was drawn to this gambling by a question asked in this Council by the Hon'ble Babu Surendranath Banerjee in July, 1895, but Sir Charles Elliott was not disposed to undertake legislation, on the grounds that betting in private houses could not be put down, and that it was not desirable to devise a law to stop this form of betting when other forms were left untouched. Last year the matter was again brought before the Government by a memorial submitted by a considerable number of residents of the neighbourhood of the gambling-houses, complaining of the injury done to those who resorted to them, and praying for their suppression. His Honour the Lieutenant-Governor was satisfied that a state of things existed which demanded further consideration. and after the receipt of a report from the Commissioner of Police, the Calcutta Corporation, the British Indian Association, the Central National Muhammadan Association, the Muhammadan Literary Society and the Indian Association were invited to express their opinion whether the evil of rain-gambling is confined to the Marwari community, or whether it is so far-reaching and disastrous in its effects as to warrant recourse to legislation. With one exception, all these representative bodies have replied that rain-gambling extends to other classes than Marwaris, and strongly recommend legislation. It is stated by one of the Muhammadan bodies that many *purda-nashin* ladies of certain sections of their community are being drawn into this gambling through the agency of female brokers secretly employed by the proprietors of the establishments in Bara Bazar. The only dissentient opinion as been expressed by the British Indian Association. They recognize that the evil exists and is very demoralising, and that others than Marwaris are affected; but they object on general grounds to any legislation unless means could be devised for checking all other kinds of gambling, whether public or private. The Hon'ble Members will observe that the existence of a serious evil is generally admitted; and, apart from the testimony thus received, it is manifest that an organized system of public gambling such as this cannot be kept up without injury to many if not the majority of those whom it attracts. Instances of ruin and crime resulting from indulgence in rain-gambling have been mentioned, and it is impossible to doubt that many such cases have occurred. In the memorial presented last year, to which I have already alluded, it was stated that native bankers and merchants and young women of respectable families had ruined themselves by this pernicious habit. If the Council desires to hear of specific cases, I would mention two. In 1892 a young man committed suicide in consequence of his inability to repay a sum of money embezzled from his employer for the purpose of meeting losses at rain-gambling. Two years later

another case came to notice in which a son had stolen ornaments of large value and money from his father for the same purpose. In the former case the Jury which sat in the Coroner's Court made a presentment recommending that measures should be taken to stop rain-gambling. In the presence of the clear evidence of the widespread evil which is being done by those gambling establishments of Bara Bazar, not only among the Marwaris, rich and poor, but also among the poorer members in particular of other communities, the Lieutenant-Governor could entertain no doubt as to the necessity for legislation for the suppression of rain-gambling, and this Bill is the outcome of his consideration of the matter. It has been submitted to the Governor-General in Council, and sanction to its introduction in this Council has been received.

"I have mentioned the objection taken by the British Indian Association to legislation for this form of gambling while other kinds of gambling are left unchecked. Betting on horse races has been specified as equally pernicious, and it has been argued that so long as such betting is permitted legislation for the suppression of rain-gambling cannot be justified. It is not my desire to attempt to minimise the mischievous consequences of betting on the Turf; but I would draw attention to a broad distinction between it and the gambling which this Bill is designed to suppress. Racing is held for a few hours on only a few days of the year; rain-gambling continues daily and practically all day for six months. It is a legitimate inference that the mischief done by betting in the one case must be far less than in the other. But whatever may be the fact as regards betting on the race-courses, it is, I venture to think, on the present occasion a sufficient reply to the objection to partial legislation to say that it is unreasonable to abstain from dealing with a particular form of betting which can be reached and suppressed because attempts to suppress other forms appear undesirable or impracticable. Legislation against rain-gambling has been undertaken in Bombay and undertaken with success, and there is no reason to anticipate failure in this Presidency. I confess my inability to understand the attitude of those who, while admitting the very demoralising effects of rain-gambling, would permit it to flourish in this City and draw more and more of the poorer classes under its baneful influence. They cannot desire to defend it as a legitimate pastime, or deny that it is possible to enforce a law for the suppression of the gambling houses, and their objections to legislation must, therefore, be characterized as purely academic.

"It remains for me, before explaining the provisions of the Bill, to notice that a memorial, largely signed by Marwaris, including some heads of firms, and many managers and servants of other firms whose owners were absent from Calcutta, has recently been received protesting against legislation. The memorialists traverse the statements made in the memorial of last year in condemnation of rain-gambling, assert that this form of gambling is comparatively innocuous or not more injurious than others, and that if suppressed gambling in some new form will take its place, and pray that it may not be interfered with. I have already, I trust, satisfied the Council that the character of an innocent pastime which the memorialists claim for rain-gambling cannot be rightly ascribed to it. It is possible, as they anticipate, that the Marwaris will devise some new form of gambling on its suppression. They have, the memorialists state, introduced in Bombay a system of betting on the number of cotton bales sold daily in the London market, not unlike the well-known betting on the prices realised at the Government opium sales in Calcutta. The suppression of rain-gambling will, however, at least protect from ruin and misery many outside the Marwari community who have been drawn into the gambling establishments. But the Government has reason to know that the more respectable Marwari residents themselves would be glad to see this gambling suppressed, although they are prevented by caste obligations from openly announcing their view. In any case, it would be entirely inconsistent with the principle of English administration in regard to gambling to tolerate the existence of public gambling houses in Calcutta or any other town of this Province.

"The provisions of the Bill may be very briefly explained. In Bombay legislation took the form of a short Act amending the General Gambling Act of the Presidency by including 'wagering' in the definition of 'gaming,'

and 'any article used as a subject or means of gaming' in the definition of 'instruments of gaming' Wagering on rainfall thus became illegal, and water-spouts and clocks watched for the decision of the bets, if within the premises of the gaming house, became instruments of gaming. In the present Bill it is proposed to effect the object in view by directly prohibiting rain-gambling. The definition of 'common gaming house' in the Bengal Acts is, therefore, to be amended by the addition of words which will bring within it any premises in which rain-gambling, specified as 'the form of wagering called rain-gambling,' is carried on; 'gaming' is to be defined as including rain-gambling; and within the definition 'instruments of gaming' are to be included books or registers in which rain-gambling wagers are entered, and all documents containing evidence of such wagers. These amendments will, it is believed, be effective against rain-gambling as it is now conducted. If gambling is hereafter practised in private houses it could be done only on a small scale, and the harm would be proportionately small. The risk of prosecution would be a strong check against attempts to revive the gambling establishments in private residences. But while provision is made for suppressing the rain-gambling which actually exists in Calcutta, it is obviously essential to guard against the setting up of similar establishments in the vicinity or in any town of the interior. The amendments which I have described are, therefore, to be introduced in the following Acts, which provide for the punishment of gambling in this Province, that is, Act XXI of 1857, so far as it relates to Howrah, Act IV (B C.) of 1866, relating to the Town of Calcutta, and the general Act, II (B.C.) of 1867 which operates in particular places on extension."

The Hon'ble Mr. Wallis said:—"I believe I am in order in referring at this stage of the proceedings to the general provisions of the Bill which is now before the Hon'ble Members, and which it is proposed to refer to a Select Committee. I do not wish, sir, for one moment to stand here as the champion of rain-gambling or of wagering or betting of any description; but I would desire to submit that the proposal at this meeting to introduce the Bill, to suspend the Rules of Business, to move that it be read in Council, and to appoint a Select Committee with instructions to report in a week, has, to say the very least of it, the appearance of undue haste. Personally I must admit that I am not prepared at such short notice to refer in detail to the principles of the Bill, or to express an opinion one way or the other; for up to the present the memorial which was referred to by the Hon'ble Member in charge of the Bill, and which I understand was submitted to Your Honour last year, praying that rain-gambling should be suppressed, has not reached my hands, and it was only on Tuesday last that I received official notice that I would be asked to sit on the Select Committee. Since then I have endeavoured to find out something about this form of wagering. I have interviewed several gentlemen who are capable of giving an unbiased opinion, and I have visited one of the betting houses. I am compelled to say that in my opinion the betting is carried on in a very systematic and open way. I certainly hold with the opinion expressed by Sir Charles Elliott through his Chief Secretary as recently as July 1895 that it would be practically impossible to put down betting in private houses, and if this particular form were stopped, it would break out in some other, and if driven into secrecy, might be more harmful than if practised openly. Further, he did not think it possible to devise a law which would stop the form of betting known as rain-gambling without also bringing such practices as betting on races or on other events of chance within its prohibition. This, sir, seems to me the correct view of the matter; for it is manifestly undesirable to legislate for one particular form of wagering and to leave untouched so many others which are known to exist. I do not think, sir, that this Bill has been sent to the European Associations for opinion. I am almost certain that the Bengal Chamber of Commerce has not been consulted, and I know the Trades Association have not. I would therefore beg, sir, that you will exercise the discretion which is given you under section 22 of the Rules of Business, and allow me to put forward an amendment that the discussion of the general principles of the Bill be postponed, and that the Bill be referred

to all the Associations and public bodies in Calcutta for an expression of their opinion with a request that they report as early as possible. In support of my amendment, I would urge that as this form of wagering has been carried on for upwards of three quarters of a century, it is certainly not desirable to hurry the Bill through, even if my amendment should lead to the postponement of the question until the autumn session, or even until next cold season."

The Hon'ble SIR CHARLES PAUL said:—"I desire to make one observation. I find that objection is taken to this Bill on the ground that no legislation should be undertaken in regard to one form of gambling until we are also prepared to take into consideration legislation in respect of other forms of gambling. I hope this Bill may be the commencement of an attack upon gambling of every description. The objection taken does not commend itself to my mind, we must make a beginning."

The Hon'ble MR. M. S. DAS said:—"A good deal has been written in the papers and said about this Bill, but one thing I do not understand, namely, why there should be so much opposition to this Bill. The existing law on the subject contains a provision against keeping a common gaming-house, and the amendment proposed by this Bill only aims at enlarging the definition of the term "common gaming-houses." I do not see how there can be any analogy between betting at races and the system of gambling for the suppression of which this Bill has been introduced; because certainly there is a certain amount of difference between people betting in their own houses and the systematic betting carried on in establishments which are open to the public where any one can go and indulge in betting. The law aims at putting down such common gaming-houses. A legislative assembly does not undertake to improve the morality of the people. We do not sit here to do the work of preachers and moralists; but in all countries the Legislature does undertake to put a certain amount of restraint upon places of public resort for the protection of the public. The Marwari community are of course quite welcome to indulge in betting in their own houses; but if they require certain appliances for the purpose, a reservoir and a spout through which water must flow, they reduce it to the form of a common gaming-house. I do not think it is the intention of this Bill to stop Marwaris or any other persons from gambling about rain falling, or staking their purses upon prognostications of rain; but it is this particular system of gambling which it is proposed to suppress by means of this Bill.

"While we are on this subject, I beg respectfully to submit that this opportunity should be utilised to introduce a small amendment in the Gambling Act which affects the mufassal. There is a difference in the provisions of the two Acts,—the Act which affects Calcutta, and the Act which affects the mufassal, with regard to the power of the Magistrate to order the search of a house on suspicion that it is a common gaming-house. A Magistrate in Calcutta can take the initial proceeding when he receives information upon oath; whereas under the Mufassal Act no such thing is necessary to enable the Magistrate to take the initial proceeding. It has often been remarked that in carrying out the provisions of this Act, some *zoolum* is done by the mufassal police; and as it is the duty of this Council to protect the interests of the public by preventing gambling, I think it is the duty of the Council as well to see that some person should be held responsible for any annoyance or insult to which an innocent person may be put when the search of his house is made on information which perhaps proceeds from malice or spite. This would not be the case if the information was on oath. This is a suggestion I beg to make, and I hope the Hon'ble Member in charge of the Bill will take this matter into consideration. It is a very small matter, and I hope the Hon'ble Member will see his way to introduce such an amendment."

The Hon'ble RAI ESHAN CHUNDRA MITTRA BAHADUR said:—"Up to yesterday I thought of opposing this Bill, but after hearing the instances of ruin which the Hon'ble Member in charge of the Bill has adduced, I consider the object of this Bill to be extremely benevolent. I think, however, that the Bill may be made

a little more comprehensive in its provisions. I am not one of those who think that because the Government cannot touch gambling upon horse-racing or on opium *tejimundis*, the Legislature should not be in a position to put a stop to the evil which this Bill is intended to meet. Evils must be met gradually, and because one particular form of gambling cannot be dealt with at once, that is not a reason which should prevent legislation regarding another particular evil. I therefore think the legislation now proposed is one which ought to be supported. No doubt there are certain sections of the law which confer too much power upon the police, but at the same time the police must have some power for the suppression of this evil, and I would suggest that the definition of gaming-house should be amended in Select Committee. If the mere fact of finding cards in a house is sufficient to raise a presumption that it is a gaming-house, no house would be free from suspicion. The law as it stands provides that the finding of cards is evidence of a house being a gaming-house. I submit that the law goes too far in this respect, and I have no doubt the Council will be able to introduce a modification which would lead to general satisfaction."

The Hon'ble BABU SURENDRANATH BANERJEE said:—I shall not be doing justice to myself if I do not accord my cordial support to this Bill. I have not been able to follow the observations of the Hon'ble gentleman who has asked for the postponement of the Bill. His chief grievance seems to be that certain European Associations were not consulted. He does not say that the enquiry instituted by the Government was not exhaustive, but that particular Associations representing particular interests were not consulted. I should like to ask the Hon'ble gentleman what interest the European Associations have in a Bill of this description. Suppose the Government were to introduce a Bill relating to mercantile matters, would it be any answer to the Bill being proceeded with that the British Indian Association and the Indian Association or the two distinguished Muhammadan Associations which are so ably represented here, had not been consulted? I do not suppose the Hon'ble Member in charge of the Bill would waste his time in sending such a Bill round for the consideration of bodies who could not be presumed to have any particular knowledge of such matters. The European community have not the smallest interest in the Bill now before the Council. It is not pretended that European merchants or tradesmen frequent places like these or take part in rain-gambling transactions. The European Associations were not consulted because it was not thought necessary to do so. The Calcutta Corporation considered the matter at a meeting of the general committee, the executive body of the Corporation. I hold in my hands the proceedings of that meeting when the vote in favour of legislation was practically unanimous, there being only two dissentients. The Bill was also considered by the Indian Association with the Hon'ble Member for the University in the Chair, and the vote there was absolutely unanimous. The Muhammadan Literary Association and the Central Muhammadan Association also supported legislation in connection with this matter. I confess I cannot understand the other argument which has been urged by the same Hon'ble Member, namely, that this practice has been in force for the last seventy-five years, and therefore it may be allowed to continue for some time longer Prescription does not consecrate an evil. No matter how long an evil has been in existence, if it is an evil which is growing and is expanding, if it is proving detrimental to a substantial portion of the community, it is the duty of the Government and of the Legislature to put it down. It has been urged that because we cannot suppress betting on the turf, therefore we must not interfere with rain-gambling. I would rejoice if we could see our way to suppress betting on the turf; but does it stand to reason and common sense that because we cannot suppress both these evils we must not suppress one of them when it is in our power to do so? The two forms of gambling do not indeed stand on the same footing. Betting on the turf is supported by the opinion of the civilized world, and a legislator wastes his breath who legislates in violent opposition to public sentiment. It would be futile to do so. Betting on the turf is supported by a large body of public opinion, and canons and rules have come into existence which act as safeguards against abuse. I should like to know if any such safeguards exist as

to rain-gambling. Then I am told that if rain-gambling be suppressed in public, it will be carried on in secret. This is precisely one of those forms of gambling which cannot be carried on in secret. If it rains the bet is won; if it does not, it is lost. The gamblers must look at the clouds. They can hardly do so in secret. Further, if an evil practice is suppressed by legeslation, and if such legistation is not very much in advance of public sentiment, the evil is sure to be minimized and must eventually disappear. Let me give a concrete instance. The Government has put down those dens of iniquity in which opium smoking was practised. Opium smoking has not indeed disappeared. But the evil has been minimised. The number of opium-smokers has become less, and in the course of the next twenty or thirty years the evil will have disappeared. It will be the same in the case of rain-gambling. If you fail to deal with the evil now, it will strike a firm root in the soil, vested interests will gather round it, and it will gradually enlist the support of a sympathetic public opinion. I have discussed this question with men of light and leading in Burra Bazar, and I have heard no opinion except such as condemned the practice. Calcutta society was not long ago convulsed by the tale of an atrocious murder committed by a Bengali named Annoda Prosad Ghose. He murdered his sons. And when the story of his life was published, what was the most startling fact which it disclosed? He was a confirmed rain-gambler, and lost the whole of his fortune, amounting to two lakhs of rupees, in the rain-gambling establishment. Only the other day I was having a conversation with one of the foremost men in the Marwari community. He said there was a respectable lady living in Burra Bazar who had taken to rain-gambing; she went through the whole of her money, and then went astray; another person embezzled his master's money, and then expiated his guilt in the Presidency jail, and there are no doubt other cases which have not seen the light. I have no hesitation in saying that it is the bounden duty of the Government and the Legislature to suppress an evil which is spreading fast. It is not confined to the Marwari community: it has spread to the Bengalee community, to Eurasians, Armenians and Jews. I know there are clerks employed in the Bengal Office who frequent these gaming-houses. I hope and trust this Bill will be passed into law before the rains set in, and a Government which places such a law as this upon the statute-book will be entitled not only to the lasting gratitude of the Marwari community, but to the approbation of the thinking and the good among all sections of the people.

The Hon'ble NAWAB SYUD AMEER HOSSEIN said:—"While according my support to this Bill, I must protest against any delay in passing the measure, for that will mean to allow another full season for the practice of rain-gambling, which begins from about the middle of the month of May. Next to the Commissioner of Police, I, as Magistrate of the Northern Division of the Town, have had frequent opportunities of observing the evil effects of rain-gambling. It is carried on within my jurisdiction, and I have had several cases of honest gomashtas, durwans and other servants falling into the temptation, and after losing all they possess, committing either theft or criminal breach of trust. In addition to the two cases of suicide mentioned by the Hon'ble Member in charge of the Bill, I had, while acting as Coroner last year, another case, in which a man committed suicide simply because he was ruined by rain-gambling. I had also before me the case of Annoda Prosad Mitter, the real cause of whose ruin was rain-gambling. I therefore strongly support this Bill."

The Hon'ble RAI DURGA GATI BAENRJEA BAHADUR said:—"With Your Honour's permission I will say a word or two in support of this Bill. The exhaustive and lucid speech of the Hon'ble Member in charge of the Bill gives an adequate idea of the pernicious effects of rain-gambling. I have personal knowledge of the ruin which this baneful system of gambling has caused to many families in Calcutta. This evil is not confined to Marwaris, but extends also to other sections of the community. In fact, it is a public nuisance, as has been remarked by the Hon'ble Mover; and the sooner it is suppressed, the better for society. It is an acknowledged evil, and there is no reason why it should not

be suppressed because other similar evils exist. There seems to be nothing in the system of rain-gambling which can commend it either from a social or moral point of view. The sooner therefore this serious and growing evil is suppressed the better. This has already been done by legislation in Bombay, and I do not see why this Council should not follow the example set by that Legislature."

The Hon'ble BABU GURU PROSHAD SEN said:—"I hope the Hon'ble Member in charge of the Bill will see his way to include section 6 of the Gambling Act in his scheme of amendment. That section provides that when any cards, dice or other instrument of gaming are found in any house, tent, room, space, or walled enclosure entered or searched under the provisions of the last preceding section, or about the person of any of those who are found therein, it shall be evidence, until the contrary is proved, that such house is used as a gaming-house. Here the accused has to prove his innocence when a case is brought against him. That Act was passed in 1867. Probably the emergency of the case at the time required a provision like that; but when the Legislature is engaged in amending the Gambling Act there is no reason why this particular section should not come under revision."

The Hon'ble MR. BOLTON in reply said:—"The support which this Bill has received from the Council is very gratifying to myself as its Mover. The Hon'ble Mr. Wallis has taken objection to the haste with which legislation is being pressed. The sole reason for passing rapidly through the early stages of the Bill is that the Session of the Council will come to an end shortly, and that, therefore, if the measure is to be passed now, the Council must go through the preliminary stages quickly. For delay in passing this Bill I can conceive no possible reason. In addition to the cases which I have mentioned to the Council, other instances of the very serious evil done by rain gambling have been mentioned by the Hon'ble Babu Surendranath Banerjee and the Hon'ble Nawab Syad Ameer Hossein, and there can be no reason for allowing this form of public gambling to continue for one day longer than can be avoided. The Bill will cause injury to none but the keepers of the gambling-houses, who, no doubt, benefit very largely by the recklessness or want of intelligence of the unfortunate people who resort to their houses. To the gamblers, and others who might hereafter have been tempted to follow their example, this Bill will be an incalculable boon. If the Marwari community, as those who have memorialised against legislation have themselves declared, cannot repress their passion for betting, the Bill will not be open to the reproach of adding to the many ways in which they indulge that passion: on their own admission it will only result in one form of gambling being substituted for another. Inquisitorial interference with gambling in private houses is not proposed. The Bill deals only with *public* gambling, for the suppression of which the law already provides. All that it insists upon is that if the Marwaris choose to indulge in gambling, they shall not be permitted to do so in houses to which the public are invited. While making these remarks about the Marwaris, however, I must repeat that it is known to the Government that the most respectable men of that community are most anxious that legislation on this subject should be carried through, and that they would hail with the greatest satisfaction the passing of this Bill. The action of the Government in pushing this Bill through the Council, therefore, needs no defence. I have already, in my opening speech, replied to the argument that this legislation is unjustifiable while we abstain from interfering with other forms of gambling, and other Hon'ble Members have also pointed out the futility of that argument. The Hon'ble Mr. Wallis took exception to the Government not having invited the opinions of the Chamber of Commerce and the Trades Association on the necessity for legislation in this case. As I have already informed the Council, various native Associations have been consulted, and with a single exception they strongly and unanimously recommend legislation. It did not occur to the Government to consult the Chamber of Commerce and the Trades Association, because Europeans are not concerned with this matter. The fact, as reported by the Commissioner of Police, that Europeans and Eurasians resort to these rain-gambling houses can afford no ground for a contention that the interests of Europeans in general are affected by the

provisions of this Bill. It appears to me, therefore, entirely unnecessary to postpone the consideration of this Bill in order to invite the opinions of the Chamber of Commerce and the Trades Association. As opinions have already been invited and received from the Associations which are really concerned with this measure, and which it was necessary to consult as representatives of different sections of the native community in Calcutta, I must oppose the amendment which the Hon'ble Member desires to move for postponing the consideration of the Bill to another Session of the Council. During that interval a serious public nuisance will continue, and further evil will be done among the people who are drawn to these gaming-houses. The Hon'ble Mr. Das, Babu Guru Proshad Sen, and Rai Eshan Chundra Mittra have suggested that the Council should also take into consideration certain provisions of the Acts dealing with public gambling, but it is not necessary to examine those provisions of the law at present, and I must object to our travelling beyond the scope of this Bill, which has been framed simply for the purpose of including rain-gambling as practised in Bara Bazar among the different forms of public gambling which are prohibited by the existing law. We are not here to undertake the general revision of the gambling law. For such a revision of the law a separate measure must be introduced, in connection with which the principles which regulate the law could be discussed. I am not prepared, therefore, to support the suggestion of the Hon'ble Members that the desirability of amending the sections to which they have referred should be considered. If any Hon'ble Member desires to bring forward in Select Committee any particular amendment of the law, he will be at liberty to do so, but personally I shall strongly oppose any amendment in the direction which has been suggested."

The Hon'ble THE PRESIDENT said:—"Before putting the motion, it is perhaps as well that I should express my own personal views in regard to this measure. I am afraid I do not rise a very great height of moral elevation in connection with this Bill. Personally, I have no sympathy whatever with gambling in any shape or form. I never made a bet in my life; I do not play cards for money; and the only gambling I ever indulged in, if it can be so called, was when I took some tickets in Lady Mackenzie's lucky bag at the Fancy Fair at Belvedere a few days ago. I am no believer in enforcing morality by legislation. I look upon this Bill simply as a measure of police. I have been convinced by the reports of the Commissioner of Police that the practice of rain-gambling has grown to the dimensions of a large and growing public nuisance. It is solely in that light that I approach the question. At home and in most civilised countries common gaming-houses are looked upon with disfavour, and are suppressed by legislation. The mode in which this form of gambling is conducted in Burra Bazar has become so intolerable as to call for the intervention of the police. They are common gaming-houses of a most notorious description, and ought, as a matter of police pure and simple, to be suppressed. This is simply the light in which I view the question.

"I am not prepared to accept the amendment of the Hon'ble Mr. Wallis, though of course it is open to him to ask that it should be put to the Council should he consider it necessary to do so. This Bill has been before the public for a long time. It did not occur to me to refer it to the European Associations, but it was open to those Associations, if they were interested in the measure, to approach the Government without any special invitation. They have often done so in the past, and will, I trust, continue to do so in the future. I do not know what the Hon'ble Mr. Wallis saw in Burra Bazar in the middle of the hot weather,—probably not very much, but if he visits it in the rains or reads a description of it in the rains, I think he will be convinced that this is a measure which, in the interests of good order in the city, we are bound to press forward. The delay in introducing this Bill into Council is not altogether the fault of the Government of Bengal. We had to secure the approval of the Governor-General and of the Government of India to this legislation before we could introduce it, and the Government of India amidst its many duties necessarily and unavoidably lost some time in replying. We

must push it through now, because we consider that when once the determination has been come to to put down the evil, we ought not to allow it to continue for another rainy season. As a matter of fact no delay could add to the information which the Select Committee will have before them. I have in the drafting of this Bill, which follows largely my own suggestions, avoided as far as I could the difficulties which arose from the introduction of the form of words which found favour in Bombay. I sought to raise no general question as to the propriety of other forms of wagering, but to make the Bill deal directly and simply with the particular evil which we sought to control, rain gambling in common betting houses. Hence the shape which it assumes, and I trust the Select Committee will see their way to return it to the Council without any material alteration in its form.

"The Hon'ble gentlemen who have suggested that we should take this opportunity of amending other portions of the Act have also pressed upon us the inadvisability of delaying the passing of this Bill. But I must call attention to the fact that if we do tamper with or alter the Act as a whole and the general principles of it, we must necessarily hang it up until opinons upon those alterations are received from all over Bengal. Therefore I trust that when this Bill goes before the Select Committee, they will confine their attention to the Bill as it is now laid before them."

The Hon'ble MR. WALLIS said:—"I still desire, with Your Honour's permission, notwithstanding all that has been said by the respective speakers, respectfully to put the amendment I have brought forward. I should have refrained from making any further remarks but for one or two observations which have fallen from the Hon'ble Babu Surendranath Banerjee. He said that this Council would not think of referring commercial questions for the consideration of the Muhammadan Literary or other kindred Associations, but the Hon'ble Member surely does not seriously mean to compare this piece of general legislation to legislation confined to commercial questions pure and simple. He must remember that the Chamber of Commerce, holding the position it does in Calcutta, has not been built up by taking into consideration questions which concern them alone as commercial men, but their views have been asked and sought for by the Government, and they have taken up questions entirely outside the interest of Commerce, and have done so in the interests of all classes of society. And I may also be allowed to say that the Trades Association, though in a much less degree, have ventured to do the same. I therefore still consider, notwithstanding what has fallen from the Hon'ble Members who have spoken and the Hon'ble Member in charge of the Bill, that this Bill should be referred to the Chamber of Commerce and the Trades Association for an expression of their views.

"I prefaced the remarks which I first made by saying that I was not championing rain-gambling or gambling or betting of any sort, and I purposely avoided expressing my opinion either on the question directly before me or upon any other form of wagering or betting. I said that I was not in a position to discuss the general provisions of the Bill simply because I did not know sufficiently about the matter. I must, however, now frankly admit that the attitude which I took in respect of this Bill has been considerably altered by what I had since heard of the crimes which have resulted from the effects of this vice of rain-gambling. The Hon'ble Member in charge of the Bill has been good enough to put my name on the Select Committee, and I shall therefore have the opportunity of considering any further information which may be placed before us. I could, however, still desire, with Your Honour's permission, that my amendment should be put to the Council."

The Hon'ble MR. WALLIS'S Motion that the Bill be referred to all Associations and Public Bodies in Calcutta for an expression of their views upon it, with a request to report thereon as early as possible, was put to the vote and negatived.

The Hon'ble MR. BOLTON'S Motion that the Bill be referred to a Select Committee was then put and agreed to.

AMENDMENT OF CERTAIN SECTIONS OF BENGAL TENANCY ACT, 1885.

The Hon'ble MR. FINUCANE moved for leave to introduce a Bill to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885. He said:—

"This Bill with its Statement of Objects and reasons will be circulated and placed in the hands of Hon'ble Members in a day or two. The Bill is an important one—perhaps one of the most important Bills introduced in this Council for many years past, but I do not propose to detain the Council to-day in attempting to explain its provisions or its objects and reasons. I shall, with the permission of the Council, do so when Hon'ble Members have had time to read the Bill and see what its provisions are."

The Honble RAI ESHAN CHUNDRA MITTRA Bahadur said:—"As I have great doubts upon the point, may I ask Your Honour's permission to put a question to the Hon'ble Member in charge of this Bill, namely, whether this Council has the power to curtail or to modify the jurisdiction of the High Court."

The Hon'ble SIR CHARLES PAUL said:—"As the question of the power of this Council to interfere with the jurisdiction of the High Court has been mentioned, I wish to state that I have lately had occasion to consider the question. The Bengal Council has no power to cut down any Act of Parliament, and so far as the High Court receives any jurisdiction from an Act of Parliament, this Council cannot modify or control such jurisdiction, but all jurisdiction which the High Court receives from the Acts of the Governor-General in Council or from any Act of this Legislature can, with the consent of the Governor-General in Council, be controlled or modified or abrogated by this Council."

The Hon'ble THE PRESIDENT said:—"The Bill is not before the Council at present, and none of the members know at present what it contains. A reference to the Bengal Tenancy Act will show that this Council has the power to amend that Act, and therefore the objection which has been taken is premature at this stage. The only question at present before the Council is that leave be given to introduce a Bill, contents unknown, to amend the Bengal Tenancy Act. The Bill, as the Hon'ble Mr. Finucane has said, is a very important one, and I have no intention of rushing it through. It will at present be simply introduced and explained; it will then be published and referred for opinion to all public officers and local bodies, and there will be ample time, before the Council takes up the Bill in its later stages, to know what the Bill proposes to do, what it does not do and what the Council ought to do.

"I will also take this opportunity to say that I have no intention of hurrying through the further stages of the Partition Bill, but I hope the Select Committee will be able to submit its report before the Council parts, as my intention is to republish the Bill and to refer it to public officers and local bodies, and to await the receipt of their opinions before the Council proceeds to consider the Select Committee's report."

The Motion was put and agreed to.

The Council adjourned to Saturday, the 27th instant.

F. G. WIGLEY,
Offg. Asst. Secy. to the Govt. of Bengal,
Legislative Department.

CALCUTTA;
The 30th March, 1897.

THE SUBORDINATE EDUCATIONAL SERVICE.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 30th March 1897.

RESOLUTION—No. 1281.

READ—

Resolution from the Government of India, Home Department No. $\frac{4 \text{ Edun.}}{204\text{-}215}$ dated the 23rd July 1896.

Read also—

This Government Resolution No. 1244, dated the 26th March 1897.

Letter No. 1020T., dated the 5th November 1896, from the Director of Public Instruction.

IN Resolution No. 1244, dated the 26th March 1897, the reorganization of the Education Department so far as regards the Superior Service (including the Indian and the Provincial Services) has been dealt with. The present Resolution relates to the Subordinate Educational Service.

2. The proposal originally made by the Government of Bengal in 1891 was to put the officers into six classes on pay as follows (see paragraph 16 of General Department letter No. 267T.G., dated the 28th September 1891):—

				Rs.	
Class	I,	2 per cent. of the officers,	on 250	a month.	
„	II,	4	ditto	on 200	„
„	III,	8	ditto	on 150	„
„	IV,	26	ditto	on 100	„
„	V,	28	ditto	on 75	„
„	VI,	32	ditto	on 50	„ „

2. Dr. Martin in this connection writes:—

"The total number of officers to be brought thus into the classified list is 512, as shown in the accompanying list, *plus* three Additional Deputy Inspectors of Schools (*see* Government Order No. 1581, dated 10th April 1896), and two Head Clerks for new Inspectors to be employed under the new reorganisation scheme, or in all 517 officers, so that on the scale mentioned above, we should have, say—

In Class	I	...	...	...	10 officers.
„	II	...	...	...	20 „
„	III	...	...	...	41 „
„	IV	...	...	...	132 „
„	V	...	...	...	144 „
„	VI	...	...	...	170 „

At a cost of—

					Rs.
Class	I	...	...	...	2,500
„	II	...	...	...	4,000
„	III	...	...	...	6,150
„	IV	...	...	...	13,200
„	V	...	...	...	10,800
„	VI	...	...	...	8,500
			Total	...	45,150

"This total is less than the value of the appointments at present held by these same officers, and I therefore venture to suggest a modification both in the standard scale and in the value of the classes. One reason for my doing this is that, though my instructions are that the new arrangements shall involve no expenditure in excess of what is now being incurred, I yet understand that I am not, on the other hand, called upon to effect any savings.

"The *value* of the posts held by the officers who are to be placed in the new subordinate list amounts to Rs. 46,200 monthly.

"I think, therefore, that I am entitled in my proposal to place the value of the appointments in the new list at not less than this sum."

Later on Dr. Martin brought forward arguments for raising the value to Rs. 47,200, and in a note furnished by Sir Alfred Croft the figure has been again raised to Rs. 47,500. The Lieutenant-Governor now sanctions Rs. 47,500 as the value of the appointments to be included in the service.

3. Dr. Martin continues:—

"When I brought forward my scheme for the Subordinate Service in 1893 (No. 6918, dated the 17th November 1893), I wrote as follows:—

"'I have ventured to make a slight deviation from the standard scale with a view to give some relief to a large body of Rs. 50 men, who, though they were not considered eligible to advancement to Class VII of the present Subordinate Service, have nevertheless been serving for such a long time upon fixed pay (Rs. 50) that some encouragement to them, however slight, is advocated; and since I can arrange this without additional cost, I hope that my proposal may be sanctioned. To give an idea of the class of men for whom I wish to do something, I may mention the case of a host of Sub-Inspectors of Schools, who may be said to have a claim to promotion, but to whom this promotion cannot be given with due regard to the requirements of the Department. Of these, for example, I find that one man has been drawing Rs. 50 since 1875, six since 1876, two since 1877, five since 1879, three since 1881, four since 1882, three since 1883, eleven since 1884, and forty-eight since 1885. Stagnation of this kind can be in no way beneficial to the Service, and now that an opportunity has arisen for giving the necessary relief, I think it right to take advantage of it. My plan is, while leaving the percentages of men in Classes I, II, III, and IV as proposed above, to have three other classes instead of two: the 60 per cent. of officers reserved for the two classes being distributed as follows:—

				Rs.	
Class V to contain	16	per cent.	on	... 75	a month.
„ VI „	22	„	on	... 60	„
„ VII „	22	„	on	... 50	„ „

Though the instances adduced are not quite applicable to the present time, yet the circumstances of the Department as it now exists call for the modification quite as much as they did in 1893, and I venture still further to suggest another modification, namely, that a class be admitted into the scale intermediate between those on Rs. 100 and Rs. 150, viz., on Rs. 125. One reason for making this proposal is that I can so arrange for giving encouragement to a much large number of deserving men than by the six or seven-grade scale, and another is that I desire to have a class into which may advantageously be placed at the start officers who may be especially selected for such important posts as Head-masterships of Zilla Schools and Deputy Inspectorships of Schools.

4. These proposals are approved, and the service will be composed as follows:—

Class.				Number of officers.	Value.
	Rs.				Rs.
I	(250)	...	...	10	2,500
II	(200)	...	...	24	4,800
III	(150)	...	...	45	6,750
IV	(125)	...	...	60	7,500
V	(100)	...	...	75	7,500
VI	(75)	...	...	90	6,750
VII	(60)	...	...	105	6,300
VIII	(50)	...	...	108	5,400
		Total	...	517	47,500

The officers who have been admitted on personal grounds into the Provincial list will have their names placed on the subordinate list in square brackets. The cases of two of these officers, however, require special consideration from the fact that had they remained in the subordinate service list, they would be entitled to pay at the rate of Rs. 250 a month, whereas by their promotion to the Provincial list they can get pay at the rate of Rs. 200 only. Personal allowances of Rs. 50 a month will be allowed to each of these officers (Babus Jagat Bandhu Bhadra and Kunja Bihari Bose) till such time as they may by promotion be raised to Class VI of the Provincial Service on Rs. 250 a month.

5. Dr. Martin takes advantage of the class on Rs. 125 to suggest the promotion of a number of Head-masters and Deputy Inspectors, who happen to be lower down (though generally on Rs. 100 a month) in Class VI of

the old subordinate list. His proposal is approved, and the Lieutenant-Governor goes further in declaring that this new Class IV on Rs. 125 shall be generally the door of promotion to Head-masterships of Zilla Schools and Deputy Inspectorships of Schools.

6. Dr. Martin further goes on to say:—

"Similarly, in the case of Class VII on Rs. 60, I have proposed for admission to it, without their being necessarily the senior officers, a large number of *graduates*, who have been serving for some time on Rs. 50; and at the same time I have not forgotten the case of the senior of the Sub-Inspectors of long standing on Rs. 50. I desire to give special consideration to University graduates: this is in conformity with the principle enunciated in the concluding portion of paragraph 19 of the Government Resolution (General Department), dated the 21st January 1879, where it was declared that the regular method of recruiting the Education Department should be by the appointment to it of University graduates."

Sir Alfred Croft has made the following remarks on this proposal:—

"B.A. graduates could usually be appointed to the lowest class on Rs. 50. M.A. graduates (other than those who are appointed to the Provincial Service as College Professors) should, I think, be appointed to Class VII on Rs. 60, with the promise of the first vacancy in Class VI (Rs. 75) after three years' service in Class VII, and of the first vacancy in Class V (Rs. 100) after three years' service in Class IV. This would correspond to a similar proposal which I have made regarding Professors of European qualifications in the Superior Service; and as it is desirable to attract as many Masters of Arts as possible to the Subordinate Service, I recommend that it be adopted."

The proposals meet with the approval of Sir Alexander Mackenzie and are sanctioned; at the same time the Lieutenant-Governor directs that caution be observed in giving preferment to graduates lest the natural claims of other deserving officers may be unduly overlooked.

7. The vexed question of assigning positions in the list to officers, who being on fixed pay did not appear in the old subordinate graded list, has been thus dealt with by Sir Alfred Croft:—

"I recommend that (as in the Provincial Service) the place of an officer on fixed pay in relation to officers in the graded service be determined on the assumption that, if he draws a salary equal to the maximum of any class, he should rank as if he had been appointed to that class five years earlier, with a corresponding rule if his salary lies between the maximum and the minimum. Thus, if appointed on Rs. 200 in January 1891, he should rank next after the officer confirmed in the Rs. 150—10—200 class in January 1886; if appointed on Rs. 175 in 1891, he should rank next after the officer appointed to the class in 1888."

The list which is attached to this Resolution and which has been approved by Government has been prepared, so far as the Classes I, II and III are concerned, in conformity with this principle. The principle has also been observed to a very great extent in the other classes, though special consideration has been given to officers holding particular appointments and to graduates, and in addition those officers who were considered to have reached the limits of their promotion in the old graded list have necessarily been kept down in the new list.

8. The following principles are approved by the Lieutenant-Governor, and sanctioned:—

(*a*) Promotion from class to class will not be determined by seniority alone. Seniority is only one of the conditions which render an officer eligible for promotion. Efficient service in the posts hitherto held, the nature of the appointments in which officers are serving, and capacity to fill posts of higher responsibility, are other determining factors of equal importance are to be considered as well as seniority.

(*b*) Promotion of an officer to a post of greater responsibility will not necessarily imply promotion to a higher class on higher pay. An officer's selection for a post of greater responsibility will be an indication of his fitness for promotion at some future time, and in this way he will indirectly be a gainer: in this connection see the remark made above at the conclusion of paragraph 5.

9. Recently some additional Deputy Inspectorships of Schools have been sanctioned by Government. It is the desire of the Lieutenant-Governor that these posts should, as far as possible, be filled by gentlemen of the Muhammadan persuasion with a view to training them for ultimate employment as Deputy Inspectors of Schools in Muhammadan districts. Sir Alexander

Mackenzie has learnt with surprise that throughout Bengal there is but one Muhammadan Deputy Inspector of Schools, and this in His Honour's opinion is not right. The Director of Public Instruction will give this matter his careful attention, and see that the wishes of Government are followed, provided Muhammadan gentlemen properly qualified for the posts are procurable.

10. Excepting the Personal Assistant to the Director of Public Instruction who finds a place in the Provincial Service, the office establishment of the Director and also those of Inspectors of Schools and of Colleges will be included in the subordinate list.

11. Sir Alfred Croft makes some special recommendations of which the following are approved:—

(*a*) The promotion to Class VI (Rs. 75) of Maulvi Abdur Razzaq, Head Maulvi of the Hooghly Madrassa. He is a man of considerable Arabic learning, and comes of a family renowned for scholarship. His position is an important one, and justifies a substantial increase.

(*b*) The promotion to Class VII (Rs. 60) of Pandit Krishna Pada Vidyaratna, lecturer in Sanskrit of the Chittagong College. He is a competent scholar and underpaid. The Sanskrit Teacher in the Collegiate School, who has lesser work to do, draws the same pay of Rs. 50, and stands many places higher. A somewhat better position should be given to the College Professor; but as he only teaches up to the First Arts, he should be content with a good place in Class VI, giving him some prospect of promotion.

12. Promotions to Classes I and II of the new Subordinate Service will be made by Government and gazetted. Appointments and promotions to the lower classes will be made by the Director of Public Instruction. Throughout the Subordinate Service the Director of Public Instruction is authorized to order transfers, and to decide the positions of officers, subject to an appeal to Government. He is empowered to grant leave to officers in all the classes from I to VIII. The power of appointment carries with it the power to suspend an officer, stop his promotion, degrade him to a lower class, and dismiss him or dispense with his services.

13. The scheme set forth in the previous paragraphs of this Resolution will take effect from the 1st August 1896.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Government of Bengal.

List of officers to be included in the Subordinate Educational Service under the scheme of Reorganization.

[Prepared when it was thought that the scheme would take effect from 1st October 1896.]

Number.	Name.	Designation.
1	2	3
	Class I—(10)—Rs. 250.	
1	[Saroda P. Ganguli]	Provincial Service List.
2	Uma Kisor Roy	Deputy Inspector of Schools.
3	Khirod Ch. Rai Chaudhuri, M.A. ...	Head Master, Zilla School. *Since been removed to Provincial list.*
4	[Ambika Charan Mukherjea] ...	Provincial Service List.
5	[Baikuntha N. Roy, B.A.]	Ditto ditto.
6	[Bhuvan Mohan Sen, B.A.]	Ditto ditto. *Since been removed to Provincial list.*
	Rai Sarat Chandra Das Bahadur, C.I.E. ...	*Ditto ditto.*
7	Gaur Mohun Basak	Head Master, Zilla School.
8	G. Lawrence	Foreman Instructor, Civil Engineering College.
9	Sripati Banerjea	Deputy Inspector of Schools.
10	[Jagat Bandhu Bhadra]	Provincial Service List.
	Class II—(24)—Rs. 200.	
1	Francis X. Mukherjea, B.A.	Second Master, Collegiate School.
2	Kali Nath Chaudhuri	Deputy Inspector of Schools.
3	[Kunja Bihari Bose]	Provincial Service List.
4	Piyari Mohan Sen	Deputy Inspector of Schools.
5	Radha Lal	Ditto ditto.
6	Ram Prakash Lal	Ditto ditto.
7	Syam Lal Datta, B.A.	Second Master, Nawab's High School.
8	A. F. Burnie	Foreman Instructor, Civil Engineering College.
9	Abdul Haq Abid, B.A.	Second Master, A. P. Department, Calcutta Madrassa.
10	Hari Har Das	Deputy Inspector of Schools.
11	Sasadhar Roy	Head Master, Zilla School.
12	J. H. D'Abreu, B.A.	Second Master, Bihar School of Engineering.
13	Mrs. E. A. Pegler	Head Mistress, Kurseong School.
14	Mohim Ch. Chatterjea, B.A.	Deputy Inspector of Schools.
15	Ram Sundar Basak	Additional Deputy Inspector of Schools.
16	Syama P. Roy	Head Master, High School.
17	Kura R. Roy	Head Master, Bihar School of Engineering.
18	Hari Charan Nag	Head Master, Survey School.
19	Abhay Ch. Pal, B.A., B.L.	Second Master, Collegiate School.
20	Rajani K. Ghosh, B.A.	Third Master, Collegiate School.
21	Kedar N. Ghosh	Head Master, Zilla School.
22	E. Cleghorn	Head Master, Branch School.
23	Abhay Ch. Mitra, M.A.	Second Master, Training School.
24	Kailas Ch. Bhattacharjea, B.A. ...	Head Master, Zilla School.
	Class III—(45)—Rs. 150.	
1	Giridhari Bose	Deputy Inspector of Schools.
2	Sura Nath Chatterjea, B.A.	Head Master, Zilla School.
3	Adya N. Mukherjea, M.A.	Second Master, Collegiate School.
4	Umesh Ch. Bose	Head Master, Survey School.
5	Jagat Ch. Sarkar, B.A.	Head Master, Zilla School.
6	Banamali Mallik	Second Assistant to the Director of Public Instruction.
7	Ishan Ch Ghosh, M.A.	Deputy Inspector of Schools.
8	Hari Das Banerjea, M.A.	Ditto ditto.
9	Baladev Ram Jha, B.A.	Head Master, Zilla School.
10	Adi Nath Mitra	Deputy Inspector of Schools.
11	Gopal Ch. Ghosal	Ditto ditto.
12	Parmanand	Second Master, Training School.
13	Govind Ch. Singh	Second Master, Zilla School.
14	Dwarka Prasad	Deputy Inspector of Schools.
15	Bhagavati Charan Sen	Ditto ditto.

Number.	Name.	Designation.
1	2	3
	CLASS II—(45)—Rs. 150—*concld.*	
16	Becharam Nandi, B.A.	Head Master, Zilla School.
17	Krishna K. Adhikari, M.A.	Deputy Inspector of Schools.
18	Phani Bhusan Bose, M.A.	Ditto ditto.
19	Radha K. Chakravarti	Ditto ditto.
20	Mahendra N. Datta	Ditto ditto.
21	Trailakya N. Chakravarti	Head Master, Zilla School.
22	Tarak Bandhu Chakravarti	Deputy Inspector of Schools.
23	Ram Taran Samanta	Ditto ditto.
24	Mahini M. Bose, B.A.	Head Master, Zilla School.
25	Bhagawan Ch. Dutta, B.A.	Ditto, ditto.
26	Kesab Lal Bose	Ditto, ditto.
27	Sajivan Lal Singh, B.A.	Ditto, ditto.
28	Mahmud, B.A.	Third Master, Anglo-Persian Department, Calcutta Madrasah.
29	Amjad Ali, B.A.	Third Master, Collegiate School.
30	Nalini Mohan Sanyal, M.A.	Head Master, Zilla School.
31	Hira Lal Pal, B.A.	Deputy Inspector of Schools.
32	Tripura Ch. Banerjea	Second Master, Collegiate School.
33	Adhar Ch. Mukherjea	Third Assistant, Director of Public Instruction.
34	Siddeswar Banerjea, B.A.	Third Master, Collegiate School.
35	Golok Chandra Chakravarti	Head Master, Zilla School.
36	Bhuvanesvar Gupta	Deputy Inspector of Schools.
37	Hari N. Chatterjea	Ditto ditto.
38	Trailakya Nath Ghosh, B.A.	Head Master, Zilla School.
39	Rakhal Das Chakravarti, M.A. ...	Ditto, ditto.
40	Mati Lal Mallik, M.A.	Deputy Inspector of Schools.
41	Lok Nath Chakravarti, B.A.	Second Master, Collegiate School.
42	Hari Nath Sen, B.A.	Fourth Assistant, Director of Public Instruction.
43	Kalika N. Mukherjea	Deputy Inspector of Schools.
44	Kedar N. Ganguli	Head Master, Zilla School.
45	Tarak N. Sarkar, B.A.	Ditto, ditto.
	CLASS IV—(60)—Rs. 125.	
1	Bhola Nath Mukherjea	Head Master, High School.
2	Mir Sajjad Ali	Deputy Inspector of Schools.
3	Sarada K. Sen	Ditto ditto.
4	Abdus Salam	Head Maulvi, Madrasah.
5	Jadu Nath Chakravarti	Deputy Inspector of Schools.
6	C. H. Harcourt	Second Master, Kurseong School.

M. FINUCANE,
Secretary to the Government of Bengal.

STATISTICAL DEPARTMENT,
The 29th March 1897.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 736 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 30th March 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 21st March 1896 and 1897 is shown in the following statement:—

	15TH TO 21ST MARCH			
	1896.		1897.

Other food-grains, such as jowar, barley, oats, &c.	.....	.....	2,255	3,069
Total ...	27,698	37,700	190,130	2,58,788

During the week under report, rice continued to be imported in large quantities from Burma, namely, 147,787 cwts., against 171,214 cwts. in the week ending 14th March 1897. The only other ports from which rice was imported into Calcutta were Balasore (7,889 cwts. against 5,154 cwts.) in the corresponding week of 1896, and Coconada (29 cwts. against nil) in the corresponding period of last year. Of the total import of 27,023 cwts. of paddy, Burma contributed 24,593 cwts., against nothing during the week ending 21st March 1896 The improvement under gram and pulses and miscellaneous food-grains was due to larger despatches from the Madras ports and from Rangoon.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the third week of March 1897 is compared with the figures for the corresponding period of 1896 :—

	15TH TO 21ST MARCH			
	1896.		1897.	
1	2	3	4	5
Food-grains.	Cwts.	Mds.	Cwts.	Mds.
Rice	141,019	1,91,943	186,373	2,53,674
Paddy	2,640	3,593	44	60
Wheat	1,100	1,497	127	173
Gram and pulses	9,604	13,072	11,899	16,196
Other food-grains, such as jowar, barley, oats, &c.	730	994	3,233	4,400
Total ...	155,093	2,11,099	201,676	2,74,503

Foreign Ports.

The exports of rice rose from 103,834 cwts. during the week ending 21st March 1896 to 172,980 cwts. during the period under review, owing chiefly to larger shipments to Arabia (59,042 cwts. against 2,079 cwts.), United Kingdom (39,921 cwts against 19,484 cwts.), Mauritius (28,307 cwts. against nil), and Abyssinia (11,306 cwts. against nil); on the other hand, there was a heavy decline in the exports to Demarara (nil against 33,723 cwts.) and to Ceylon (16,736 cwts. against 42,386 cwts.) The increase of 3,208 cwts. under miscellaneous food-grains was almost entirely due to the export of 3,166 cwts. to Mauritius, which received nothing during the corresponding week in 1896.

Indian Ports.

The trade of Calcutta with coast ports during the week under report was about half that of the corresponding period in 1896, viz., 20,675 cwts. against 45,128 cwts. The largest trade was in rice, the shipments of which fell to one-third, *i.e.*, from 37,185 cwts. to 13,393 cwts. owing to the exports to Madras ports having declined by 13,742 cwts. and those to Bombay by 9,675 cwts. The trade under the other heads was small, and the fluctuations call for no remarks.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below.

Statement No. I, showing the Imports of Food-grains into Calcutta from Foreign and Indian Ports during the week ending 21st March 1896 and 1897.

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 709 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 30th March 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

MEMORANDUM.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack and Puri during the week ending 28th February 1897, as compared with the trade of the corresponding period of 1896 :—

	1897 ...	.....	.....	.....	.....
Total ...	1896 ...	44,212	1,02,660	1,46,872	1,99,909
	1897 ...	12,976	19,742	32,718	44,533

Imports. The import trade of Chittagong, which amounted to 18,511 cwts., showed an increase of 18,274 cwts. owing mainly to the receipts of rice and paddy from Burma. Balasore, too, showed a rise of 774 cwts on account of larger shipments of wheat, gram and pulse and other food-grains from Calcutta.

Exports. The export trade of Narayanganj aggregated 295 cwts. against *nil* in 1896. In the case of Balasore, the decline of 58,899 cwts. was chiefly due to smaller despatches of rice, paddy and gram and pulse to Calcutta and Cochin, but the exports to the Laccadives amounted to 2,099 cwts. of rice, paddy and other food-grains against *nil* in the corresponding week in 1896. The falling off of 46,586 cwts. under Cuttack is due to the cessation of exports of rice and gram and pulse to all Foreign and Indian ports except Mauritius, which, however, received 12,976 cwts. of rice, against 27,345 cwts. in the corresponding period of the preceding year. The trade of Puri also declined by 8,963 cwts., there being no despatches of rice to Foreign ports.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the week ending 28th February 1897, as compared with the trade of the corresponding period of 1896.

EXPORTS OF FOOD-GRAINS BY THE EAST INDIAN RAILWAY.

No. 706 Statistics.—The following statement shows the quantity of rice and other food-grains exported by the East Indian Railway from Calcutta and Howrah during the period from 1st January to 20th March 1897, both days inclusive, to have been 26,67,629 maunds. The destination of 25,00,181 maunds is specified. About two-thirds of this quantity (16,57,112) was carried to the North-Western Provinces and Oudh, rather more than one-sixth (4,35,417 maunds) to stations in Bengal, and the rest (4,07,652 maunds) to other provinces.

M. Finucane,
Secy. to the Govt. of Bengal.

Statistical Department,
The 29th March 1897.

Statement showing the quantities of rice and other food-grains exported from Howrah and Calcutta (Chitpur, Kidderpur Docks and Port Trust Railway) by the East Indian Railway from 1st January to 20th March 1897.

FOOD-GRAIN TRAFFIC OF CALCUTTA DURING 1896.

Memorandum.

No. 737 (Statistics).—The 30th March 1897.—The following memorandum is published for general information.

M. FINUCANE,
Secretary to the Govt. of Bengal.

THE traffic of Calcutta by boat and road is registered at a cordon of 26 registering stations situated on the Hooghly and on the canals and principal roads around Calcutta, in Howrah, and in the suburbs. Statistics of the traffic of Calcutta carried by Inland Steamers are obtained by Government from the different Steamer Companies in Calcutta, and of the railborne traffic from the railway audit offices at Sealdah and Jamalpore. Information in connection with the sea-borne trade is furnished by the Collector of Customs, Calcutta. Consolidated statements of the food-grain import and export traffic of Calcutta, carried by all these routes, for the 10 months from January to October 1896, as compared with the corresponding months of 1895, were published in the *Calcutta Gazette* of the 27th January 1897. Similar statistics for November and December 1896 have also since been published in the Gazettes of 24th February and 17th March 1897, respectively.

2. The results of the import and export traffic during the calendar year 1896, as compared with the figures for the corresponding period of 1895, is shown in the following statement:—

FOOD-GRAINS.			By rail.	By country boat.	By inland steamers.	By road.	By sea.	TOTAL.

		1896 ...	78,58,467	1,09,69,431	9,48,824	11,35,059	31,36,501	2,33,47,288
	Export ...	1895 ...	2,01,520	9,12,285	3,86,069	6.66,621	1,67,30,55	1.88,97,047
		1896 ...	19,03,395	12,37,605	10,40,517	8,55,771	1,01,74,526	1,52,21,814

Compared with that of 1895, the total food-grain traffic of Calcutta in 1896 showed the considerable decrease of 22½ lakhs of maunds under imports and of 36¾ lakhs of maunds under exports. The quantity of food-grain imported into Calcutta by rail was 20·88 per cent. below the figures for the preceding year, but the quantity so exported from Calcutta rose

by 844·51 per cent. The country-boat traffic shows a decline of 18·22 per cent. under imports and an increase of 35·65 per cent. under exports. The traffic carried by inland steamers showed an advance under both heads, namely, 31·51 per cent. and 169·51 per cent., respectively. The imports by road remained nearly the same as in the previous year, but the exports rose by 29·87 per cent. The variations in the sea-borne trade have been remarkable, the imports showing an advance of 169·29 per cent., and the exports a heavy decline of 39·18 per cent.

3. That the quantity of rice imported by country-boat was as usual larger than the total imported by all other means, though the boat traffic was of course itself much less than in the preceding year. The surplus of imports of all classes of food-grains over exports during the calendar year 1896 is compared below with the surplus of 1895:—

	Surplus of imports over exports.	
	1895.	1896.
Rice	16,32,145	27,05,435
Paddy	7,26,448	8,09,567
Wheat	20,8[illegible],133	23,43,664
Gram and pulses ...	20,41,290	9,46,455
Other food-grains ...	2,12,758	3,20,353
Total ...	67,00,774	71,25,474

There was a large surplus of all kinds of grain, with the single exception of gram and pulses, left at the end of the year 1896, in comparison with that left at the end of 1895, awaiting exportation to famine centres. Similar figures before 1895 are not available.

4. In order to ascertain the stocks of rice in and near Calcutta, a separate enquiry has for many years been made once a month, but has been made every week since the occurrence of the present famine. This information is obtained by a special officer who visits every *aruth* (or wholesale warehouse) in the 14* marts round Calcutta and Howrah, and receives from each of the 157 *aruthdars* at present on the list a report of the quantity of rice in hand on the date of his visit. To the total quantity thus ascertained, the following additions are made:—

Calcutta side.

Baliaghatta.	Pathuriaghatta.
Ultadanga.	Posta.
Chitpur.	Jorabagan.
Golabari.	Tollygunge.
Coomertooly.	Chetla
Hatkhola.	Kidderpore.
Culpighat.	

Howrah side.

Ramkistopur.

(*a*) Stocks of rice at Baidyabati, Nawabganj, Bhadreswar and Chandernagore, the figures for which are obtained by local enquiry and forwarded by the Collector of Hooghly.

(*b*) Stocks on the railway premises at Howrah, Sealdah, Chitpur and Ruthtolaghat, the figures for which are obtained from the railway authorities concerned.

(*c*) Floating stocks on boats in the Calcutta canals as reported by the Supervisor of those canals.

(*d*) Floating stocks on boats in the Hooghly as reported by the Vice-Chairman of the Calcutta Port Commissioners.

5. For the minor bazars and innumerable retail shops, scattered about the town of Calcutta and the suburbs, no detailed enquiry is possible, but in order that the stocks in these bazars and shops may not be left out of account, the amounts shown in the margin (representing roughly the requirements of about five weeks' consumption for the town population) have been estimated and assumed to represent these stocks. These estimates are assumed as constant quantities for the purpose of the monthly or weekly return. The present estimate was made in August 1877, when Mr. F. Newbery, then of the Bengal Civil Service, made a local enquiry into the Calcutta stocks; the number of shops were taken from the Census tables, and the quantity was struck from the average amounts seen in the shops inspected. Accuracy is not claimed for the estimates under these heads; they are merely employed for the purpose of making the account as complete as possible.

	Mds.
Minor bazars	2,40,000
Retail shops	2,50,000
Total ...	4,90,000

6. The whole enquiry is completed in three days by the different agencies employed for the purpose. Before the Madras famine in 1876-77, the stocks of rice in Calcutta constantly amounted to 70 to 80 lakhs of maunds, but at the close of that year they were only about half of that quantity, and in subsequent years they have further diminished. The stocks in the first week of April 1896 were 20,89,000 maunds, or about half of the stocks at the close of 1876-77. With the opening up of the country by railways and steamers, however, the question of stocks in Calcutta has become one of secondary importance, for dealers find it more advantageous to keep their stocks in the interior, and to import by instalments such quantities only as they require to fulfil their contracts with exporters.

7. It may be interesting to investigate how far the figures of rice stocks are borne out by the statistics of the import and export trade of Calcutta. In the muffassal, where the people subsist chiefly on rice, the daily rate of consumption has been fixed, for purposes of calculation, at three quarters of a seer per head, but in the metropolis, where more articles of food other than rice are consumed, half a seer per head per day is considered to be a fair

average Adopting these rates and reviewing the figures for April 1896, taken as being the first month of the current official year, the figures compare as follows:—

	Rice. Mds.	Paddy. Mds.	
Total imports into Calcutta by all routes during April 1896	8,79,000	1,20,000	
Total exports into Calcutta by all routes during April 1896	10,99,000	66,000	
	−2,20,000	+ 54,000	=34,000
Deduct ...	34,000		maunds of rice.
Net deficit in rice ...	1,86,000		
Stocks of rice on the first week of April 1896 as stated in paragraph 6		20,89,000	
Stocks of paddy on 1st April 1896, converted into terms of rice		4,65,000	
Total ...		25,54,000	
	Mds.		
Deduct net deficit shown above	1,86,000		
Deduct requirements for consumption during April 1896 at half-a-seer per head per day on a population of 900,000 persons ...	3,37,000	5,23,000	
Balance on 1st May 1896		20,31,000	
Stocks of rice in the first week of May 1896, as published in the Gazette		21,13,000	

In this and the following calculations paddy has been converted into terms of rice at a maund of paddy to 25 seers of rice.

8. A similar test applied to the figures of imports and exports for the 10 months from January to October 1896 gives the following results:—

	Rice. Mds.	Paddy. Mds.	
Total imports from January to October 1896 ...	1,12,69,000	19,20,000	
Total exports from January to October 1896 ..	92,60,000	11,77,000	
			Mds.
Surplus of imports over exports ...	20,09,000	7,43,000	=4,65,000
Add ...	4,65,000		of rice.
Total surplus in rice ...	24,74,000		
		Mds.	
Stocks of rice on the 1st week of January 1896 ...		17,15,000	
Stocks of paddy on 1st January 1896 converted into rice ...		4,75,000	
Total ...		21,90,000	
Add—Surplus of imports over exports as shown above ...		24,74,000	
		46,64,000	
Deduct—Requirements for consumption for 10 months for a population of 900,000 souls, at the rate of half-a seer per head per day		33,75,000	
Balance on 1st November 1896 ...		12,89,000	
Stocks of rice in and around Calcutta in the first week of November 1896, as published in the Gazette ...		12,57,000	

9. The figures for November 1896 are similarly shown below:—

	Mds.
Excess of imports of rice over exports during November 1896...	1,68,000
Excess of imports of paddy over exports during November 1896, converted into rice	28,000
Total ...	1,96,000

	Mds.
Add—Stocks of rice as ascertained in the 1st week of November 1896	12,57,000
	14,53,000
Deduct—Requirements for consumption for 900,000 souls, at the rate of half-a-seer per head per day during November 1896	3,37,000
Balance on 1st December 1896 ...	11,16,000
Stocks of rice in the first week of December 1896, as published in the Gazette	11,72,000

10. Finally, the following memorandum gives the statistics for December 1896 :—

Excess of imports of rice over exports	5,28,000
Excess of imports of paddy over exports, converted into rice ...	13,000
Total ...	5,41,000
Add—Stocks of rice as ascertained in the first week of December 1896	11,72,000
Deduct—Requirements for consumption at the rate of half-a-seer per head per day for 900,000 persons ...	3,37,000
Balance on 1st January 1897 ...	13,76,000
Stocks of rice in and around Calcutta on the first week of January 1897, as published in the Gazette ...	11,15,000

The difference amounts to 2,61,000 maunds, and is explained as follows. The stocks shown above represent Bengal rice only, while the figures of imports and exports include Burma rice and rice brought to Calcutta by coasting vessels. These imports do not find their way into the *aruths* at which enquiries are made by Government, but are stocked by the importers in their own godowns for export when required; and as such godowns do not come within the scope of the enquiries made by Government, these figures are not taken into account in ascertaining the stocks of rice in Calcutta. The quantity of rice imported from Burma in 1896 was 1,36,000 maunds, and the greater part of this was imported in December; the imports from the Balasore and Chandballi ports during December 1896 amounted to 66,000 maunds. These two figures, taken together represent 2,02,000 maunds, which reduces the difference noticed above to merely 59,000 maunds, and if wastage be taken into consideration, there will be a further reduction.

M. FINUCANE,

Secretary to the Government of Bengal.

STATISTICAL DEPT.,

The 30th March 1897.

WEATHER AND CROP REPORT.

For the week ending the 29th March 1897.

Burdwan.—Rainfall at Sadar ·95, Kalna 1·20, Katwa, ·78, Raniganj 1·47. Weather unsettled. Recent rain has facilitated ploughing all over the district. *Rabi* harvest and pressing of sugarcane nearly over. Fodder sufficient. Water scarce in some villages. Condition of cattle good. Common rice selling as follows:—

	Srs. c.	Srs. c.	
Sadar	10 0	to 12 0	per rupee.
Kalna	10 0	to 11 0	
Katwa	10 15	to 11 2	
Raniganj		10 4	

Birbhum.—Rainfall at Sadar 1·95, Rampur Hât ·93. Weather much cooler. Ploughing going on everywhere. Price of common rice at Sadar 9¾ seers, and Rampur Hât 10½ seers per rupee. No want of fodder or water.

Bankura.—Rainfall at Sadar 3·74, Vishnupur 1·37, Gangajalghati 3·08, Raipur 1·70, Maliara 2·08, Indas 1·29, Khatra 1·81, Kotalpur 1·22, Onda 2·2. Weather generally cloudy and rainy at the beginning of the week. Ploughing of lands is briskly going on. Pressing of sugarcane almost finished. Harvesting of *rabi* continues. Rice selling at Bankura 11 seers, and Vishnupur 11½ seers per rupee.

Midnapore.—Rainfall at Sadar ·97, Contai 1·84, Tamluk ·80, Ghatal 1·34. Weather cloudy. Heavy rain at Sadar yesterday (28th), which will improve prospects of indigo. Plantation of sugarcane continues. Wheat and barley are still being cut in Garhbetta. *Boro* is still being sown in Keshpur, Binpur, Gopiballavpur, and Dantun. The recent rain has proved beneficial to *boro* and *til*. Fodder sufficient except in Chandrakona, and water sufficient except in Garhbetta. Cattle-disease reported from Keshpur, Binpur, Garhbetta and Benapura. Common rice selling as follows:—

	Srs.	
Sadar	11	per rupee.
Contai	12 to 13	
Tamluk	11¾	
Ghatal	11½ to 12	

Hooghly.—Rainfall 3·29 during last week, besides a heavy shower yesterday (28th). *Boro* doing well in some places. Common rice sells from 8½ to 10¾ seers per rupee.

Howrah.—Rainfall at Sadar ·46, Ulubaria ·69. Weather hot and cloudy. Prospects of *rabi* not favourable. The recent rainfall has done good to the standing crops. Fodder and water sufficient. Common rice sells at 8½ to 11 seers per rupee.

24-Parganas.—Rainfall at Sadar 1·31, Barasat ·36, Basirhat ·52, Diamond Harbour ·85. Weather cloudy. Prospects of sugarcane improved by recent rain. Ploughing going on. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs. c.	
Sadar	9 to 11 0	per rupee.
Barasat	9 0	
Basirhat	10 8	
Diamond Harbour	10 8	

Nadia.—Rainfall at Sadar 1·24, Kushtia ·73, Meherpur ·85, Chuadanga ·80, Ranaghat ·81. The rain has facilitated ploughing. Sugarcane planting going on. Cases of cattle-pox reported from thana Kushtia. Common rice sells from 8 to 10 seers per rupee. Latest price of rice where test-works are open is 10 seers per rupee. Numbers on relief on Saturday, 27th March—

	Men.	Women.	Children.	Total.
Relief-workers	7,983	860	911	9,754
Dependants	302	44	1,489	1,835
Otherwise relieved	1,053	4,995	750	6,798
Test-workers	497	64	157	718
Total ...				19,105

Murshidabad.—Rainfall at Sadar ·75, Kandi 1·10, Jangipur ·48. Weather seasonable. Harvesting of *rabi* crops and pressing of sugarcane nearly over. Indigo doing fairly well. The recent rain will do some good for cultivation of *aus*. Fodder sufficient. Common rice sells as follows:—

	Srs.	
Sadar	9½ to 10	per rupee.
Kandi	10	

Latest price of rice where test-works are open is 10 seers per rupee. Numbers on relief on Saturday, 27th March, Sadar and Kandi subdivisions—

	Men.	Women.	Children.	Total.
Test-workers	3,062	18	280	3,360

Jessore.—Rainfall at Sadar 1·42, Jhenida 1·00, Magura 2·38, Narail ·58, Bangaon ·54. Weather cloudy; damp with drizzling rain and distant thunder and lightning. The rainfall has done much good for ploughing operation and cultivation of jute, *til* and *aus* in lowlands. Cattle-disease reported from Maheshpur, Bangaon, and Gaighatta thanas. Fodder and water available. Want of good drinking-water is being felt in places. Common rice sells as follows:—

	Srs. c.	Srs. c.	
Jessore	10 0	to 10 8	per rupee
Jhenida		9 0	
Magura	9 6	to 10 0	
Bangaon	10 0	to 11 0	

Khulna.—Rainfall at Sadar ·62, Satkhira ·51, Bagirhat 1·70. Recent rain has benefited the *boro* crop somewhat. More rain needed. Cultivation for jute and *aus* began. Common rice sells as follows:—

	Srs.	
Khulna	10 to 11	per rupee.
Bagerhat	11½	
Satkhira	9½	

Wages calculated at 10 seers per rupee. Water very scarce. Cattle-disease reported from some places. Numbers on relief—

	Men.	Women.	Children.	Total.
Relief-workers	2,449	Nil	220	2,669
Otherwise relieved	538	2,357	1,195	4,090
Total ...				6,759

Rajshahi.—Rainfall at Sadar ·34, Nator ·34, Naugaon ·54. Sowing of paddy and *til* commenced, that of jute going on. Ploughing of lands retarded for want of rain. Fodder available. Scarcity of water reported from some places. Common rice selling at 8 to 11 seers per rupee. Two test-relief works open. Numbers on relief on Saturday 27th March—

	Men.	Women.	Children.	Total.
Test-workers ...	670	Nil	28	698

Price of rice at relief-works, 8 to 9 seers per rupee.

Dinajpur.—Average rainfall 2·39. Weather cool and cloudy. The rain has improved the prospects of *bhadoi* rice, jute, and sugarcane. Condition of cattle good. Fodder and water sufficient. Common rice selling at Sadar 10 seers and Thakurgon 9 seers per rupee;

Jalpaiguri.—Rainfall at Sadar 2·23, Alipur Duars 2·03. Weather cloudy and cold. Rain has done much good, and preparation of land for sowing *betri* rice and jute has been briskly taken up. Fodder and drinking-water-supply improved. Average price of common rice, 8½ seers per rupee.

Darjeeling.—Rainfall at Sadar 2·29, Siliguri 1·37. Weather seasonable. Hills—*Bhutta* being planted; wheat, barley, and *phaphur* being harvested; land being prepared for *chota marua* and *bhadoi* crop. Terai—Ploughing for *bhadoi*, jute and sugarcane going on; tobacco being cut. Price of coarse rice:—

	Srs.	
Hills	9	per rupee.
Terai	9 to 10	

Bhutta sells from 13 to 20 seers per rupee.

Rangpur.—Rainfall at Sadar 2·51. Sowing of *aus* and jute going on. The rain of the week has done great good to these crops, but slightly damaged tobacco, which is being cut. Common rice selling at 8 to 10 seers per rupee. Fodder and water sufficient

Bogra.—Rainfall ·70. Sowing of jute and *aus* in progress. Fodder and water sufficient. Price of common rice at head-quarters 10½ seers, and in the interior from 9 to 11½ seers per rupee.

Pabna.—Rainfall at Sadar ·50 and Sirajganj ·96. Weather partially cloudy and rainy. *Rabi* crops cut and carried. *Boro dhan* favourable. Fodder sufficient. Relief wages calculated at 9½ seers per rupee. Numbers on relief on Saturday, 27th March—

	Men.	Women.	Children.	Total.
Test-workers ...	160	Nil	51	211

Dacca.—Rainfall at Sadar ·79, Manikganj ·49, Munshiganj 2·74, Narainganj 1·75. Weather cloudy and rainy. Recent rain has done much good to standing crops, especially to *boro*. Lands are being prepared for cultivation of jute and *aus*. Want of drinking-water reported from Munshiganj and Manikganj subdivisions. Fodder available No cattle-disease. Price of common rice, 9 to 11 seers per rupee.

Mymensingh.—Rainfall at Sadar 1·06, Kishorganj ·28, Netrokona 2·33, Jamalpur 2·02. Weather cloudy and changeable. Good rain in the northern portion of the district. Lands everywhere prepared. Sowings commencing. *Boro* much benefited by rain. Cattle-disease reported from Netrokona and Kishorganj. Price of common rice 9 to 10 seers per rupee.

Faridpur.—Rainfall at Sadar ·47, Goalundo ·54, Madaripur 1·33. Weather normal. Recent rain will facilitate ploughing and sowing, but more wanted Price of common rice 9 to 10 seers per rupee. Fodder and water sufficient.

Backergunge.—Rainfall at Sadar ·30, Pirojpur ·51, Patuakhali and Bhola ·10. Weather cool. Prospects of crops poor. Common *aman* rice sells from 8½ to 11 seers per rupee.

Tippera.—Rainfall at Sadar 2·19, Brahmanbaria 2·05, Chandpur 1·91. Weather cool with intermittent showers and clouds Want of good water reported from many places in Chandpur. Price of rice increasing slightly—

	Srs. c.	Srs. c.	
Sadar	9 0	to 10 0	per rupee.
Brahmanbaria	10 0	to 11 8	
Chandpur	9 8	to 10 0	

Noakhali.—Rainfall at Sadar 1·54, Feni 2·13. Lands being cultivated for *aus*. Rain has done good. Fodder and water not sufficient. Price of common rice 8½ to 10½ seers per rupee.

Chittagong.—Rainfall ·84. Weather warm and occasionally cloudy. Prospects of *rabi* crops not favourable. Water and fodder sufficient. Rice selling at 10 seers per rupee. Sporadic cattle-disease continues.

Patna.—Rainfall at Sadar ·64, Bihar 60, Hilsa ·50, Dinapore ·42, Bikram ·38. Preparation of fields for *bhadoi* and paddy seedling beds facilitated by the rain, which has also improved the prospects of sugarcane, millets and cotton. *Rabi* crops are being gathered and threshed. No damage by rainfall so far reported. Fodder and water for cattle sufficient. Green fodder in Bihar almost nil. Price of common rice at Patna 10½ seers per rupee. Numbers on relief on Saturday, 27th March—

	Men.	Women.	Children.	Total.
Relieved in poor-houses ...	56	23	15	94
Otherwise relieved	24	22	Nil	46
Total ...				140

Gaya.—Rainfall at Sadar 1·10, Jahanabad ·71, Aurangabad ·37, Nawada ·18. Harvesting of *rabi* and collection of opium almost over. Price of common rice 8½ seers per rupee.

Shahabad.—Rainfall at Sadar ·75, Bhabua ·36, Buxar ·43, Sasaram ·54. Rain has not done much damage to crops in fields or on threshing floors, and has benefited sugarcane. Harvesting of *rabi* and plantation of sugarcane continue. Fodder and water for cattle in Bhabua not sufficient. Price of common rice 8½ to 9½ seers per rupee. Latest price of rice at Bhabhua (8½ seers per rupee) fixes relief wages. Numbers on relief on Saturday, 27th March—

Monghyr.—Rainfall at Sadar ·48, Begusarai ·47, Jamui 1·92 Weather cold, cloudy and rainy towards the latter part of the week. *Rabi* harvesting continues; outturn good. Crops damaged by rain in Jamui. *Mahua* crop also injuriously affected. Mango crop likely to be a poor one. Cattle-disease reported from Begusarai. Sufficient fodder and water. Common rice sells as follows:—

	Srs. c.	
Monghyr	8½ to 10 0	per rupee.
Begusarai	8 6	
Jamui	8 to 9 0	

Bhagalpur.—Rainfall at Sadar 2·15, Banka 1·14, Supaul 1·39, Madhipura 1·45. Weather wet; wind easterly. The rain will accelerate the preparation of field for sowing of broadcast paddy and *bhadoi* crops but it has done harm to *rabi* crops on the threshing floor. *Mahua* crop has also been damaged to some extent. It has been beneficial to indigo and sugarcane. Cattle-disease reported from parts of Supaul and Banka. Water sufficient. Fodder scanty in Katoria thana of Banka. Prices are—

Common rice—

	Srs. c.

The decrease is due to labourers being drawn to agricultural work.

Malda.—Rainfall at Sadar 1·73, Chanchal 1·06, Gajole 1·66, Shibganj ·41. Much good has been done by the rain, and ploughing and sowing of *bhadoi* rice going on everywhere. Rice selling at 8½ to 9½ seers per rupee.

Sonthal Parganas.—Average rainfall 1·4. *Mahua* falling, somewhat damaged by rain. The rain has benefited sugarcane and *boro* rice. Jamtara prices—rice 10 seers; district prices—rice 9 to 11 seers and maize 9 to 13 seers. Cattle-pox in Rajmahal. Rain has improved fodder and water-supply. Numbers on relief in Jamtara on Saturday, 27th March—

	Men.	Women.	Children.	Total.
Relief-workers	1,073	709	531	2,313
Dependants	17	47	141	205
Otherwise relieved ...	22	22	1	45
Total ...				2,563

Deoghur private relief-works—men 122, women 70 and children 15.

Cuttack.—Rainfall at Sadar 1·18, Jajpur 1·56, Kendrapara 3·06, Banki 1·08, False Point 3·69. Weather hot. *Dalua* harvest in progress. Cattle-disease in places. Common rice sells as follows:—

	Srs. c.	
Cuttack	12 8	per rupee.
Jajpur	14 7	
Kendrapara	14 7	
Banki	15 12	

Balasore.—Rainfall at Sadar 5·99, Bhadrak 1·10. Ploughing going on. Sugarcane being pressed and transplanted in places. *Dalua* ripening and being harvested in places. Price of rice varies from 12 to 15 seers per rupee in the interior. Rice sells at 12 and 13 seers per rupee at Balasore and Bhadrak respectively. Water and fodder sufficient.

Puri.—Rainfall at Sadar ·21, Khurda ·28. Slight rain throughout the district, Sky overcast with clouds. State of standing crops fair. Ploughing going on for next rice crop. Food and fodder-supply fair. Price of common rice stationary. Famine wage calculated at 10 seers and 10¼ seers per rupee. Numbers on relief on Saturday, 27th March:—

	Men.	Women.	Children.	Total.
Relief-workers	3,351	46	607	4,004
Dependants	2	Nil.	15	17
Otherwise relieved	11	22	184	217

Total ...				4,806

Hazaribagh.—Rainfall at Sadar 1·13, subdivision ·51. Thunderstorms have done much harm to bumper crop of *mahua*; 12 annas still possible. Ploughing for *bhadoi* and paddy in progress. Prices are—rice 7 to 11 seers, *makai* 8 to 13 seers, *mahua* 20 to 40 seers. Water and fodder available. Numbers on relief on Saturday, 27th March—

	Men.	Women.	Children.	Total.
Test-workers ...	957	637	510	2,104
Fed at kitchens ...	166	116	288	570
Total ...				2,674
Cotton workers				700

Lohardaga.—Rainfall 1 09. Ploughing continues. State of *tewa dhan* favourable *Mahua* slightly damaged by rainfall. Rice sells at Ranchi 8 seers, and in the interior from 8 to 12 seers per rupee. No report of cattle-disease. Fodder and water sufficient. Grain in stock sufficient for the present.

Palamau.—Rainfall ·55. Weather most unusual. Rain accompanied by hail, high winds, and much thunder and lightning. *Rabi* and *mahua* seriously damaged; the former is expected to yield about 6 annas and the latter about 8 to 10 annas. Great rise in prices 18 markets selling rice below 8 seers, against 13 in last week; 19 markets against 9 at 8 seers; 39 markets against 40 over 8 seers, but below 9 seers (including Maharajganj); 9 markets against 20 at 9 seers; one market against 2 above 9 seers, but below 10 seers. 961 maunds of Burma bounty rice imported this week; price raised to 8 seers 7 chitaks per rupee. Cattle-disease prevailed in many parts.

Relief-workers	1,601	1,198	463	3,262
Otherwise relieved	469	894	268	1,631
Total ...				4,893

Manbhum.—Rainfall at Sadar 2·02, Gobindpur ·85. Weather cool. *Mahua* somewhat injured by rain. Rinderpest reported from Raghunathpur thana. Fodder and water sufficient at present. Average price of common rice at Sadar 10 seers, and at Gobindpur 9 seers per rupee. Price on which wage on works calculated is 9½ seers on average. Supply sufficient at present—

	Men.	Women.	Children.	Total.
Test-workers	1,917	1,280	268	3,465
Dependants ...	2	Nil.	18	20
Gratuitous relief	819	1,828	1,432	4,079
Total ...				7,564

Singhbhum.—Rainfall at Chaibassa 1·30, Chakradharpur 1 42, Ghatsilla 1·57. Rice plentiful. Price 9 to 12 seers per rupee.

General Summary.—There was general rain all over the Province during the week. The rain has done much good to spring rice, indigo, and sugarcane, and has considerably assisted the cultivation of lands for autumn rice and jute, which is now going on briskly. The rain is not reported to have caused any general injury to *rabi* crops whether in the fields or on the threshing-floors, but the *mahua* crop in the Bhagalpur and Chota Nagpur Divisions

has suffered some damage. There was a slight rise in the price of rice in some districts during the week. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Nadia (common rice) 10 seers, Murshidabad (common rice) 10 seers, Khulna (common rice) 10 seers, Rajshahi (common rice) 8 to 9 seers, Pabna (common rice) 9½ seers, Patna (common rice) 10½ seers, Shahabad (common rice at Bhabua) 8½ seers, Saran (barley) 12 and 13 seers, Champaran (Indian-corn) 9¾ seers, Muzaffarpur (Indian-corn) 10½ seers, Darbhanga (Indian-corn) 9 seers, Bhagalpur (common rice) 10 seers, Sonthal Parganas (rice at Jamtara) 10 seers, Puri (common rice) 10 and 10½ seers, and Manbhum (common rice) 9½ seers.

The numbers on relief on Saturday, the 27th March, were —

Nadia	...	19,105

The total fall from 1st January to 27th March 1897		2·20
The average fall of the corresponding period for 24 years, Surveyor-General's Office		2·70

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed, open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; t, thunder; <, lightning; /, strong wind; d, drizzling rain; p, passing temporary showers; ⌓, dew.
